After I saw your CRS e-mail - I reached out to Patrick - I was not aware of the request but we should be looping in state leadership. Here is another request - nothing for us to do.

Subject: RUSH Congressional Request on National Monuments

Hi Jamie. This email is a follow-up to our phone conversation of a few minutes ago regarding a need for information on BLM's presidentially proclaimed national monuments. As we discussed, could BLM provide, **by 10 am Friday (April 28)**, the acreage of national monument lands closed to each of these five activities/uses:

1. Recreational hunting
2. Recreational shooting
3. Recreational fishing
4. Motorized recreation
5. Public access

For each of the five activities, we are interested in the total acreage closed, and the subset of that acreage that is closed for weather-related emergencies only.

A hypothetical format/example for the information would be:

“Of the 9,347,717 BLM acres within the 25 presidentially proclaimed national monuments managed (at least in part) by BLM:

50,000 acres are closed to recreational hunting, of which 2,500 are closed for weather-related emergencies;

222,000 acres are closed to recreational shooting, of which 4,775 are closed for weather-related emergencies;

6,000 acres are closed to recreational fishing, of which 0 are closed for weather-related emergencies;

2,456,000 acres are closed to motorized recreation, of which 68,000 are closed for

weather-related emergencies;

25,000 acres are closed to public access, of which 8,000 are closed for weather-related emergencies.”

If it not possible to get this information for all 9,347,717 acres of BLM-managed proclaimed monument areas, we would be interested in obtaining illustrative information for individual monuments—as many as might be possible under the deadline.

Thanks to you and your colleagues for your work on this question. Please feel free to contact me if clarification is needed.

Best,

Carol Hardy Vincent
