Cindy

See the email below. The permit was not denied, it was not complete. I sent her an email to that effect. I never heard back from her and it dropped off my radar.

Dana

Hi Mary.

I appreciate you taking the time to fill initiate a research permit. The core content of what the research study is has not been identified. The permit requires having a purpose/objectives (hypothesis testing), what methods you will be used to test your hypothesis, etc. Details are also needed on sample locations, number of samples, time of sampling, etc. And they other logistical information is required. Please complete section #2 or submit a separate document.

Thanks

Dana Backer

Hello, Dana,

See attached permit request. I have left it in .doc rather than .pdf form so that the BLM can complete the form. Please let us know if more information is needed. Once it appears complete, I will be able to provide my electronic signature and we can make it into a .pdf

Thank you,

Mary O'Brien

**Scientific Research and Collection Permit
Grand Staircase-Escalante National Monument**

Applicant Names: Mary O'Brien /Grand Canyon Trust
Address: HC 64 Box 2604; Castle Valley UT 84532

Application Date: May 16, 2017

State Permit Number (if applicable): N/A **Federal Permit Number (if applicable):** N/A

1. Is the research covered by an assistance agreement with this office and/or other BLM offices? NO. If yes provide the number.

2. Description of research. Include as an attachment (see below)

Purpose and objectives

Methods/scope of work,

Area of activity including map of sampling locations (include UTM's)

Collection dates

Names of individuals you would like on the permit

Vehicle identification (description, license plate)

Request for administrative road use

Anything special requests such as use of outfitter or pack animals

Deliverables

Public outreach and information dissemination

3. Contact information

Phone: 435.259-6205

Cell: (b) (6) (no coverage in Castle Valley)

Fax: None

E-mail: (b) (6) @gmail.com

4. If collecting is authorized. Materials to be collected: Repository Name, Address, and Contact information
No collections required for this permit.

For GSENM office use only below this line.

GSENM Number: UT-YEAR-030-sequential number-subject

Issue Date:

Expiration Date:

5. Specialist review complete? ☐ Yes ☐ No
Name:

9. Curation agreement? ☐ Yes ☐ No
Attach

6. Complies w/ MMP? ☐ Yes ☐ No

10. Permit granted? ☐ Yes ☐ No

7. In WSA status? ☐ Yes ☐ No

11. Permit extension? ☐ Yes ☐ No

8. Special Stipulations? Attach ☐ Yes ☐ No
additional stipulations

Authorization. Permission is hereby given to the above named individual to collect material(s) specified in the approved research proposal, within the guidelines of permit stipulations outlined below.

STANDARD RESEARCH PERMIT STIPULATIONS

We ask that you follow all **Leave No Trace Principles** (<https://lnt.org>) and the following.

1. This permit may not be assigned to any other institution, group, or individual. Any modifications to the permit must be requested in writing to the Science Program Administrator.
2. This permit is valid only for the period specified. The permit may be suspended or modified at the discretion of the Monument Manager. Field work under this permit may be halted temporarily by either verbal or written notice from the Monument Manager or other Authorized Officer for violations of permit terms and conditions or for administrative purposes of the BLM.
3. All terms and conditions of this permit shall remain in effect, including reporting requirements, until all permit terms and conditions have been met, regardless of permit expiration date.
4. A copy of this permit must be carried by the individual in direct charge of field work during the course of all work conducted under permit.
5. This permit shall not be exclusive in character, and the Bureau of Land Management reserves the right to authorize other uses of the land during the tenure of this permit. Field work shall be carried out in such a manner as to not impede other legitimate uses of the Monument, except when a provision has been made by the Monument Manager or delegated representative.
6. The Department of Interior, including its bureaus and employees, shall be held blameless for any and all events, deeds, or mishaps, regardless of whether or not they arise from operations under this permit.
7. Field schedule must be coordinated with the Science Program Administrator or a designated representative in advance of field work.
8. The Monument Manager, and /or designated representatives shall have access to the study area during or after performance of field work, and shall have the right to inspect all materials removed.
9. Any stakes, flagging, or other temporary materials used to identify localities in the field shall be removed upon completion of field activity. No permanent survey monuments or markers shall be disturbed or removed during the course of field work.
10. Unless otherwise agreed, all costs shall be borne by the permittee, including costs of curation.
11. Interpreting and sharing the science conducted on GSENM with staff, volunteers and the public, is critical. There shall be a public outreach component for each research project. Recommendations or opportunities for public presentations, a field trip, or the something similar shall be coordinated with the Science Program Administrator.
12. Collections, if authorized, of materials acquired from public lands under the provisions of this permit remain the property of the United States Government and may be recalled at any time for use by the BLM. A designated repository for this project is not necessary. Any recall or transfer of material will be coordinated by BLM with the designated repository. Public display of material collected under this permit shall cite Grand Staircase-Escalante National Monument, Bureau of Land Management, Utah.

13. Grand Staircase-Escalante National Monument, and the BLM, Utah shall be cited in any report, publication, paper, news article, film, television program or other media, resulting from field work under this permit. Copies of such documents shall be provided to the Grand Staircase-Escalante National Monument Headquarters. To assist in producing the best possible science, you are encouraged to forward manuscripts for review to the Science Program Administrator prior to submitting them for publication.

14. Access to research site(s) is authorized only across BLM administered lands. Use of private lands or lands administered by another agency must be secured separately.

15. A report of all activities conducted under this permit shall be prepared by December 31 of each year during the tenure of the permit. This report will be submitted to the Monument Headquarters, in care of the Science Program Administrator. The report shall include a catalog of all specimens collected, if authorized, a description of work accomplished, results, copies of datasets (with FGDC compliant metadata for final reports) and any recommendations for future research or management activities.

16. For any collections that will be curated, a list of all specimens collected must be provided in the annual report to the Science Program Administrator. Each specimen must contain the following information: scientific name, description, collection location (latitude / longitude or UTM Zone 12, NAD83), collection number, and facility's accession number. Provide the curation facility, address, and a point of contact at the facility.

17. Pursuant to the Native American Graves Protection and Repatriation Regulations at 43 CFR 10.4, the permittee shall notify the Science Program Administrator or Monument Manager immediately upon the inadvertent discovery of human remains, funerary objects, sacred objects, or objects of cultural patrimony, with written confirmation. All work in the vicinity must and reasonable efforts shall be made to protect the remains pending BLM action. Activities may resume within 30 days of receipt of the written confirmation of notification unless the situation is resolved sooner.

18. Commercially provided services such as transportation, cooking and packing must be sought from outfitters authorized by the Monument. For a current list of outfitters, please contact Science Program Administrator at 435-644-1257 or dbacker@blm.gov.

19. Please be aware of current hunting activities and locations by visiting www.wildlife.ut.gov.

Camping

1. Overnight camping in the Monument requires a permit. Currently, permits are free of charge and may be obtained at Visitor Centers or at designated trailheads. Camping restrictions described in the GSENM Management Plan, p. 35, must be followed. The GSENM Management Plan is available on line https://www.blm.gov/nlcs_web/sites/style/medialib/blm/ut/grand_staircase-escalante/planning/monument_management.Par.83655.File.dat/GSENM%20Management%20Plan.pdf

2. No camping within 300 feet of an isolated water source (i.e., seep, spring, pond, rock pool, water pocket).

3. Permittee will maintain all premises to standards of repair, orderliness, neatness, and sanitation acceptable to the Monument. Camp areas will be regularly cleaned and no trash or litter will be allowed to accumulate.

Fire

1. Campfires are not allowed in the Escalante and Paria/Hackberry Canyons, No Mans Mesa, nor in archaeological sites, rock shelters and alcoves throughout the Monument.
2. In the Front country and Passage Zones, campfires are allowed only in designated fire grates, designated fire pits, or mandatory fire pans. Wood collection for campfires is not allowed. Burn all wood and coals to ash, put out campfires completely; leave cool ashes.
3. In the Outback and Primitive Zones campfires are allowed. Use an existing fire ring instead of building a new one. The use of fire pans is encouraged. Only dead and down wood can be collected. Burn all wood and coals to ash, put out campfires completely, scatter cool ashes, and restore the area to a natural condition before leaving.

Group Size Limits

1. Group size is limited to 25 people in the Passage and Outback Zones including guides.
2. Group size within the Primitive Zone is limited to 12 people and 12 pack animals including guides, however within the Paria River corridor in the Primitive Zone group size is limited to 25 people including guides.
3. Group size limits cannot be achieved by staggering individual groups along a single route by time or distance. Instead, individual groups must comply with group size limits by utilizing separate and unique routes, or by traveling from opposite ends of a single route. If traveling from opposite ends of a single route, groups may pass each other, however they cannot gather at a single location.

Wilderness Study Areas

1. Permittee is responsible for knowing the location of wilderness and wilderness study areas (WSA) comply with the restrictions that apply to such areas. Maps and information concerning restrictions are available at the Monument website

Transportation and Access

1. All machinery (street legal motorized vehicles, non-street legal all-terrain vehicles, dirt bikes etc.) that has been used outside the Monument must be cleaned prior to use in the Monument, to prevent the possible introduction and spread of noxious weeds.
2. Motorized or mechanized vehicles may pull off designated routes no more than 50 feet for direct access to dispersed camping areas in the Outback Zone, except in Wilderness Study Areas, endangered plant areas, relict plant areas and riparian areas.
3. Access onto the Monument will be along defined roads listed on the transportation map in the Grand Staircase- Escalante National Monument Management Plan.
4. Cross-country motorized travel on the Monument is prohibited. All motorized and mechanized (bicycles, deer carts) vehicles must stay on designated roads while traveling in the Monument.
5. Permittee shall not construct new trails, or maintain existing trails without written authorization from the Monument.

6. The permittee shall not use paint or flagging, or construct cairns to mark trails, unless specifically allowed by this permit.

Sanitation and Aesthetics

1. Burning and burying food waste are prohibited.
2. Utilize a portable self-contained toilet system when less than 300 feet from water sources, campsites, and trails. All human waste must be packed out and disposed of at a certified disposal site.
3. If a small portable toilet cannot be used, deposit solid human waste in catholes dug 4 to 6 inches deep at least 300 feet from water sources, camp, and trails. Cover and disguise the cathole when finished. Never dig a cathole under an overhang or shelter.
4. If camping in one location for multiple days, a trench may be dug to dispose of human waste. To dig a trench, start with a cathole dug 4 to 6 inches deep and expand it in one direction as additional people use it; soil dug from the trench should be used to cover the feces.
5. To wash yourself or your dishes, carry water 300 feet away from water sources and use small amounts of biodegradable soap. Scatter strained dishwater and pack out remaining food particles.

Supplemental Stipulations for Permittees using Riding or Pack Animals

1. Horses or other pack animals are not allowed in relict plant communities, archaeological sites, rock shelters, or alcoves. Sheep species will not be allowed for pack use.
2. Weed free hay, straw and non-germinable grains may be used to feed and bed livestock, or be placed in the bottom of stock carrying vehicles.

Purpose and objectives: Compare livestock ungrazed (Johnson Lakes Canyon ungrazed conservation easement) with livestock grazed GSENM sites over time. Permission for research on Johnson Lakes Canyon private property has been granted by landowners Richard and Susan Knezevich.

Methods/scope of work: Line point intercept on 200' transects (reading every 2' for 100 points along each transect). A t post is at either end of transects at Site 24; a rebar with red paint on its top is at 0', 100' and 200' of transects at Site 23.

Area of activity including map of sampling locations (include UTM's):

1. Site 23

A (Johnson Lks Cyn): 380943E 4108202N 200' to 381003E 4108194N
 B (GSENM BLM): 380921E 4108202N 200' to 280861E 4108208N

Site 23A begins 30' south of the JLC property fence, running 200' East approximately East West (though the TOPO! Map appears to indicate Site 23A is north of the property fence.

Site 23B begins 30' north of the road that is north of the property fence, running 200' West approximately East West.

First reading of transect: 5/07/2017

2. Site 24

A (Johnson Lks Cyn): 382463E 4108643N 200' to 382492E 4108694N
 B (GSENM BLM): 382570E 4108871N 200' to 382593E 4108926N

Site 24A begins south of the JLC property fence running SSW 200'.
 Site 24B begins north of the JLC property fence, running SSW 200'.

Fig. 1: Map of sites of transects 23A and 23B and 24A and 24B. Transect 23A is actually south of the 4WD road and the Johnson Lakes Canyon property fence, though the TOPO! map incorrectly places the 4WD road.

Dates of collection: No collection, but first reading of transect: 5/05/2017. Subsequent readings are planned for 2018 and beyond.

Names of individuals you would like on the permit: Mary O'Brien and Marc Coles-Ritchie, both of Grand Canyon Trust.

Vehicle identification (description, license plate): Variable, as 4WD rental or personal vehicles might be used.

Request for administrative road use: No request for administrative road use
Anything special requests such as use of outfitter or pack animals: No special request

Deliverables: A report with georeferenced photos at either end of each transect; percent cover of plant species and ground cover.

Public outreach and information dissemination. Grand Canyon Trust posts reports in the Resources Section of its website, which is open to the public and will send a report to BLM at Grand Staircase-Escalante National Monument.. Raw data sheets, Excel sheets, photos, are all available upon request.

National Conservation Lands Training Updated Monthly (Last Updated June 2017)

	Status	Contact	Start Date	ECD	Notes
National Monuments and NCA Training: Five online modules	●	Nelson	2012	Summer 2017	Content development is complete. Content development is complete and all modules have been submitted to the NTC for web development. Module 1, 2, and 3 have undergone beta testing and WO 410 review. Next steps: beta testing and final WO 410 review of modules 4 and 5, course piloting, posting for internal and external use, and roll out. In person training development has been paused in order to gauge effectiveness of online training material.
Wilderness Study Area Training: Five online modules	●	Nelson	2012	Summer 2017	Content development is complete and all modules have been submitted to the NTC for web development. Next steps: Modules have undergone NTC final review and will be submitted to a contractor for web development. Once web development is completed, there will be beta testing and final WO 410 review of completed modules, course piloting, posting for internal and external use, and roll out. In person training development has been paused in order to gauge effectiveness of online training material.
Wild and Scenic River Training: Twelve online modules	●	Nelson	2012	Summer 2017	One module is fully developed (content and web). Content developed for seven modules, 2 of which are in web development with the other 5 pending web development by the NTC or contractor. Next steps: finalize storyboards for four modules, interagency review, concurrent beta testing, and final WO 410 review of completed modules, course piloting, posting for internal and external use, and roll out. In person training development has been paused in order to gauge effectiveness of online training material.
National Scenic and Historic Trails Training: Seven online modules	●	Nelson	2012	Summer 2017	Content development is complete and all modules have been submitted to the NTC for web development. Next steps: All modules will undergo final review by the NTC then will be submitted to a contractor for web development. Web development will be followed by beta testing and final WO 410 review of completed modules (concurrent), course piloting, posting for internal and external use, and roll out. In person training development has been paused in order to gauge effectiveness of online training material.

Junior Ranger Initiatives Updated Monthly

Last 30 Days

- Junior Ranger Communications Toolkit Intranet site completed.
- Citizen Science Junior Ranger delivered to NOC for design.
- Teachers on the Public Lands program ongoing with teachers placed in 20 BLM offices.

Next 30 Days

- Staff can begin ordering EKIP passes for Year 3, which begins September 1. EKIP brochures in Spanish coming soon.
- Classroom Investigation: Scenic/Historic Trails going to the NOC for design

Challenges

- Development of Junior Ranger websites for all eligible field offices/sites with potential for more than 100 individual listings.
- Streamline program reporting and data collection for FY 2017.

Every Kid in a Park Passes Issued by BLM

Phase	Status	Start Date	Percent Complete	ECD	Date Complete	Notes
Junior Ranger Communications Toolkit		Dec. 2016	100%	June 2017	June 2017	Toolkit includes publication and banner templates, artwork, and program guidance. Additional materials will be added as needed. https://web.blm.gov/wo_170/wo_172/junior_ranger/index.html
Provide Funding for Field Offices		Dec. 2016	100%	May 2017	June 2017	33 projects identified with support to the field in May.
Streamline Reporting		Oct. 2016	50%	August 2017		WO 420 will streamline program reporting and data collection and consolidate multiple reports.
