[Dashboard for August 2017.pdf](#)
[WO400 At-a-Glance DRAFT for Late September 2017.pdf](#)

Hi Nikki,

No problem! Glad you like it so far. Tim incorporated his edits into the document. We decided to indicate that inventory and monitoring are reported annually, while the first table for planning may be reported more frequently. Please note that Sally and Janet would still like to review with the team again so this is still a draft version.

Also attached below is the August Dashboard (I didn't receive any WO-410 updates for September and WO-420 edits are pending) and the Draft Late September At-A-Glance (Sally and Janet haven't had a chance to review but I thought I'd share just in case it's helpful for tomorrow).

Best,
Cindy

Thanks Cindy! I'd like to use it at tomorrow's check in. It looks like this incorporates Tim's suggested not to have everything spread by month but where it makes sense have the work be less frequent? This is looking much better! I'll try and review it this evening. Thanks!

Nikki Moore

Hi Nikki,

We have a draft scorecard with track changes available attached below. Janet and Sally would like to review this draft with the WO-400 team once more before making it the official scorecard but we thought we'd share it with you in case you'd like to have something to show for Tuesday's meeting. Also please note that Robin wasn't able to review before her AL.

Please let me know if you have any questions.

Best,

Cindy

On Mon, Sep 18, 2017 at 5:53 PM, Ady, Janet <jady@blm.gov> wrote:

Hi, Cindy,

Based on several discussions with 420 staff and others, I offer a new version that may be more usable for 420 programs.

I took Robin's lead re: the national programs and then divided them by programs/projects for internal audiences (where we are supporting BLM Directorates and States) and programs/projects for external audiences (where we are reaching directly to audiences external to the BLM, such as youth, visitors, partners, etc).

I also merged in 410 programs where it made sense to me under the categories.

I recommend an approach such as this for the national programs that 420 oversees because we are not in a position to set targets for the states, we have no authority to direct the state's participation, nor do we give the states funding to implement our programs; our reporting varies (we don't collect data as we go (mostly) it is annual reporting.

Happy to chat more about it, and to get a broader review within 420. I think also that it will evolve with use!

Best,

JCA

WO-410: National Conservation Lands

Rivers and Trails 50th Anniversary

- The combined Rivers and Trails Federal Leadership Team meets monthly and is comprised of BLM, USFS, NPS, and USFWS managers. The Federal Leadership Team alongside agency tribal liaisons initiated discussion on August 10 about how to engage with Tribes on the 50th anniversaries. The next step is for the Team to reach out the Bureau of Indian Affairs to engage with tribal organizations and/or Tribes.
- Products and projects in process for the National Scenic and Historic Trails for the 50th Anniversary include:
 - A Junior Ranger booklet for National Trails
 - An interagency press release is in development for release on October 2, 2017 to initiate the year leading up to the 50th anniversary on October 2, 2018.
 - A social media focus on BLM-managed sites and segments available for public visitation along the trails.
 - A middle school teaching guide led by WO-420, including excerpts of pioneer diaries that illuminate diverse views about cross-cultural interactions as emigrants traveled the trails. The guide is currently at the NOC for design.
 - Trail portal and wayfinding signage.
 - Conference and event displays; training offerings; and a communications strategy.
 - The BLM is participating in external and interagency efforts such as a trail intern mini-grant program that will be offered by the Partnership for the National Trails System, and a training workshop in coordination with Rivers.
- Products and projects in process for the Wild and Scenic Rivers (WSR) 50th Anniversary in 2018 include: a WSR 50th Toolkit, conference and event displays, fact-sheets, and a communication strategy.

National Monuments & National Conservation Areas

- Final beta testing of all five online national monument/NCA training modules has been completed. Feedback on the modules was provided to the National Training Center before web development. The National Monuments online training course is anticipated to be released this fall 2017.
- On August 24, the Secretary sent the draft report on the National Monuments review to the White House.

National Wild & Scenic Rivers

- The Interagency Wild and Scenic Rivers Coordinating Council is working with USGS to show the National WSR System on USGS topo maps. The council is also working on an interagency database and map for wild and scenic study rivers.

National Scenic & Historic Trails

- On September 21, the Partnership for the National Trails System hosted a webinar on the new Trail Intern Grants program, developed in partnership with the BLM, NPS, and USFS.
- On October 15 is the Partnership for the National Trails System National Trail Intern Grants program deadline for applications. The Partnership's program was developed in collaboration with the BLM, NPS, and USFS. Deb Salt is leading the BLM's efforts on the program.
- Deliberations will be complete on the 2 initial proposals received for the Statement of Work to address programmatic needs for National Trail Inventory and Monitoring protocol.
- The Old Spanish National Historic Trail Comprehensive Administrative Strategy is nearing completion. The BLM UT has the lead on finalizing with the NPS.

Travel and Tourism Program

- In mid-September, Sally Butts and Angela West attended the American Indian Alaska Native Tourism Association's annual meeting and presented on travel and tourism opportunities on public lands and how these align with the Department's priorities to expand hunting, fishing, recreation, and access to local communities.
- The draft BLM Travel and Tourism Plan is in the final stage of editing and a scheduling request has been submitted to brief leadership.

Wilderness

- Peter Mali, Wilderness Lead, is currently on a detail as the BLM Chief of Staff, through September of 2018.

Science

- Mara Alexander is meeting on a monthly basis with Citizen Science Coordinators from USGS, FWS, NPS, and BIA to continue work on creating a Citizen Science Framework that all DOI agencies can utilize when working with the public to gather data. This framework will contain guidance on monitoring and managing natural resources on public lands. It will also incorporate relevant examples of joint DOI efforts with practical guidance on how to get started, and will encourage collaboration across all bureaus by leveraging each of our bureau's different resources and mandates.
- National Conservation Lands Scientific Studies Support Program projects are underway. Final reports will be submitted by the end of calendar year 2017.
- WO-400 continues to be an active member of the BLM National Science Committee and has a role leading and supporting many of the FY17 priorities.
- Four National Conservation Lands units began work on science plans this fiscal year: Rio Grande del Norte National Monument, Grand Staircase-Escalante National Monument, Craters of the Moon National Monument and Steese National Conservation Area.

WO-420: Education, Interpretation, and Partnerships

Education

- General Updates
 - Beginning in October, WO-420 will recruit field offices to host “Teachers on the Public Lands” interns for summer 2018. In partnership with the University of Colorado-Denver approximately 30 teachers will work with BLM staff in local communities on education and youth engagement programs that focus on local public land resources and management issues.
 - My Public Lands Junior Ranger “Citizen Science” activity book is at the BLM National Operations Center for design and layout. The booklet (for youth ages 7-12) will be available for distribution by October.
 - A Classroom Investigation Series teaching guide about National Scenic & Historic Trails is at the NOC for design and layout. The guide includes three activities for middle school teachers and will be printed and available for distribution by the end of October.
 - Education websites are being updated with completion scheduled by the end of September. Materials and programs will now be under “for kids” and “for teachers.” Field offices are developing individual “education and youth engagement” web pages that will highlight programming at a local level. All new pages will facilitate regular updates to include timely programming and features on new priorities.
 - Three of BLM’s Hands on the Land (HOL) sites (Empire Ranch at Las Cienegas NCA, Fish Slough at the Bishop FO, and Meadowood SRA) will host site visits from the National Environmental Education Foundation (NEEF) in the month of October. NEEF is identifying successful strategies within the HOL program that lead to long-term partnerships between public lands, educators, and communities. Lessons learned from the BLM sites will be part of a final report that details program needs, successes, and best practices.
 - By September, Spanish-language editions of the Junior Ranger “Geology and Fossils” and “Native Plants” activity books will be available in print from the BLM Printed Materials Distribution Services; pdf files will be posted on the BLM Junior Ranger program website.

Every Kid in a Park (EKIP) Program

- Year 3 of Every Kid in a Park (EKiP) began on September 1. DOI will not issue a national press release on the launch, but has provided some communications guidance, including advice that “the program should not be introduced with ties to any administration or specific personnel.” The program is managed by the seven agencies involved, with no direct connection to the White House or the current administration. EKIP passes and brochures, in English and Spanish, are available.
- Year 2 of Every Kid in a Park concluded with final reporting of 12,428 passes distributed by the BLM from September 1, 2016 - August 31, 2017. This is almost 5,000 more than Year 1. According to

reporting, the BLM finished 3rd among agencies distributing passes in Year 2, behind NPS and the Forest Service.

- Youth
 - 21st Century Conservation Service Corps (21CSC)/Every Kid Outdoors
 - Hearings were held in the House on the Every Kid Outdoors Act and the 21CSC Act, resulting in a Question for the Record asking DOI agencies for a list of all youth programs. WO-420 worked with WO-400, WO-100, Legislative Affairs, and members of the DOI Youth Team to compile a response.
- Public Lands Corps
 - The BLM team (from WO-420, Office of Recruitment and Retention Programs, and the Grants Policy Program Manager) continues its work on comprehensive Public Lands Corps Program guidance, including the PLC hiring authority. The goal is to share a draft of the guidance with State Leads by September.

Volunteers

- National Public Lands Day (NPLD) is on Saturday, September 30, 2017. The BLM has 276 projects at 132 sites being hosted by 83 different BLM offices. An estimated 10,000 volunteers are expected to participate. T-shirts for volunteers were delivered in early September. Extra shirts are available at the NOC if needed. These volunteer recognition shirts are extremely popular and greatly appreciated by field staff and volunteers alike.
- On September 19-21, a team of members of the Volunteer Program Adjunct Team will convene to work on updates to the BLM Volunteer Program Manual Section 1114.

Partnerships

- During the end of September, a scheduling request was submitted to brief the Director on the final version of the BLM’s Donations, Solicitation, and Fundraising Policy – MS 1105, in final preparation for issuance to the field.
- On September 21, the Managing by Network partnerships and collaboration training program team and federal coordinators met to review evaluation results from the 2017 program and determine 2018 program announcement plans, course schedule, and curriculum.
- Final comments from the field and key program leads on the draft Friends Partnership Toolkit are being reviewed and addressed, prior to finalizing the toolkit components, developing the webpages to host the toolkit, and preparing an IB to release it to the field.

Legislation

- WO-420 provided comments to Legislative Affairs on the Recreation Not Red Tape Act (S.1633), which would reduce barriers to recreation opportunities on public lands. Sections of the act deal with the role of partners and volunteers in maintaining public lands and with reporting requirements, including for youth participation in recreation activities.
