Not exactly. BLM prepared these for each of their monuments as part of the material submitted, and I expanded them to include other material we had asked for. Downey liked the results and asked that I get them for the other monuments (i.e. NPS and FWS). I included the marine so the information would be available. My request is below, with the sample summary. At the same, as I have indicated before, the Secretary has been impressed by arguments raised by fishermen in New England and the case presented on Pacific tuna fishery, on both of which I have asked you for information. Perhaps we should talk further on going forward.

BLM has provided Executive Summaries for each of their monuments under review, which Downey found very helpful. Would you please provide the same for your monuments - a sample is attached.

I have deleted from all of the BLM reports, including the sample, information which is addressed in the economic reports, to avoid duplication, so please don't include economic data in your summary.

Jeff, one for Hanford Reach, one covering the Pacific marine monuments and one for NE Canyons and Seamounts might be the easiest approach for you, but if you want to do more for the Pacific, feel free.

Could both agencies have them done within 2 weeks?

Morning Randy. Hope you had a nice weekend.

Hoping you can provide some clarity here.

On Friday, our folks received from FWS regional staff "Executive Summaries" for reviews of each of the Pacific marine national monuments. These summaries were, I believe, prepared by FWS HQ. We were asked to provide comments by 9:00am this morning.

Trying to get some clarity as to what are these Executive Summaries. Is DOI developing its own report on the marine national monuments?

Thanks,

Michael
