MONUMENT REVIEW: SECRETARY ZINKE RECOMMENDS NO MODIFICATIONS TO CANYONS OF THE ANCIENTS

WASHINGTON – Today, U.S. Secretary of the Interior Ryan Zinke announced Colorado's

Canyons of the Ancients National Monument is no longer under review and that he will recommend that no modifications be made to the monument. The monuments were under review in accordance with President Donald J. Trump's April 26, 2017, executive order. The recommendation comes after review of public comments and conversations with stakeholders.

"When the President and I began the monument review process we absolutely realized that not all monuments are the same and that not all monuments would require modifications. Today I'm announcing that Canyon of the Ancients National Monument review process has concluded and I am recommending no changes be made to the monument," **said Secretary Zinke**. "Canyons of the Ancients is gorgeous land, but its monument status as the most high-density Native American archaeological sites in the Nation is clear. The history at this site spans thousands of years, and the federal protection of these objects and history will help us preserve this site for a thousand more years."

DOI COMMS REPORT

Press Inquiries:

- ☐ Many logistical and small inquires.

□ Washington Post, The Hill, NPR, others - REQUEST-- Writing today on Joel Clement and his "whistleblower" OpEd. I'd like to speak to someone at DOI for a response to his allegations and also comment about the wisdom of reassigning various senior personnel to positions for which their expertise does not appear relevant. Can you help me with that?--RESPONSE- Regarding the op-ed: The Department does not comment on ongoing matters such as whistleblower complaints. We look forward to working with the Office of Special Counsel to address any questions they might have about this matter. Regarding the shuffling of SES at DOI: The President signed an executive order to reorganize the federal government for the future and the Secretary has been absolutely out front on that issue. In fact, he mentioned a Department-wide, front lines-focused reorganization on his first day address to all employees. The purpose of the Senior Executive Service is to ensure that the executive management of the government of the United States is responsive to the needs, policies, and goals of the Nation and otherwise is of the highest quality. Senior executives are the highest paid employees in the federal government and signed up for the SES knowing that they could be called upon to work in different positions at any time. Congress meant for the SES to be a mobile force that are capable of taking on different assignments to meet the needs of the agency. Personnel moves among the Senior Executive Service are being conducted to better serve the taxpayer and the Department's operations.

□ Reuters - REQUEST-- I'm inquiring about the process of NEPA. Specifically whether Border Patrol is adhering to protocols of NEPA compliance regarding the recent announcement of a border wall to be built at the Santa Ana NWR.—RESPONSE-- The Department of the Interior (DOI) is one of several federal agencies that U.S. Customs and Border Protection (CBP) has engaged with to implement the President's Executive Order (EO) 13767 - Border Security and Immigration Enforcement Improvements. CBP has included DOI in initial discussions regarding the implementation of the EO in south Texas. For inquiries, please contact U.S. Customs and Border Protection's Office of Public Affairs at cbpmediarelations@cbp.dhs.gov

□ NY Times – REQUEST - 1. Is there a date for when Secretary Zinke will make his official recommendation to the President re Bears Ears? If so, what is it, and if not, why not and what is the time frame being considered? 2. How does DOI respond to the charge that there is no legal precedent for changing the designation of a national monument? 3. Given how much the outdoor rec industry contributes to the economy, what is the rationale for reducing the size of Bears Ears? 4. Do you feel the outdoor rec industry is being unreasonable in considering the reduction of Bears Ears? How have the conversations gone?—RESPONSE-- 1. The formal review period lasts 120 days (ends August 24), which is outlined in the executive order. There is not a mandated date for announcing recommendations. Two monuments that are no longer under review were announced last week. 2. Monuments have been modified by presidents on a number of occasions by both republican and democrat administrations. Furthermore, it's important to note that the Administration and Congress will work together on land management decisions. Using Bears Ears as an example, the Secretary recommended that Congress take action to set aside land as a national recreation area and also to officially establish Tribal co-management (co-management can only be granted by Congress, not the executive branch). 3. There is absolutely no reduction in the amount of public land. The land was federal land before the monument designation and if the boundaries of the monument are

modified, the land would still be public land, managed by the agency that previously managed it. In the example of Bears Ears the land is managed by the Bureau of Land Management even if the land was not designated a monument it would still be managed by the BLM. Recreation and access to public lands is a major pillar of the Secretary's policy agenda and recreation will always be a major part of public lands under this administration. 4. See previous answer. The Department has had dozens of conversations with various outdoor recreation industry representatives and has heard a number of different sides of the issue from these stakeholders. The one thing that everyone agrees with the Secretary on though is that public access and outdoor recreation is a top priority.

☐ Reuters – REQUEST - Am working on a story for Reuters in which enviros allege the attached memo from Dep Sec Virginia Johnson shows Interior is seeking to reverse regs that prohibit, among other things, spotlighting and baiting tied to hunting on national preserve lands in Alaska. Would you kindly: 1. confirm the memo is authentic; and 2. provide or decline comment on enviros' claims? – RESPONSE – tbd....

Trump Administration Cancels Hundreds Of Obama-Era Regulations.

The Washington Post (7/20, Eilperin, Paletta) reports that OMB on Thursday described “how it would jettison hundreds of existing or planned regulations as part of its larger push to ease federal restrictions on the private sector.” The agency issued a list that “shows the extent to which this administration is determined to erase many of the Obama administration’s policy priorities.” In all, the Administration “said it was pulling or suspending 860 pending regulations” including 469 that “were being completely withdrawn” and 391 that were “being set aside or reevaluated.”

Interior Dept. Ordered Glacier Park Chief, Other Climate Expert Pulled From Zuckerberg Tour.

The Washington Post (7/20, Rein) reports that days before Facebook chief executive Mark Zuckerberg’s visit to Glacier National Park on Saturday “to tour the melting ice fields that have become the poster child for climate change’s effects on Montana’s northern Rockies,” the Trump Administration “abruptly removed two of the park’s top climate experts from a delegation scheduled to show him around, telling a research ecologist and the park

superintendent that they were no longer going to participate in the tour.” The Post calls the “decision to micromanage” Zuckerberg’s visit “highly unusual – even for a celebrity visit,” and points out that the Facebook founder, along “with the broader tech community in Silicon Valley has positioned himself as a vocal critic of President Trump.”

Dem To Seek Investigation Into Interior Staff Reassignments.

The Hill (7/20, Cama) reports that Sen. Maria Cantwell “wants an investigation into an Interior Department employee’s claim that he was reassigned due to his work on climate change.” Cantwell “said at a Thursday hearing that she would officially ask Interior’s inspector general to look into the matter.” Cantwell’s “request came a day after Joel Clement, the former director of Interior’s Office of Policy Analysis, wrote a Washington Post op-ed saying he was improperly reassigned to an accounting position because of his work on helping Alaskan communities cope with climate change.”

Alaskan Joe Balash Nominated For Senior Interior Department Post.

The Fairbanks (AK) News-Miner (7/20, Friedman) reports that the Interior Department “announced Thursday that President Donald Trump intends to nominate Joe Balash to serve as the department’s Assistant Secretary for Land and Minerals Management.” Interior Secretary Ryan Zinke said, “It’s been a long time since the Department had an Assistant Secretary from Alaska, and the president’s nomination of Joe Balash further proves his commitment to Alaska and rural America as a whole. Joe is no stranger to the Department of the Interior having worked alongside the department on a number of projects in Alaska. He brings an incredible combination of state and federal experience to the table, and he will be very effective in helping the department work with Congress to do the work of the American people. I look forward to his speedy confirmation in the Senate.”

NC Governor On Trump Drilling Plan: ‘Not Off Our Coast’.

The AP (7/12) reports that “under pressure from President Donald Trump, North Carolina’s governor announced his opposition on Thursday to drilling for natural gas and oil off the Atlantic coast, saying it poses too much of a threat to the state’s beaches and tourism economy.” Ahead of “a Friday deadline for comment from elected officials on the Trump administration’s request for companies to perform seismic testing under Atlantic waters, Democratic Gov. Roy Cooper held a news conference at a coastal state park to announce he’ll be registering the state’s opposition.” Cooper said, “There is a threat looming over this coastline that we love and the prosperity it brings, and that’s the threat of offshore drilling.” He continued, “As governor, I’m here to speak out and take action against it. I can sum it up in four words: ‘not off our coast.’”

House Clears Path For Alaska’s Long-awaited King Cove Road.

The Washington Times (7/20, Wolfgang) reports that the House of Representatives passed 248 to 179 a bill authorizing a “massive land swap” between the state of Alaska and the federal government that would allow for the construction of a road connecting King Cove, Alaska – an isolated community accessible only by water or air – to nearby Cold Bay. Under the legislation, tens of thousands of acres of state land would be exchanged for several hundred acres of the Izembek Wildlife Refuge, through which the road would run. President Trump “appears ready and willing” to sign the bill.

DOI COMMS REPORT

Press Inquiries:

- Many logistical and small inquiries.
- Washington Post, The Hill, NPR, others - REQUEST-- Writing today on Joel Clement and his "whistleblower" OpEd. I'd like to speak to someone at DOI for a response to his allegations and also comment about the wisdom of reassigning various senior personnel to positions for which their expertise does not appear relevant. Can you help me with that?--RESPONSE- Regarding the op-ed: The Department does not comment on ongoing matters such as whistleblower complaints. We look forward to working with the Office of Special Counsel to address any questions they might have about this matter. Regarding the shuffling of SES at DOI: The President signed an executive order to reorganize the federal government for the future and the Secretary has been absolutely out front on that issue. In fact, he mentioned a Department-wide, front lines-focused reorganization on his first day address to all employees. The purpose of the Senior Executive Service is to ensure that the executive management of the government of the United States is responsive to the needs, policies, and goals of the Nation and otherwise is of the highest quality. Senior executives are the highest paid employees in the federal government and signed up for the SES knowing that they could be called upon to work in different positions at any time. Congress meant for the SES to be a mobile force that are capable of taking on different assignments to meet the needs of the agency. Personnel moves among the Senior Executive Service are being conducted to better serve the taxpayer and the Department's operations.
- Reuters - REQUEST-- I'm inquiring about the process of NEPA. Specifically whether Border Patrol is adhering to protocols of NEPA compliance regarding the recent announcement of a border wall to be built at the Santa Ana NWR.—RESPONSE-- The Department of the Interior (DOI) is one of several federal agencies that U.S. Customs and Border Protection (CBP) has engaged with to implement the President's Executive Order (EO) 13767 - Border Security and Immigration Enforcement Improvements. CBP has included DOI in initial discussions regarding the implementation of the EO in south Texas. For inquiries, please contact U.S. Customs and Border Protection's Office of Public Affairs at cbpmediarelations@cbp.dhs.gov
- NY Times – REQUEST - 1. Is there a date for when Secretary Zinke will make his official recommendation to the President re Bears Ears? If so, what is it, and if not, why not and what is the time frame being considered? 2. How does DOI respond to the charge that there is no legal precedent for changing the designation of a national monument? 3. Given how much the outdoor rec industry contributes to the economy, what is the rationale for reducing the size of Bears Ears? 4.

Do you feel the outdoor rec industry is being unreasonable in considering the reduction of Bears Ears? How have the conversations gone?—RESPONSE-- 1. The formal review period lasts 120 days (ends August 24), which is outlined in the executive order. There is not a mandated date for announcing recommendations. Two monuments that are no longer under review were announced last week. 2. Monuments have been modified by presidents on a number of occasions by both republican and democrat administrations. Furthermore, it's important to note that the Administration and Congress will work together on land management decisions. Using Bears Ears as an example, the Secretary recommended that Congress take action to set aside land as a national recreation area and also to officially establish Tribal co-management (co-management can only be granted by Congress, not the executive branch). 3. There is absolutely no reduction in the amount of public land. The land was federal land before the monument designation and if the boundaries of the monument are modified, the land would still be public land, managed by the agency that previously managed it. In the example of Bears Ears the land is managed by the Bureau of Land Management even if the land was not designated a monument it would still be managed by the BLM. Recreation and access to public lands is a major pillar of the Secretary's policy agenda and recreation will always be a major part of public lands under this administration. 4. See previous answer. The Department has had dozens of conversations with various outdoor recreation industry representatives and has heard a number of different sides of the issue from these stakeholders. The one thing that everyone agrees with the Secretary on though is that public access and outdoor recreation is a top priority.

- Reuters – REQUEST - Am working on a story for Reuters in which enviros allege the attached memo from Dep Sec Virginia Johnson shows Interior is seeking to reverse regs that prohibit, among other things, spotlighting and baiting tied to hunting on national preserve lands in Alaska. Would you kindly: 1. confirm the memo is authentic; and 2. provide or decline comment on enviros' claims? – RESPONSE – tbd....

The Washington Post (7/20, Rein) reports that days before Facebook chief executive Mark Zuckerberg’s visit to Glacier National Park on Saturday “to tour the melting ice fields that have become the poster child for climate change’s effects on Montana’s northern Rockies,” the Trump Administration “abruptly removed two of the park’s top climate experts from a delegation scheduled to show him around, telling a research ecologist and the park superintendent that they were no longer going to participate in the tour.” The Post calls the “decision to micromanage” Zuckerberg’s visit “highly unusual – even for a celebrity visit,” and points out that the Facebook founder, along “with the broader tech community in Silicon Valley has positioned himself as a vocal critic of President Trump.”

Joe is no stranger to the Department of the Interior having worked alongside the department on a number of projects in Alaska. He brings an incredible combination of state and federal experience to the table, and he will be very effective in helping the department work with Congress to do the work of the American people. I look forward to his speedy confirmation in the Senate.”
