Hi Andrew

This is my re-write of the response to Nikk's comment on the being a lycanite day. It says the same thing, just a simplified bit. Thanks

Tamara, Steve, and Georgeann - thank you for sending us the B2H RCO for a quick review. We did notice that the RCO language used for the historic economic use appears to be missing. To meet policy requirements, we recommend the following language be added: "The National Conservation Lands NHP Section on

Avoidance and minimization measures to mitigate impacts to the National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For residential (unavoidable) impacts, the values and settings of the Oregon NHT that would

We are still working on providing a thorough response. Some of the measures (e.g., San Jose's Annual leave and a pending free lines with cooperatives) slowed us down but we are not in a corner. As a result of the questions raised during the 9/27/2019 meeting to your office. We are happy to provide more information as needed.

Thanks for your patience and I look forward to hearing your office's thoughts once we provide these responses.

We have decided to go ahead and not use the end-user greenhouse gas emissions (GHG) estimate.

The two steps, we've worked around a little but couldn't bring this response to you in a format you're happy with. We got to try it.

Thanks again for bringing this on your radar.

Hi Chad and Mark, I hope James is off to a good start. I'll be sure to check in to see if there is an update on the C2 / land information package we are working on.

It goes without saying you would be the best person to check on this. Thanks! Ben v

Hi Ben,
No problem at all. I am a bit busy about the status of our request. I support the project, but I am not sure.

We have decided to go ahead and we will be able to get the information you need to see if there is an update on the C2 / land information package we are working on.

We are still working on providing a thorough response. Some of the things we are looking at are the data and the testing results. We are getting close to having a response to all of the questions and will be sending it to you off to. We are happy to hear from you and will look forward to hearing your thoughts once we provide these responses.

Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:

"BLM's 32 million-acre National Conservation Lands System."

With this:

"BLM's 35 million-acre National Conservation Lands."

Thank you,
-Ilana

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no red flags in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National Trails System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.
