Thank you Randy.

Will share with the team. Very much appreciated.

About to send you a response to the Rose Atoll question you posed.

On Tue, Aug 15, 2017 at 12:33 PM, Bowman, Randal <randal_bowman@ios.doi.gov> wrote:

Here is the BOEM material. You likely will get it again in a couple of weeks, as Downey does not have time right now to straighten out the process. This has been approved by the Acting Assistant Secretary for Land and Minerals Management (who does not know it is being sent) and by Downey, so its official.

I now need to edit the NE memo, to avoid further confusion among the solicitors, and it will come to Earl in an hour or so. Hopefully this keeps everything on track timewise.

Attached is BOEM's response to NOAA's data call on possible offshore energy and mineral impacts of sanctuary and monument creation/expansions from the last 10 years. At Kate's request, we will also be including a copy of the comments we sent to NOAA on the DEIS for the Flower Garden Banks NMS proposed expansion (attached - note that NOAA does not consider this within the scope of the EO tasking since no decision has been taken on the expansion). Please let me know if you have any comments by Friday, August 11.

Please let us know if you would like to discuss the document in more detail - we can get a meeting set up with our technical experts that developed the estimates.

Thanks,
Emily
