Attachments: [Bears Ears Review draft 06 07 17 2.docx](#)
[Draft Interim report on Monument Review Process.docx](#)

Attached are 2 documents for the monument reviews - a draft economic report on Bears Ears, and a draft interim report on the overall review process. The latter is bland and boring by design, as it may need to be released.

Comment welcome by late this afternoon. The interim report may also be useful in briefing U/S Jiron and/or others. I also sent these to the career review team members, including Jamie Schmidt at FS.

This image consists of approximately 16 horizontal black bars of different lengths stacked vertically. These bars represent redacted text or data points from a document. The lengths vary significantly, with some bars spanning most of the width of the page and others being much shorter.

A horizontal bar chart with the title "U.S. should take action to address climate change". The y-axis lists five age groups: "18-29", "30-49", "50-69", "70+", and "All". The x-axis represents the percentage, ranging from 0 to 100 in increments of 20. The bars show the following approximate percentages: 18-29 (92%), 30-49 (98%), 50-69 (88%), 70+ (82%), and All (90%).

Age Group	Percentage
18-29	92%
30-49	98%
50-69	88%
70+	82%
All	90%
