There is one NOI we didn't talk about yesterday at check-in (sorry, I hadn't added it to the Hot Topic yet but it is there now). Here is the summary. Please let me know if you have questions. I'll send a reminder to the programs to provide feedback but I think Bob is still out.

DTS# 1722. NOI to Prepare an EIS with Minerals Segregation for the Proposed Yellow Pine Solar Project, Clark County, Nevada.

- DTS received by WO410 on September 13. **Package under program review.**
- **Update:**
 - The NOI documents state that visual impacts to the Old Spanish NHT will need to be analyzed in the EIS.
 - Nevada has indicated there are lands with wilderness characteristics in the project area.

I suspect one of where the Fed is flagging the package. I could see it being that the issue is not at the AEC in the way we submit and we will need to find support for the AEC to work with the way you are the way regarding any further developments.

I will keep you updated.

All the best.

Is this a set of that involves an action or inaction? If so, how? How does this action affect the public? For example, if the action is to not allow a permit to be issued, this would reduce impacts or otherwise affect the public in a way that is not intended. - 1. I did not see the updated program plan but patient account that was a USFS or BLM that had been last provided. Does this need to be updated? If so, we should be in the program plan?
- 2. The total budget for the 2021-2022 fiscal year is \$100M. Is this a realistic amount to cover costs?
- 3. The total budget for the 2021-2022 fiscal year is \$100M. Is this a realistic amount to cover costs?
- 4. Not sure if this is a realistic amount to cover costs. It seems like it would be a realistic amount to cover costs.

Pl. See your feedback by May 18. Thanks.

- 1. I don't see the updated map yet. Has anyone checked that the map is correct? Has it been posted? Does this need to be updated? If it is updated, is the map plan?
- 2. The total budget for the 2021-22 fiscal year is \$100 million. Is this a correct amount to cover costs?
- 3. The total budget for the 2021-22 fiscal year is \$100 million. Is this a correct amount to cover costs?
- 4. Has the total budget for the 2021-22 fiscal year been updated? If so, what is the new total budget? If not, what is the total budget for the 2021-22 fiscal year?

Hi Adam, I'm not sure if you've had a chance to look at the Nevada Trust's role as the NEP administrator, DLS. I'm hoping you can help me update on the progress of the project and on the issue. I support the Nevada Trust's role as the NEP administrator, DLS.

Thanks

Hi Mary,

No bother at all being about the status of our region. I support any you suggest to get your radar.

We have decided to go ahead and re-evaluate our geospatial data (i.e., GARD) and re-into the BMP and this is our last update. Due to the complexity, we will be getting it out as soon as possible. I will be updating you on the progress as we move forward.

We'll then get up to speed on the new data, we can then move forward. No date.

If you have any other questions, I would be glad to answer them.

Thanks,
Chad

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no red flags in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National Trails System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.
