RE: 12-16

Hi Nina and Peter, Suzanne is recommended for DTSP 1108. Note for the Southeastern States PRMP/FEG, WCESD reviewed the RMP and there are no outstanding issues. The planning area contains the higher risk Lighthouse CM/NASC, WSA, and NDAI. The WCESD BP can be found at: <https://docs.google.com/>

Comments provided on the Federal Register Notice include the notice should state the RMP establishes National Trail Management Corridors for segments of the Potomac, National Heritage, Scenic Trail and the Washington-Richardson Revolutionary Route National Historic Trail, and suggested adding to the notice that in other rule-making package materials.

The MAN/CA program reviewed and doesn't have comments on the notice package. The RMP program concurs with the PRM comments. Call is an 11 am 11 hour 11 based on the WSA program but it should be fine with the language added to the PRM in the stipulations described above. No wayway meet the WSA at

Please let me know if additional information is needed.

Thanks for the update!

Is Nina included in the meeting with Eastern States? Since the DMS is a National Conservation Lands unit, Nina should be included in discussions in the ACSC meeting.

Thanks,

WCESD comments were addressed and the brief was done. So, all briefing took place. There were some issues regarding overlapping designations between recreation and ACSC. Additionally making sure that the purpose and need statement captures the spirit and content is also essential. I think Eastern States is working intensively in

consequence of where the Federal Register package is, 10 and we will submit that the issues raised at the AD briefing are addressed. We will need help and support from 600 to work this will help you in the long regarding any further developments.

I will keep you updated.

All the best,

Krista

Hi Nina, I hope you are well. WCESD has the NDA for the Southeastern States PRMP/FEG in DTSP. There are remaining issues that were to be worked out by Eastern States, WCESD, and WCESD but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will handle.

Thanks,

Subject: Reminder! Feedback is wanted - Notice of Proposed Supplementary Rule for Canyons of the Ancients National Monument in Montezuma and Dolores Counties, Colorado
To: Robert Wick [mailto:rwick@blm.gov], "Steve, Steve W" [mailto:steve@blm.gov]
Cc: NNM-Moore [mailto:moore@blm.gov], Peter Wolf [mailto:pwolf@blm.gov]

A quick reminder that your feedback is requested on the Notice of Proposed Supplementary Rule for Canyons of the Ancients National Monument (Canyons WMA). Please provide feedback using the "suggestions" mode in google drive or let me know you don't have feedback.
The proposed supplementary rule would result in changes to some currently authorized activities related to collecting geological and biological materials, commercial filming and photography, recreational shooting activities, geocaching, climbing, camping in archaeological sites, and forest management.

Thanks,
Britta Nelson

Dec 17 10:40 AM

To: NMSS, ms. Heather, Sally
Many thanks NMSS and BWSN

Nelson, Britta <brittan@blm.gov>
Dec 17 10:45 AM

To: Kelly, NMSS, Heather, Sally
Hi Kelly, we wanted to let you know NMSS provided a comment in DTG.

Please add to the briefing paper under Item 2 that transportation management and protection of desert tortoise habitat to help meet obligations under the Washington County NCP were also identified as issues.

For the FRN, I have also noted that the final USFS/NCA Agreement BMAP includes an avoidance area that allows for the consideration of a proposed northern transportation route and that any proposed route must meet criteria specified in the Agreement BMAP and be consistent with USFS/NCA's conservation purpose for the NCA, and DTG.

Call: 124

Comment: Britta Nelson
Hi NMSS and Kelly, I am not recommending for DTG 1.207 NCA of 100 for the Proposed Gold Butte Mine Project, White Pine County, NV. Per the Notice BP, there are no lands with wilderness characteristics or units of the National Conservation Lands in the project area. I've noted this in a comment in DTG.

The Notice BP Item #12 states: "There are no natural/monuments, national conservation areas, or other designations, national scenic or historic trails, wild and scenic rivers, wilderness study areas, wilderness areas or lands with Wilderness Characteristics located within the proposed project area. The BLM and BLM's National Wilderness of the proposed project area in the Nevada-Texas National Forests (N-TNF) Districts. The remaining four wilderness areas located within the proposed project area include: Death Valley National Monument, and the Nevada-Texas National Forests. Portions of each of these four wilderness study areas (WCA) are located within the proposed project area." The Notice documents are attached. Please let me know if additional information is needed.

Britta Nelson, M.P.A., Program Analyst
National Conservation Lands (NCL) (NCL-400)

Call: 125

Comment: Britta Nelson
Hi Kelly, this is in regard to our asking NMSS to include in the FRN for the NCA for Eastern Interior that outstandingly remarkable values of the designated WCA are being identified and suitability determinations are being made for eligible programs.

Does the language make sense to you?

Britta Nelson, M.P.A., Program Analyst
National Conservation Lands (NCL) (NCL-400)
Bureau of Land Management

Kelly, Kelly
Nov 29 11:13 AM

To me, NMSS
NMSS, NMSS.

I don't quite remember the specifics of our request for the FRN but provide the following as a quick response.

The Proposed BMAP/FRN/DOE consideration for items to be eligible for potential designation as WCA and Scenic Rivers, but the NMSS do not determine them to be suitable for designation as WCA and Scenic Rivers, instead protecting them through other means.

Thanks!

Call: 126

Comment: Britta Nelson
Hi Kelly - NMSS has submitted the WCA for the NCA.

Hi NMSS and Kelly, with the following feedback, comment of DTG 1.207 NCA of 100 for the Domingue-Escalante NCA is recommended. I reviewed the package and found it is consistent with our latest BP on the FRN/DOE (attached). I haven't run the package to the programs for review but let me if you'd like.

The Communication plan addresses WCA, NMSS, wilderness, lands with wilderness characteristics and other management of the NCA.

The FRN does not address the target shooting closure but I am not sure if that is required. Let me know if it should be added.

The BP identifies all items except for NMSS as a comment to "Please include in the briefing paper that a national trail management corridor will be established for the Domingue NCA."

The only other item is some of the NMSS action materials address the public utility corridor along Highway Camp/Highway 141 so wasn't sure if we should note that this should be included in the notice briefing documents or FRN.

The notice documents have been shared with you. I haven't updated them into DTG yet so I can make sure to include your feedback and the programs I noted. Let me know how you would like to proceed.

Comment: Britta Nelson:
WFOG wants to know that under the proposed plan, a NCL stipulation would be applied to the Snake WMA segments along the Colorado and Green Rivers (25,347 acres), and the Montezuma WMA Segment 3 along the Colorado River west of the closed to mineral leasing (712 acres). Have there been changes for WFOG?

To: Pamela, me, Ryan, Sally, NML, Cati

My understanding is that no changes will be made between the Snake WMA/PMMP amendments and the NCL/Approved BMP Amendments related to some of WFO and areas closed to mineral leasing. Pam, please correct me if I'm wrong.

- Fubla

Britta Nelson, Pamela

Mon 10 11 11 AM EDT

Hi Al,
The Exchange Decision package was approved on October 18, 2016. Since this is an EIS land exchange, an additional review for submission of the NMA into the FRM is required. The NMA/NCO package has been submitted into EIS and is currently being reviewed by WU. Estimated date of publication is unknown.
Publication of the NMA/NCO into the FRM and local newspapers will initiate a 45 day protest period. After the protest period and absent any protests, the NMA would be completed.
No other major accomplishments or issues to report this week.
NOTE: Please let me know if there is anyone that needs to be included or removed from the list of people receiving these reports. Thanks!
WD NCO Review Process:
Below is a list of all, as identified in EIS, for review of the NMA/NCO (offices that have completed their review/timeline are marked with R).
WD-430 Regulatory Affairs (Completed 1/10/2017)
WD-430 Land Tenure (Completed 1/13/2017)
WD-430 NEIS Review (pending)
WD-430 Regulatory Affairs
WD-436 Salt Lake Valley Study
WD-438 Regulatory Affairs
WD-440 Public Affairs

Review of the Land Exchange and possible concerns:
1) The land exchange moves BLM lands to the Agua Caliente Band of Cahuilla Indians within their reservation boundary that is also within the SERBMM boundaries. The land exchange provides key reservation lands outside the reservation boundaries but within the monument boundary to the BLM providing a larger can
2) The current BLM land being exchanged on Indian and the only way to gain access is through reservation lands and Agua Caliente permission. The exchange will allow more consistent jurisdiction of the lands by the Agua Caliente, but do not change how the lands will be managed in the future. These lands are
3) The new BLM acquired lands will provide a larger tract of land considered as lands having wilderness character of within the monument. These lands will also have a more consistent recreation use and improves management of these lands as identified in the SERBMM LAR.
4) These new acquired lands will prevent any potential development within the monument boundary. There is a currently a road connecting these lands but no right of way.
5) The Monument Manager can use the USFS any negative long term impacts from this Land Exchange.

Hi All,

The Exchange Decision package was approved on October 18, 2010. Since this is an EIS land exchange, an additional review for submission of the NEI into the EIR is required. The NEA/NEI package has been updated into EIR and is currently being reviewed by WEI. Estimated date of publication is unknown.

Publication of the NEA/NEI into the EIR and final NEI package will initiate a 90-day protest period. After the protest period and should any protests, the NEI would be completed.

No other major accomplishments or issues to report this week.

NOTE - Please let me know if there is anyone that needs to be included or removed from the list of people receiving these reports. Thanks!

WD NEI Review Process:

Below is a list of offices, as identified in EIR, for review of the NEI/NEI (offices that have completed their review/turnover are marked with X).

- WD-430 Regulatory Affairs (Completed 2/22/2011)
- WD-430 Land Trust (Completed 2/22/2011)
- WD-430 NE-ES Division (pending)
- WD-430 Regulatory Affairs
- WD-430 Solicitor's Office & SOI
- WD-430 Regulatory Affairs
- WD-410 Public Affairs
- WD-400 Minerals and Geology Management
- WD-400 NECS and Community Partnership
- WD-400 Communications
- WD-400 BLM Director's Office
- WD-430 Regulatory Affairs
- DOE Assistant Secretary (Land/Minerals)
- DOE NEI Regulatory Affairs
- WD-410 Regulatory Affairs

Next Steps:

- * NEA/NEI published (90 protest period begins)
- * If no Protests, Review, Closing
- * Final NEI/NEI Completed
- * Final Title Opinion (BLM Accepts Title)

Appraised Values and Equalization: Date of Value 4/30/2010

Net Federal Lands: \$485,000
Federal Lands: \$745,000
Cash Equalization to be paid to BLM (BWSF Funds): \$260,000

Current Plan for this Week

- * Attend GAO - Coordinate with GAO/WEI re. NEA/NEI Package

Exchange Overview:

- * This exchange involves disposing of 2,540 acres of Federal land to the Agua Caliente Band of Cahuilla Indians in exchange of 1,471.24 acres of non-Federal lands.
- * All of the lands involved in the exchange are located within the Santa Rosa and San Jacinto Mountains National Monument, Southern California Desert District.
- * The Agua Caliente serial number is CA-6262P102.

Exchange Decision Phase Accomplishments:

- Palm Springs Draft EIS (Completed Mar 2010)
- CEQ Review Draft EIS (Completed April 2010)
- Palm Springs Draft NEA/NEI for CEQ review (Completed April 2010)
- Nat'l Legal Description Review (2010) (Completed April 2010)
- Palm Springs Request for NEI consultation (Completed July 2010)
- Nat'l Legal Description Request (Completed July 2010)
- Nat'l Open Review (Completed July 2010)
- CEQ Review of NEI (Completed Aug 2010)
- CEQ NEI Review (Completed Aug 2010)
- Statement of Work (2010) awarded to BWSF (Completed Dec 2010)
- WEI NEI published (protest period) (Completed Dec 2010)
- Protest Appeal submitted (Completed Jan 2011)
- National EIS/NEI consultation (Completed Dec 2010)
- Appraisal Complete Appraisal Reports (Completed April 2011)
- CEQ Review/Sign-off Report (Completed Dec 2010)
- AGRI Acceptance of Review and Offer to Exchange (Completed June 2011)
- Palm Springs NEA/NEI/NEI - Value Equalization/NEI Finding (Completed Aug 2011)
- Palm Springs - NEA/NEI/NEI NEI (Completed Dec 2011)
- CEQ Review of NEA/NEI/NEI NEI (Completed Dec 2011)
- NEI/NEI/NEI - Decision Package (Completed Dec 2010)
- CEQ/NEI/NEI - Review Decision Package (Completed Mar 2012)
- Market Analysis - (Completed April 2010)
- CEQ Concurrence - Appraisal Extension (Completed April 2010)
- Exchange Decision (2011) package to WEI (Completed April 2010)
- WEI Review/Sign-off (Completed Dec 2010)
- Final NEI/NEI Agreement

Please let me know if you have any questions.

Lily

National Conservation Lands, your review is requested of DTEIS 1517, NCM for the Supplement to the RMP for the Southern Nevada District (Las Vegas and Pahrump) and the Gold Butte National Monument. Please provide feedback in the notice documents in google drive using the "suggestions" mode by April 18. I
I reviewed and provided some feedback on the notice documents.
The comments that plan has been updated to include reference to the 2012 AGO instead of the 2010 AG, with a comment that this agreement (combining plan with separate NCMs) is specifically identified as a planning action in RMP National AGO.
The NCM discussion has been revised to include reference to the 2012 AGO instead of the 2010 AG, with a comment that this agreement (combining plan with separate NCMs) is specifically identified as a planning action in RMP National AGO.
For the notice briefing paper, a participation note was corrected and a comment was made asking for the briefing paper to identify the units of the National Conservation Lands that are in the planning area.
Corrections are made to NCMs reference to the briefing notes.
Made a comment in the briefing notes to please identify the public meeting and outreach engagement process that will focus on parties interested in GDMN.
Made a comment in the briefing notes asking if participant issues had been identified for the GDMN and if they should be listed.
As a reminder, as agreed at the March 22 meeting with Nevada and WDC2021.
A proposed Briefing Document for the Central Region NCM package will be sent to the WDC and will include a specific section highlighting the public meeting and outreach engagement process with a focus on parties interested in GDMN and will note the WDC2021/NCM2021/Nevada meeting held to discuss the
Completion of the District-wide RMP will incorporate GDMN issues with the Special Designation section of a RMP.
GDMN will have a separate Record of Decision.
Additional field work for lands with wilderness characteristics will occur in the Gold Butte area.

Thanks for the update!
Is NINA included in the meeting with Eastern States? Since the DNR is a National Conservation Lands unit, NINA should be included in discussions in the NCEC meeting.
Thanks,

Hi Ryan, I hope you are well. W04 10 has the NGA for the Southeastern States PMPT/ETS in OYS. There are remaining issues that were to be worked out by Eastern States, W02 10, and W04 10 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Thanks,

Hi Shiva, I was hoping you could provide some information on the Southwestern States PRRP/FEIS. W0400 has the NOA for the Southwestern States PRRP/FEIS in DYS. There are remaining issues that were to be worked out by Eastern States, W0210, and W0400 but I am not sure if those discussions have not occurred yet.

Thanks!

 Subject: Check in on Southeastern States PR&P/F&S
 To: Ryan Hathaway r.hathaway@kln.gov
 CC: Nikki Mader nmadre@kln.gov

Hi Ryan, I hope you are well. WQD 93 has the NDA for the Southeastern States PMP/FDS in OYS. There are remaining issues that were to be worked out by Eastern States, WQ2 10, and WQD 93 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Thanks,

Britta Nelson

Comment: Letter Action:	
• Monitor: Draft BAP AISC/NGL, Fairington, New Mexico (DTPA 1322).	
o 09-09-16, Revised based upon the DTS to comply through NGL. Supplemental review requested by WCDOL. WCDOL/NGL not listed on DTS at 12121 meeting although the DTS/Spansh NGL and wilderness characteristics are in planning area.	
o As the BAP AISC must forward job development, impact analysis, etc.) WCDOL will participate to ensure that the National Conservation Lands units are adequately considered.	
o The BAP AISC proposes to amend four decision types of and gas, lands and water, vegetation management, and both with wilderness characteristics.	
o Further impacts to the DTS/Spansh NGL were identified during the response period in 2014. BAP AISC for the NGL will not be made (include the scope of amendment) but impacts to the NGL from and gas decisions will be avoided.	
o DTS AISC is an amended order (original not published) that BAP AISC that opens a response period directed to identifying public concerns and issues associated with the BAP AISC use of the DTS for its future mineral leasing decisions. The amended NGL does not result or alter the BAP AISC's ongoing response/track.	
• The BAP AISC proposed that management (DTPA 1322) issues to amend the 2008 BAP AISC for impacts not previously considered in the 2008 Resource Management Development (RMD) (RMD).	
• The BAP AISC proposes to amend four decision types of and gas, lands and water, vegetation management, and both with wilderness characteristics.	
• Land use planning that decision for other resources are outside the scope of this BAP AISC (refer to 2014 NGL), however, all other affected resources and units will be analyzed (e.g., National Conservation Lands units that may be affected by amended oil and gas decisions).	
• Potential impacts to the DTS/Spansh NGL were identified during the response period in 2014 (see Scoping Report).	
• The BAP AISC will assess for this accordingly (through information development, impact assessment, etc.).	
• The 2014 amended NGL assumes that the BAP AISC is joining the effort as a joint lead AND that the BAP AISC intends to use the DTS to inform decisions related to BAP-managed interests.	
Call: 121	
Comment: Letter Action:	
o 1. The mitigation measure was implemented: level management actions such as law enforcement patrols, and other outreach other than measures to address mitigation of impacts.	
o 2. It is not clear how NGLs in the Desert Back Country Recreation Management Zone (RMD) would be protected in the preferred since no national target shooting was expected to move/advance there when the Juan Bautista de Anza NGL RMD's closed to shooting.	
o 3. It is not clear how the original condition of the BAP AISC from 2012 would be restored if they are not damaged and/or not of the 125 closed area, how is the current damaged condition being restored? Is the assumption that the new resource? No, outside the 125 that is closed, which is the area.	
o 4. The rationale for leaving the new open to recreational target.

National Conservation Lands, a WO admin review of the Cedar City DRMP/DGS is scheduled for January 30 through February 4 with a kick-off briefing scheduled for January 18. After receiving the review file from WO210 I will share them along with a WO450 comment form on google drive. The WO450 Briefing Paper

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude land use activities that are incompatible with the management of National Conservation Land units and other related special areas?

Has the State Director been briefed on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

1. **Link** with wilderness characteristics
 Does the FO have a complete, updated inventory of lands with wilderness characteristics?
 Is an inventory report included as an Appendix?
 Are decisions made for all lands with wilderness characteristics within the planning area?
 Is evidence included for decisions to (1) emphasize other multiple uses or (2) plan for wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?
 Is a table included that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fall within each of the categories included in BLM Manual 420, which include: (1) protection of lands with wilderness characteristics is a priority over other uses, (2) emphasizing other uses to wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Excluded WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (BFS4400)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M6402?

Are suitable/unsuitable decisions made for all WSR eligible streams in the planning area?

Is the WSR Study Report including an Appendix and is it consistent with current policy?

For segments determined not suitable, do any resource allocations protect the river values; and/or is suitable provided for not protecting the river values especially? Implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Does the national trail management corridor allocation included in the alternatives?
Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Other RMP Issues
Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument preservation) that affect the alternatives?
How do these unique issues or background affect the alternatives?

Cedar City_C04MPO15_W04108P_032015_final.docx

Comments: CTRs Nelson:

National Conservation Lands, a WO admin review of the GSENM DMAP-QDES is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 15. After receiving the review files from WO2101 I will share them along with a WO430 comment form on google drive. WO430 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DMAP-QDES to help guide WO430's review?

[illegible]

Link with wilderness characteristics:
Does the FO have a complete, updated inventory of lands with wilderness characteristics?
Is inventory report included as an appendix?
Are decisions made for all lands with wilderness characteristics within the planning area?
Is criteria included for decisions to 1) emphasize other multiple uses, 2) emphasize other multiple uses while applying management restrictions to reduce impacts to wilderness characteristics, and/or 3) protect wilderness characteristics over other multiple uses?
Is a table included that summarizes areas identified, acres found to have wilderness characteristics, acres and the percentage of lands that fell within each of the categories identified in BLM Manual 4-02, which include: 1) protection of lands with wilderness characteristics as a priority over other uses, 2) emphasizing other uses to reduce impacts that wilderness characteristics will occur, and wilderness character will be maintained?

Eligible and Suitable WSA

Did the FO complete WSA eligibility inventories consistent with current policy requirements 861.64001?

Did the FO complete suitability evaluations and determinations for eligible areas using factors and criteria from 866.030?

Are suitable/unsuitable decisions made for all WSA-eligible streams in the planning area?

Is the WSA Study conducted as an Appendix and is it consistent with current policy?

For segments determined not to be suitable, does our resource allocation protect the river values, and/or is a rationale provided for not protecting the river values, especially if implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Is the national trail management corridor allocation included in the alternatives?

National Conservation Lands, a WFO admin review of the GSDM DRMP ADDS is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 11. After receiving the review files from WFO2101 I will share them along with a WFO2102 comment form on google drive. WFO2102 commented previously. Allison and Rob, can you provide answers to each of the following questions from your review of the GSDM DRMP ADDS to help guide WFO2101's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMAP that do not exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Are the State Director team lead and BMAP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (per designations) BMAP and Science Based segments, and trails under study or recommended as suitable for designation?

National Monuments/National Conservation Areas and Similar Designations

If this is a candidate BMAP, is there a unique set of decisions specific to the NACNCA?

Does the BMAP identify the resources, objects, and values (BOL) for which the NACNCA was designated, and how those BOLs will be managed?

Are all land use planning decisions in the BMAP consistent with the purpose and objectives of the designating proclamation or Act of Congress that established the NACNCA?

Are new units considered or BOLs in the NACNCA identified as exclusion or avoidance areas?

Lands with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included in the BMAP?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is information included for decisions to: 1) implement other multiple uses 2) implement other multiple use while applying management restrictions to reduce impacts to wilderness characteristics, and/or 3) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes some inventory, some found to have wilderness characteristics, some and the percentage of lands that fall within each of the categories identified in BLM Manual 630, which include: 1) protection of lands with wilderness characteristics as a priority over other uses, 2) emphasizing other values impacts to wilderness characteristics, and/or 3) other values impacts to wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Suitable WMA

Did the FO complete WMA eligibility inventories consistent with current policy requirements (BLM 6400)?

Did the FO complete suitability evaluations and determinations for eligible streams using factors and criteria from MMS007?

Are suitability/unavailable decisions made for all WMA eligible streams in the planning area?

Is the WMA Study Report included as an Appendix with 3 conditions: will current plan?

For segments determined not suitable, do other resource allocations protect the river values, and/or is a release provided for not protecting the river values especially if implementation of the BMAP will degrade or eliminate those river values?

National Scenic and Historic Trails

Is the National Trail management corridor allocation included in the alternatives?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purpose of the trail?

Other BMAP Issues

Does the BMAP include any unique issues (e.g., associated settlement agreement or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?

Excludes how the unique issues or background affect the alternatives.

Please let me know if you want to start discuss. Thanks. Bette

National Conservation Lands, WFO admin review of the GSDNM/DMNP ADEIS is scheduled for January 16 through February 10 with a kick-off briefing scheduled for January 14. After reviewing the review file from WFO2011 will share them along with a WFO2012 comment form on single sheet. WFO is concerned previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSDNM/DMNP ADEIS to help guide WFO2012's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stated action plan for that unit?

Are mitigation conditions identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are adequate and/or additional measures for mitigation measures identified in the BMAP that will be required to be achieved that are incorporated into the management of National Conservation Lands units and other related special areas?

Are the future historic lands in the BMAP alternative and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (see designations) BLM and Bureau agreements, and trade under study or recommended as suitable for designation?

National Monuments/National Conservation Areas and Similar Designations

If this is a combined BMAP, is there a subpart of decisions specific to the NM/NCA?

Does the BMAP identify the resources, objects, and areas (BMA) for which the NM/NCA was designated, and how those NM/NCA will be managed?

Are all land use planning decisions in the BMAP consistent with the purpose and objectives of the designating proclamation or Act of Congress that established the NM/NCA?

Are new eligible lands or NM/NCA to the NM/NCA identified as suitable or unsuitable areas?

Lands with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is a summary report included as an appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is criteria included for decisions to (1) implement other multiple uses (2) implement other multiple uses while applying management restrictions to reduce impacts to wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes some historical, some found to have wilderness characteristics, some and the percentage of lands that fall within each of the categories described in BLM Manual 6330, which include: (1) protection of lands with wilderness characteristics as a priority over other uses, (2) implementing other values impacts to wilderness characteristics" will occur and wilderness character will be maintained?

Eligible and Suitable WMA

Did the FO complete WMA eligibility inventories consistent with current policy requirements (BLS 6400)?

Did the FO complete suitability evaluations and determinations for eligible streams using factors and criteria from MMS20?

Are suitable/unsuitable decisions made for all WMA eligible streams in the planning area?

Is the WMA Study Report included as an Appendix with 1. consistent with current policy?

For segments determined not suitable, do other resource allocations protect the river values, and/or is reference provided for not protecting the river values especially if implementation of the BMAP will degrade or eliminate those river values?

National Lands and Historic Trails

Is the National Trail management corridor alternative included in the alternatives?

Does the plan include objectives and associated management actions, desirable uses, and restrictions to safeguard the nature and purposes of the trail?

Other BMAP Issues

Does the BMAP include any unique issues (e.g., associated settlement agreement or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?

Comments how the values issue is background affect the alternatives.

Please let me know if you want to start discuss. Thanks, Bette

WFO Review EIS off briefing. GSDNM/DMNP Amendment

The WFO admin review period for the Grand Staircase-Escalante National Monument GSDNM/DMNP Amendment (BMAP) will run from January 10 - February 10, 2012. To help inform your WFO admin review, please attend this briefing for an overview of the GSDNM/DMNP ADEIS, and the DMNP and present. Please let me know if you have any questions.

- F. Bette

When

On Jan 14, 2012 from 9:00am - 12:00pm Mountain Time

Where

Call 194-713-6255 PC 2843021 WFO WFO2012 Landmarks Conference Room

Call 194
Comment: Write Nelson:
Wilderness Program

1. Consistent with technology wilderness characteristics not wilderness values for WMA, section title wilderness study areas, and putting lands with wilderness characteristics in a separate section (not a designation).

2. Ensure that land-use management planning is consistent with WMA management.

Call 195
Comment: Write Nelson:
Wilderness Program

1. Separate lands with wilderness characteristics from special designations.

2. Add BLM National Conservation Lands management to WMA.

3. Ensure all eligible areas and commercial authorizations in WMA conform to the recreation section of the 6330 manual.

to Molly, Eliza, Anna, Kelly, Ryan, Robert, Deborah
to Molly, Eliza, and Anna - I thought I'd check in on the Wilderness Study BMAP to see if there are any updates since we last communicated about the BMAP back in September 2010. We have in our records that the BMAP A proposes to amend four decision types including lands with wilderness characteristics and we

Thanks!

The WO admin review period for the Grand Staircase-Escalante National Monument (GSENM) Grazing Draft RMP Amendment (DRMPA) will run from January 30 – February 20, 2017. To help inform your WO admin review, please attend this briefing for an overview of the GSENM Grazing DRMPA. I will send the DRMPA and present. Please let me know if you have any questions.

To: Timothy, Sally
Looking like it is on the latest on GSDM "incubator" language since our discussion on this yesterday. Sorry again for not copying Tim on my original note to Ryan.

Ruth, Sally
Apr 14 (7 days ago)

To: Tim, Timothy
And Tim, my apologies for not catching that I missed you on the cc.
Thanks both for catching that!

Yes, let me know if you have questions.

Ruth, Sally
Apr 14 (7 days ago)

To: Ryan, Andrew, Matthew, Cynthia, me, Nikki, Ryan, Timothy
Thanks, Ryan. Just noticed that I used "incubator" in the closing of my email. I meant "nurture." Sorry about that...must be time for the weekend!

Have a good one, Sally

Kristin, Cynthia
Apr 14 (7 days ago)

To: Sally, Ryan, Andrew, Matthew, me, Nikki, Ryan, Timothy
All

We would like to propose language for the Drafting Paper and section 3.3.1 of the EIS that would easily clarify the issue. This involves changing the words "incubator" to "nurture with". Throughout the document, including the Purpose and Need section 3.3.1 and section 3.3.3 we use the w

The statement in the BP and 3.3.3 would read:

Given that the Proclamation provides the BLM with the discretion to coordinate landback grazing consistent with managing objects identified in the Proclamation, Alternative C provides a balance of landback grazing that recognizes the importance of working to the local custom and culture with managers

Let me know if this will work with everyone.

Thanks!

Ryan Matthews
can you and sally meet Monday to go over GSDM with the field?
Ruth Matthews
About our comments?
Ryan Matthews
yes, just to help expedite the changes, so the fully group them.
if sally is busy, the you and field could do it!
Ruth Matthews
OK, checking
re Ryan, meeting on Monday sounds good. if there's discussion about the "Incubator" issue, we should have a separate meeting with the regional GSD, also. The Value Statement used should be included in the meeting notes. Thanks!
Ryan Matthews
Sounds good!
Monday, April 17, 2017 11:47 AM
Ruth Matthews
Do you think we still need to meet this afternoon re: GSDM? It looks like there is just one item left but not sure we need to meet about it.
Ryan Matthews
I had to call you, call me back whenever!
Ruth Matthews
on the line with Sally, will call after
Ryan Matthews
ok, if you all don't need a call and are good with it? responses, I'm good as well!
Ruth Matthews
We are good with Sally's responses. Thanks Ryan!
Ryan Matthews
no problems, meeting canceled!
Ryan Matthews

To: Eric <moore@blm.gov>, NMA <moore@blm.gov>
Cc: Leah Quenberry <leahqu@blm.gov>

Hi Leah and Eric,
I rearranged and edited the response to NMA's question on the 430 comments document. I don't know if this helps anyone understand our response, but I just felt the need to do it after the briefing today. I haven't sent it to Andrew or NMA.

2. We would like to better understand how over 50% of the unit can be damaged by wildfire and at a level to reduce the breeding habitat for sage grouse by 50%, but grazing is only being reduced by a few hundred acres. We would like to see stronger rationale on how we can "lose and still not lose"?

Response: This did not not imply "increasing wildlife response time" and "success rates of restoration efforts." These were goals in the original 2007 Plan and the National Fire Health Plan, and these are still in effect. But they are outside the scope of this currently focused plan amendment. Restoration efforts are usually more slow, reduction in livestock grazing is required to free it to not crowd out planning and decision. Grazing management after a fire is a site-specific mission, and is not appropriate for a broad-scale LUP decision. This work is done under the guidelines of Emergency Rehabilitation and Restoration Plans and is outside the grazing strategy required after the rehabilitation work and is not allowed on a broad area until desirable grasses and/or forbs have been re-established, typically two or more growing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once livestock is not within any of the plant communities of the Monument do both riparian, forested grazing is not the causal factor for this. Restoring livestock would not have the effect of restoring riparian. Please see the discussion on Vegetation Condition in Chapter 3 of the 430.

Planning efforts are always contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be significant effort to implement any plan the BLM selects and publishes.

Hope I'm inaccurate on any of this.
Thanks,
Eric

Ch. 3 Special Status Species, § 115-116

Midland fowl has reached a level of eggshell damage, and is largely responsible for the habitat not meeting the seasonal requirements for egg-saviness in many areas of the Monument. Specifically, the areas identified as unsuitable (4% of unsuitable) for breeding habitat in the Monument, 79.3% of the sites were found to be unusable only because eggshell cover was lacking, and a lack of eggshell was a contributing factor within the Monument identified as unsuitable for breeding habitat, 2.6% of the sites were solely due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 27% of unsuitable sites, including the aforementioned 24%. Excessive grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, has significantly impacted sagebrush ecosystems (Jenick et al., 2003). Long-term effects from this overgrazing, including changes in plant community and soil, persist today (Jenick et al., 2003). Degradation continues unabated and spread of noxious and invasive plants (Lars & Smith, 1994).

livestock grazing "future anticipated trends" is in Ch. 4, p. 288-289. Future changes to livestock grazing in the Monument are likely, as both the BLM's and operators' management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, i.e. temperatures and wet springs, or changes that may need to occur due to monitoring and data collection.

Within the Monument, vegetation communities are influenced by livestock grazing management, wildfire, rehabilitation efforts, fuel break projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to affect changes in the vegetation communities, and thus the forage base for livestock grazing.

Appendix C. Idaho and Southwestern Montana Greater Sage-Grouse Approved Resource Management Plan Amendment Attachment 1- Chapter 2, and Required Design Features p. 163

For vegetation and successful establishment of seeded species within burned/CSR areas, all new seedlings of grasses and forbs should not be grazed until at least the end of the second growing

Comment: Britta Nelson

Nelson, Britta <bnelson@bim.gov>
Apr 20 (1 day ago)

I dug through the amendment and don't see a direct relationship between fire and AUMs (per Sally's question), but there are a few places where an association is described:

Ch. 3 Special Status Species, P. 115-116

Whether fire has resulted in a lack of sagebrush cover, and is largely responsible for habitats not meeting the seasonal requirements for sage grouse in many areas of the Monument, the issue was identified as a variable (2% of available) for breeding habitat at the Monument. 78.6% of the sites were found to be unsuitable solely because sagebrush cover was lacking, and a lack of sagebrush was a contributing factor or one within the Monument identified as unsuitable for breeding habitat. 2.0% of the sites were solely due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 29% of unsuitable sites, including the aforementioned 2.0%. Specific grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, had significantly impacted sagebrush ecosystems (Streck et al., 2008). Long-term effects of this overgrazing, including changes in plant community and soils, persist today (Streck et al., 2008). Degradation continues establishment and spread of noxious and invasive plants (Jantz & Smith, 2005).

Livestock grazing "Future Anticipated trends"

In Ch. 4, p. 268-269 Future changes in livestock grazing in the Monument are likely, as both the BLM's management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, temperatures and wet springs, or changes that may need to occur due to monitoring and data collection.

Within the Monument, vegetation communities are influenced by livestock grazing management, wildfires, rehabilitation efforts, fuel break projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to affect changes in the vegetation communities, and thus the forage base for livestock grazing.

Nelly and Lisa,
I forwarded and edited the response to NRM's question on the EIS comments document. I don't know if the bugs anyone understood our response, but I just felt the need to do it after the briefing notes. I haven't sent it to Andrew or NRM.
3. We would like to better understand how over 10% of the unit can be damaged by wildfire and at a need to reduce the breeding habitat for sage grouse by 30%, but grazing is only being reduced in the preferred alternative by a few hundred acres. We would like to see stronger rationale on how the new "how and what when funding?"
Response: This EIS does not seek ways of "increasing wildlife response time" and "various rates of restoration efforts." These were goals in the original 2007 Plan and the Revised Five Year Plan, and these are still in effect. But they are outside the scope of this narrowly focused plan amendment. Restoration efforts are usually more slow, reduction in forest grazing is required to fire is not a one size planning tool decision. Grazing management after a fire is a site specific endeavor, and is not appropriate for a landscape scale LUP decision. This work is done under the guidance of Emergency Stabilization and Restoration Plans and is outside the plan. Grazing is always restricted after fire stabilization work and is not allowed on a burned area until desirable grasses and/or forbs have been re-established, typically two or more growing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once livestock is not
While many of the plan components of the Amendment do such as riparian, forested grazing is not the causal factor for risk. Removing livestock would not have the effect of restoring riparian. Please see the discussion on Vegetation Condition in Chapter 3 of the EIS.
Planning efforts are always contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be a good faith effort to implement any plan the BLM selects and publishes.

Hopeful if it is accurate on any of this.
Thanks,
Eric

Comments to this Action:

Nelson, Rizza (rizzakow@blm.gov)
Apr 12 (4 day ago)

To: Timothy
Using Timothy for pseudonym and don't see a direct relationship between him and AUMs (per Sally's question), but there was a few places where an association is described.

On: 3 Special Review Species: R 115-115
Recent fires from 2014 burned approximately 65,000 acres of the monument, including areas identified as providing suitable components of rangeland-type grass-habitat. Adjustments to habitat determinations as a consequence of these fires has not been completed. Adjustments to habitat determinations were not completed because BLM lacks the on-site data assessments to substantiate changes in herbaceous components.

Wildfire has resulted in a lack of vegetation cover, and is largely responsible for habitat not meeting the essential requirements for sage grouse in many areas of the monument. Specifically, the areas identified as a suitability (5% of unsuitable) for breeding habitat in the Monument, 75.5% of the sites were found to be unsuitable only because sagebrush cover was lacking, and a lack of sagebrush was a contributing factor on 57% of unsuitable sites, including the aforementioned 50%. Factors limiting sagebrush growth during the low (drought) and early (drought), has significantly impacted sagebrush recruitment (Smith et al., 2002). Long-term effects from this overgrazing, including changes in plant community and soil, persist today (Smith et al., 2002). Degradation limits establishment and spread of native and invasive plants (see: B. Smith, 2002).

Limited grazing "To Have Anticipated Model"
In O. S. p. 288-289: Factors changes to livestock grazing in the Monument are likely, as both the BLM's and operators' management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, temperatures and wet/dry, or changes in the way that the resource is managed and data collection.

Within the Monument, vegetation communities are influenced by livestock grazing management, wildfire, rehabilitation efforts, fuel break projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to affect changes in the vegetation communities, and thus the long-term for livestock grazing.

Appendix C: Idaho and Southwestern Montana Greater Sage-Grouse Resource Management Plan Amendment Attachment 3 – Chapter 2, and Required Design Features p. 353
Idaho's Resource Management Plan Chapter 2 of Attachment 3 of the Idaho and Southwestern Montana AUMs for reference purposes. The guidance in this document is common to all Centers of the Mount National Monument Final Plan Amendment alternatives.

For:
vegetation and successful establishment of needed species within burned/CR areas. All new seedlings of grass and forbs should be targeted until at least the end of the second growing season, and longer as needed to allow plants to mature and develop robust root systems which will stabilize the site, compete effectively against shrubs and other invasive species, and remain sustainable under long-term grazing management. Adjust other management activities, as appropriate, to meet IDR objectives.

WOT 100-1-1: Address, in appropriate, factors of management on adjacent watershed areas to mitigate the effect of the burn on local (WOT) populations.

WOT 100-1-1: Following existing conditions, modify grazing management practices if needed to achieve long-term vegetation and habitat objectives.

WOT 100-1-1: Monitor existing area designed as suitable or unsuitable for livestock grazing. Existing active AUMs for livestock grazing within the planning area will not be changed in the final rule, though the number of AUMs available on an allotment may be adjusted based on the specific conditions to meet management objectives during temporary measures, AUM development, or other appropriate implementation planning. Additionally, temporary allotments can be made available to livestock herders, the number of AUMs, and nature of use in accordance with applicable regulations.

Call: 11
Comment: Britta Nelson
Revised final draft ROD for the Transborder Transmission Project and the NMA package sent for review by Sharon Knowlton on 05-13-16. Comments requested by CDE, 5-24-16. National Trails comments on ROD provided on 05-24-16. 05-26-17. Followed up on the Mitigation and Monitoring appendices which is missing details on projects. It will meet with the contractor several options including the purchase of mitigation in nearby designated wilderness. The NMA has drafted a plan and is now waiting on Director's approval. Once ready, it can be shared internally with the larger BLM group.

Call: 11
Comment: Britta Nelson
a) Project revised from the Wilderness Study
a) WMA's provided feedback on draft for ROD, NMA, and NMA package (05-24-16).
a) WMA's drafted compensatory mitigation language. The issue was resolved and WMA's agreed to the mitigation language which was not ideal (somebody mitigate and not avoid mitigation). The compensatory mitigation package language, as modified by WMA's, was incorporated into an addendum to the FWS on 05-01-16.

Hi Molly, Molly, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project BWP amendments/DS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WMA's in the draft's being prep.
Our records show the following project issues:
(b) (5) DPP
Additional project information follows:

To me, Molly, Deborah, Terrence, Molly, Peter, NMA, CDE, Robert
Britta,
At this time, I'm not sure what our plans are relative to a WMA review of the draft DS. I'll consult with our local management team here in New Mexico and our NMA Coordinator and get back to you on that question.
Adrian Garcia

Subject: Re: Check in on the Verde Transmission Project BWP amendments/DS
Hi Adrian, thanks for the note. I will make sure and include you in communications on the Verde project. Thanks for keeping me updated and letting me know what WMA's support might be needed as you move forward. I do have a question - does this project's identified on the priority project transmission if
Thanks,
Britta Nelson

Britta,
I was provided the e-mail below from Molly Adler here at the BLM NMA State Office. I wanted to let you know that I have been assigned as the Project Manager for the Verde Transmission Project. I'm also stationed here at the BLM NMA State Office as well. Please ensure that you include me in all future e-mailing as we start the preparation of the draft DS.
Thank you

 Subject: Re: the Verde Project Draft EIS/FEIS/Plan of Development regarding which I am the lead

Attached is a new body of the Transcribed Plan of Development which is Appendix A to the TMS ROD. It is being sent in 2 emails due to its size. The third and final email will contain the appendices to this Plan of Development. This linking went to you for a courtesy reference as you review BLM's draft

Regards,
 Steven

Subject: Here are the Translated Project draft final RQD, RQW and RQW package for review in 1 month

In reply everyone this is the first of 3 emails providing the draft final package described above. We are pleased to provide the revised final draft ROD for the TransWest Transmission Project and the NDA package for review. The body of the ROD is attached, along with the Mitigation and Monitoring appendix, which is at grant, Appendix F. Mitigation and Monitoring with the exceptions explained above, Appendix D: Responses to governor's consistency and FES comments, Appendix G: Alternatives Eliminated from further analysis and Appendix I: NPS requirements for access to Dowladge Road. Appendix B is the Plan of Development and

Our Wyoming External Affairs Office will be working directly with other states and the WHO to finalize the NOA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WO provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix.

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final R0 and the P

Comment: Britta Nelson

Revised final draft RCD for the TransWest Transmission Project and the NDR package sent for review by Sharon Knowlton on 05-13-16. Comments requested by CDR, 5-16-16. National Trails comments on RCD provided on 05-24-16, 05-26-17. Follow-up on the Mitigation and Monitoring appendix which is missing details required. It must clearly contain several sections including the purchase of individual in already designated wilderness. The WFO has drafted a plan and it is now waiting on Director's approval. Once ready, it can be shared internally with the lower BLM areas.

Cell# 126

Comment: Brita Nelson:

A ProTest received from the Wilderness Society

A WR010 feedback on draft FinalR00, R00R, and R00A package 05-26-06.

A WR010 drafted compensatory mitigation language. The issue was resolved and WR010s agreed to the mitigation language which was not ideal (used my mitigate and not would mitigate). The compensatory mitigation package language, as modified by WR010s, was incorporated into an addendum to the FEIS on 05-05-06.

Re: 12-11,
Maura, NML
Jan 12 (2 day ago)

To Tamara, Stephen, Sally, Deborah, Christopher, Georganna, me

To meet the policy and purposes of the National Trails System Act (NTSA Sec. 701), and to prevent a project which will not substantially interfere with the nature and purposes of the trail (NTSA Sec. 701), and to safeguard the nature and purposes of the National System and Historic Trails (NSHT), BLM MS-4388 1.A.A.3.a.1).

Analysis and evaluation measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (Oregon NHT), will be applied for the duration of the project from the Project. For residual (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that were National Trails System components, and will be required to be applied for the duration of the project. All mitigation measures will be feasible, additional, timely, monitored, adaptive management, and reported upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include, but are not limited to, proposed mitigation measures (e.g., design features), including the associated monitoring, adaptive management, and reporting requirements.

Please let me know if you have any questions!

On 12/15,

Moore, Niki

on 12/15 (Fri) wrote:

To: Terman, Deborah; Gales, Mark; Bailey, Christopher; Geringer, Jim; Terman, John; and Geringer - thank you for sending us the BAP for a quick review. We did notice that the BAP language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands NCEIS section on:

To meet the policy and purposes of the National Trails System Act (NTSIA, 16 U.S.C. 1201), to permit a project which will not substantially interfere with the nature and purposes of the trail (NTSIA, 16 U.S.C. 1201), and to safeguard the nature and purposes of the National System and Historic Trails (NHSIT, 16 U.S.C. 1201),

Avoidance and minimization measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For residual (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that show National Trails System components, and will be required to be applied for the duration of the impacts. All mitigation measures will be feasible, additional, timely, monitored, adaptively managed, and reported upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include appropriate proposed mitigation measures (e.g., design, planning) including the associated monitoring, adaptive management, and reporting requirement. Please let me know if you have any questions?

 To me: Mark Healey, Terrence, Mark, Peter, Nikki, Carli, Robert
 Britta,
 At this time, I'm not sure what our plans are relative to a WCL review of this draft EIS. I'll consult with our local management teams here in New Mexico and our NHPA Coordinator and get back to you on that question.
 Adrian Garcia

03-06-17, WFO Review of Section 36R Energy Corridor Region 1 draft review report

Nelson, Britta <bnelson@bim.gov>
Mar 2 (4 days ago)

I met with Sally and Peter, and we discussed the findings of the review. The report focuses on the review of energy corridors in southern California, southern Nevada, and western Arizona.

WD review of the draft report is scheduled for March 14-30. A review kick-off webinar is planned for March 15. The review will be a simultaneous SQ/NO review. Information has been gathered from the SQ/NOs, other agencies, stakeholders, and tribes for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The OYS with the notice package will follow the review.

As a refresher, here is a press release about the Section 348 Energy Corridor Regional Review: https://www.bfn.gov/no/ct/en/info/newsroom/2016/september/09_02_2016.html

I'll sent out as a heads up to the programs if that works.

To: Celia, Peter
Hi Celia and Peter, I met with Georgetown Lewis and Michael O'Brien this morning about the WOTD review of the Section 308 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.
WOTD review of draft report is scheduled for March 14-16. A review kick-off webinar is planned for March 15. The review will be a synchronous WOTD review. Information has been gathered from the USFWS, other agencies, stakeholders, and follow for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The 31% with the review package will follow the review.
As a refresher, here is a press release about the Section 308 Energy Corridor Regional Review: https://www.blm.gov/news/press/2018/September/28_09_2018.html
I'll send out a heads up to the programs if that works.

Hi Georgeann and Michael, thanks again for meeting with me earlier this month to discuss WDC's review of the Section 360 Energy Corridor Region 1 draft review report. Following up, can WDC get GSE report(s) of the corridor so we can check against our reports to determine which units are affected? Thanks!

National Conservation Lands Program, a quick heads up about the WDC review of the Section 360 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WDC review of the draft report is scheduled for March 29-30. A review kick-off webinar is planned for March 15. The review will be a continuous 10/10/10 review. Information has been gathered from the GSE, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are requested. The GSE with the review package will follow the review.

As a reference, here is a press release about the Section 360 Energy Corridor Regional Review: https://www.blm.gov/wh/press/wh/pressroom/2016/section360_2016.html

Please let me know if you have any questions at this point. Thanks.

Follow up to update on review of Section 308 Energy Corridor Region 1 Recommendations Report

Nelson, Britta (britta.nelson@blm.gov)
9:21 AM (4 hours ago)

to: Lily, Peter, Timothy, Robert, Carli, Deborah
National Conservation Lands Program, another rough update on the Section 308 Energy Corridor Region 1 Recommendations Report follow. First, the 308 Corridor Team has indicated we can expect to see the draft report for review on March 27.

Note, in response to Bob's question about GSE reports, the corridor and National Conservation Lands units have been mapped on the on the 308 map(s) found at: <http://dynamicsand.gov/section308/gse/>, or we can request the GSE reports. If you would like the reports, please let me know and I will follow up.

* update: WO#402 received from WO#910 on April 6 to address questions raised for how National Trails were addressed in the draft review report [medium potential for conflict]. Clarification was provided that the draft review report uses ROW pre-application screening criteria from WO 2011-061. The screening criteria is used to assess how M260 policy, the BLM may permit users that will not substantially interfere with its nature and purpose of the National Trails. The final Seal and Wind Rule JCL GFA 2864 JCS and Wind rule screening criteria for categorizing seal and wind applications. The final rule does not specifically include National Trails within Seal and Wind rules because they are units of the National Conservation Lands.

Follow up to update re: review of Section 303 Energy Corridor Region 1 Recommendations Report

Nelson, Britt <brittan@blm.gov>

9/21 AM (4 hours ago)

To: Sally, Peter, Terrence, Robert, Cati, Deborah

National Conservation Lands Program, another update on the Section 303 Energy Corridor Region 1 Recommendations Report follows. First, the 303 Corridor Team has indicated we can expect to see the Draft report for review on March 23.

Next, in response to all questions about DL items, the corridor and National Conservation Lands units have been assigned on the air the 303 support team at <http://blm.gov/section303/part4/>, or we can request the DL items. If you would like the report, please let me know and I will follow up.

Follow up to update re: review of Section 308 Energy Corridor Region 1 Recommendations Report

Nelson, Krista <kristan@blm.gov>
9/13 AM 8:13 hours ago

To: Terry, Peter; Timothy, Robert; Cathy, Deborah

National Conservation Lands Programs, another couple updates on the Section 308 Energy Corridor Region 1 Recommendations Report follow. First, the 308 Corridor Team has indicated we can expect to see the draft report for review on March 23.

Next, in response to a question about GIS layers, the corridors and National Conservation Lands which have been mapped on the on the 308 map are found at: <http://dmg.blm.gov/gis/section308/park/>, or we can request the GIS layers. If you would like the layers, please let me know and we'll follow up.

Section S&B Energy Corridor, Region 1 "Level 2" Review.

This email forwards for the planned R&M, USFS and supporting agency "Level 2" Review, the attached DM&T Section S&B Energy Corridor Region 1 Recommendation Report. This non-NRPA corridor revision recommendation report product is the result of the recent Section S&B West side Energy Corridor Region 1 Review.

Please provide your review comments and suggested revision within the attached document comment review form by EOB Friday, April 19th, 2013. This provides a three (3) week review period.

Identified Region 1 "Level 2" review includes:

- Region 1 (A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM, AN, AO, AP, AQ, AR, AS, AT, AU, AV, AW, AX, AY, AZ, BA, BB, BC, BD, BE, BF, BG, BH, BI, BJ, BK, BL, BM, BN, BO, BP, BQ, BR, BS, BT, BU, BV, BW, BX, BY, BZ, CA, CB, CC, CD, CE, CF, CG, CH, CI, CJ, CK, CL, CM, CN, CO, CP, CQ, CR, CS, CT, CU, CV, CW, CX, CY, CZ, DA, DB, DC, DD, DE, DF, DG, DH, DI, DJ, DK, DL, DM, DN, DO, DP, DQ, DR, DS, DT, DU, DV, DW, DX, DY, DZ, EA, EB, EC, ED, EE, EF, EG, EH, EI, EJ, EK, EL, EM, EN, EO, EP, EQ, ER, ES, ET, EU, EV, EW, EX, EY, EZ, FA, FB, FC, FD, FE, FF, FG, FH, FI, FJ, FK, FL, FM, FN, FO, FP, FQ, FR, FS, FT, FU, FV, FW, FX, FY, FZ, GA, GB, GC, GD, GE, GF, GG, GH, GI, GJ, GK, GL, GM, GN, GO, GP, GQ, GR, GS, GT, GU, GV, GW, GX, GY, GZ, HA, HB, HC, HD, HE, HF, HG, HH, HI, HJ, HK, HL, HM, HN, HO, HP, HQ, HR, HS, HT, HU, HV, HW, HX, HY, HZ, IA, IB, IC, ID, IE, IF, IG, IH, II, IJ, IK, IL, IM, IN, IO, IP, IQ, IR, IS, IT, IU, IV, IW, IX, IY, IZ, JA, JB, JC, JD, JE, JF, JG, JH, JI, JJ, JK, JL, JM, JN, JO, JP, JQ, JR, JS, JT, JU, JV, JW, JX, JY, JZ, KA, KB, KC, KD, KE, KF, KG, KH, KI, KJ, KK, KL, KM, KN, KO, KP, KQ, KR, KS, KT, KU, KV, KW, KX, KY, KZ, LA, LB, LC, LD, LE, LF, LG, LH, LI, LJ, LK, LL, LM, LN, LO, LP, LQ, LR, LS, LT, LU, LV, LW, LX, LY, LZ, MA, MB, MC, MD, ME, MF, MG, MH, MI, MJ, MK, ML, MM, MN, MO, MP, MQ, MR, MS, MT, MU, MV, MW, MX, MY, MZ, NA, NB, NC, ND, NE, NF, NG, NH, NI, NJ, NK, NL, NM, NN, NO, NP, NQ, NR, NS, NT, NU, NV, NW, NX, NY, NZ, OA, OB, OC, OD, OE, OF, OG, OH, OI, OJ, OK, OL, OM, ON, OO, OP, OQ, OR, OS, OT, OU, OV, OW, OX, OY, OZ, PA, PB, PC, PD, PE, PF, PG, PH, PI, PJ, PK, PL, PM, PN, PO, PP, PQ, PR, PS, PT, PU, PV, PW, PX, PY, PZ, QA, QB, QC, QD, QE, QF, QG, QH, QI, QJ, QK, QL, QM, QN, QO, QP, QQ, QR, QS, QT, QU, QV, QW, QX, QY, QZ, RA, RB, RC, RD, RE, RF, RG, RH, RI, RJ, RK, RL, RM, RN, RO, RP, RQ, RR, RS, RT, RU, RV, RW, RX, RY, RZ, SA, SB, SC, SD, SE, SF, SG, SH, SI, SJ, SK, SL, SM, SN, SO, SP, SQ, SR, SS, ST, SU, SV, SW, SX, SY, SZ, TA, TB, TC, TD, TE, TF, TG, TH, TI, TJ, TK, TL, TM, TN, TO, TP, TQ, TR, TS, TT, TU, TV, TW, TX, TY, TZ, UA, UB, UC, UD, UE, UF, UG, UH, UI, UJ, UK, UL, UM, UN, UO, UP, UQ, UR, US, UT, UU, UV, UW, UX, UY, UZ, VA, VB, VC, VD, VE, VF, VG, VH, VI, VJ, VK, VL, VM, VN, VO, VP, VQ, VR, VS, VT, VU, VW, VX, VY, VZ, WA, WB, WC, WD, WE, WF, WG, WH, WI, WJ, WK, WL, WM, WN, WO, WP, WQ, WR, WS, WT, WU, WV, WW, WX, WY, WZ, XA, XB, XC, XD, XE, XF, XG, XH, XI, XJ, XK, XL, XM, XN, XO, XP, XQ, XR, XS, XT, XU, XV, XW, XX, XY, XZ, YA, YB, YC, YD, YE, YF, YG, YH, YI, YJ, YK, YL, YM, YN, YO, YP, YQ, YR, YS, YT, YU, YV, YW, YX, YY, YZ, ZA, ZB, ZC, ZD, ZE, ZF, ZG, ZH, ZI, ZJ, ZK, ZL, ZM, ZN, ZO, ZP, ZQ, ZR, ZS, ZT, ZU, ZV, ZW, ZX, ZY, ZZ.

It is important to note, that the Draft Report is comprised of two (2) separate file sets as follows:

- Draft Report is Microsoft Word document (2 MB) file located on the Box link below.
- Appendix A is Microsoft Word document (2 MB) file located on the Box link below.
- Appendix B - Part 1 is a PDF file (48 MB) to be reviewed on the Box link below.
- Appendix B - Part 2 is a PDF file (48 MB) to be reviewed on the Box link below.
- Revised Corridor Abstracts (within the context) to be reviewed on the Box link below.

For Level 2 reviewers who may experience email problems with receiving the large Draft Report attachment, all file sets can be accessed and downloaded using Argonne National Laboratory's Box Site. S&B Project file site at the following link:

https://app.box.com/Non/0322209886607/Region_1_Corridor_Recommendation_Report_-_For_Level_2_Review

Revised Corridor Abstracts for each Region 1 R&M State and the USFS can be accessed and downloaded using the AWS Box S&B Project file site as follows:

https://app.box.com/Non/0322209886607/Corridor_Abstracts

To ease your review and comment effort, please first focus your initial attention on Section 3, Section 4 and respective R&M State or USFS Corridor Recommendations. If time allows, review Section 1.8 which provides background on the 2009 Inc. S&B FCS and RCL, subsequent revised / amendment agreement.

After you've had a chance to familiarize yourself with the Draft Report, I believe you'll see the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 R&M / USFS land use planners in the future. We look forward to the re.

Again, please provide your review comments using the attached comment form to me and/or Georgens Suite, WDC Transmission / Sec. S&B Program Lead by EOB Friday, April 19th.

If you should have any questions or need further assistance, please contact me as provided below, or contact Georgens Suite at (202) 912-7129 or Kristie Winick, Project Manager, Argonne NE (202) 242-5766.

Thank you in advance for your assistance with the Level 2 Review.

Follow up to update re: review of Section 308 Energy Corridor Region 1 Recommendations Report

Nelson, Britta <bbrown@blm.gov>
9:21 AM (4 hours ago)

To: Sally, Peter, Timothy, Robert, Cade, Deborah
National Conservation Lands Programs, another major update on the Section 308 Energy Corridor Region 1 Recommendations Report follows. First, the 308 Corridor Team has indicated we can expect to see the draft report for review in March 2017.

Next, in response to a BLM question about GIS layers, the conditions and National Conservation Lands units have been mapped on the on the 308 map(s) found at: <http://dhs.gov.au/gis/section308/layer/>, or we can request the GIS layers, if you would like the layers, please let me know and we'll follow up.

Section 2&R Energy Corridors - Region 1 "Level 2" Review

This email forwards for the planned BLM, USFS and cooperating agency "Level 2" Review, the ATTACHED DRAFT Section 268 Energy Corridor Region 2 Recommendations Report. This non-NEPA corridor revision recommendation report product is the result of the recent Section 268 West-wide Energy Corridor - Region

Please provide your review comments and suggested revisions within the attached document comment review form by COB Friday, April 16th, 2017. This provides a three (3) week review period.

Identified Region 1 "Level 2" reviewers include:
 Region 1 (AZ, CA, NV) BLM Field Office, District Office and State Office program and line management;
 Region 1 USFS Pacific Southwest Region program and line management as appropriate;
 BLM WO-200, WO-300 and WO-400 program staff;
 Region 1 cooperating agency program and line management within the FWS, BOR, NPS, BIA and DoD;

You have been previously notified through a recent calendar event of a planned Region 1 "Level 2" Review Webinar scheduled for this coming Wednesday, March 28th at 1:00 PM ET/1:00 AM MT/10:00 AM PT that will provide an overview of the Draft Region 1 Recommendation Report, address review coordination

It is important note, that the Draft Report is comprised of five (5) separate file sets as follows:
Draft Report in Microsoft Word (attached 16-MB file size) or accessed via the link below;

For Level 2 reviewers who may experience small problems with receiving the large Draft Report attachment, all five file sets can be accessed and download using Argonne National Laboratory's Box Inc. 348 Project file site at the following link:

https://app.box.com/file/c0f722529930966/t07-Region_1_Corridor_Recommendations_Report_-_For_Level_2_Review

Revised Corridor Abstracts for each Region 1 BLM State and the USFS can be accessed and downloaded using the ANL Box 2 GR Project file site as follows:

https://app.box.com/file/tjVj22526234828/Caridor_Abstracts

To ease your review and comment effort, please first focus your initial attention on Section 2, Section 3 and respective BLM State or USFS Corridor Recommendations. If time allows, review Section 1.0 which provides background on the 2008 Sec. 368 PEIS and RCD, subsequent lawsuit / settlement agreement.

After you've had a chance to familiarize yourself with the Draft Report, I believe you'll see the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 BLM / USFS land use planners in the future. We look forward to the n

Again, please provide your review comments using the attached comment form to me and/or Georganna Smale, WFO Transmission / Sec. 368 Program Lead by COB Friday, April 14th.

If you should have any questions or need further assistance, please contact me as provided below, or contact Georgann Smale at (202) 912-0219 or Kimmie Wescott, Project Manager, Argonne NS, (630) 252-5788.

Thank you in advance for your assistance with the Level 2 Review.

National Conservation Lands Program, a quick heads up about the WDC review of the Section 308 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WDC review of the draft report is scheduled for March 24-30. A review kick-off webinar is planned for March 25. The review will be a simultaneous GSE/NEPA review. Information has been gathered from the GSE/NEPA, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The DTV with the policy package will follow the review.

Hi Britta,
Thanks and hope the same to you too!
All briefing was held on December 30th and Chris attended (from 400) and it was agreed to go ahead with Director's briefing and some suggestion were provided for fine tuning the presentation. Director's briefing request has been submitted but not yet scheduled.
All the best,
Shiva

Follow up from the previous email. Met with MRS. WOOD. WOOD can't do a discussion with address characteristics. Thanks again for meeting to discuss the Caribbea briefing. As follow up, Chad will work with Sally and Watson on updating the briefing information related to lands with address characteristics information related to NCL suitability and also to include other entities in the governance presentation. New Mexico to provide information to answer the WOOD issues. Dismiss with MM and 10:17 as follow.

Hi Britt,

In mid-December we had our first meeting with the WOOD request and we are making a few adjustments to the memo response. We are also close to completing the GIS and user estimates.

The briefing has shown us that submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!
Chad

Hi Britt,

No further at all on adding about the status of our response. I appreciate you keeping it on your radar.

We have decided to go ahead and include the end-user greenhouse gas emissions (GHG) estimate into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast GHG production in our field office. We are close to having the production estimate sent to it.

With the upcoming holidays it may be a few weeks before we are able to have this done.

If you have any other questions I would be glad to answer them.

Thanks,
Chad

Hi Britta,
In mid-December we drafted Upper Director Amy Lunder's on the WDR response and we are making a few adjustments to the review response. We are also close to completing the DMS and user estimate.
The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.
Thanks again for keeping this on your radar.
Happy New Year!
Chad

Hi Britta,

No bother at all on asking about the status of our response. I appreciate you keeping it on your radar.

We have decided to go ahead and include the end user greenhouse gas emission (GHG) estimate into the BWP and this effort is taking some time due to the complexity involved in generating current and forecast oil/gas production in our field offices. We are close to having the production estimate sent to us.

With the upcoming holidays it may be a few weeks before we are able to have this done.

If you have any other questions I would be glad to answer them.

Thanks,
Chad

Cohen, Ilana

Dec 20 (9 days ago)

to Nikki, me, Sally, Angela, Peter, Deborah

Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:

"BLM's 32 million-acre National Conservation Lands System."

With this:

"BLM's 35 million-acre National Conservation Lands."

Thank you,

-Ilana

On Dec 20, 2016, at 6:43 PM, Salt, Deborah <debsalt@blm.gov> wrote:

Nikki, Britta:

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no red flags in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National Trails System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.

-Deb
