Out of this World: New Mexico's Bisti Badlands

Like the set scenery for a science-fiction movie that takes place on an the Bisti/De-Na-Zin Wilderness, most commonly referred to as the Bis home to phantasmagoric formations that have been weathered by win over time. ([My Public Lands Tumblr](#))

Volunteers help BLM Celebrate National Trails Day

For Mel Langdon, volunteering at the BLM Campbell Tract on National Trails Day is about paying it forward. “I raised some kids and they came out here for the same reason,” said Langdon. “I appreciate all the facilities that are here. So this is paying it forward and for the next kids coming up.” Langdon was one of about 30 people who helped help build and repair fences, plant trees, improve access to Campbell Tract, weed and replant the gardens at the BLM Campbell Tract on National Trails Day. Made In America: 12 things brought to you by the Interior Department

On March 3, 1849, the Department of the Interior was created to take charge of the nation’s internal affairs. Interior’s diverse mission -- which includes managing the nation’s vast natural and cultural resources, honoring our tribal relationships, and supplying the nation with energy -- has earned it the nickname “The Department of Everything Else.” Nearly 170 years since it was established, Interior continues to provide invaluable services to the country. From mapping data used by scientists to new technologies, Interior is developing innovations, programs and services that are Made in America and serve the public. ([DOI blog](#))

Video: Newberry Geothermal Project

Did you know, the Newberry Geothermal project has the potential to create 1,000 full-time jobs in south Deschutes County? When completed this project will have a large economic footprint and benefit to the local area. ([BLM Oregon Field Office](#))

Ever wonder why Alaska is just so different?

Well it's not just the latitude, or size, or wildlife, or that 800-mile oil pipeline that was different from the start. The land that later became our state was acquired through a land purchase by the federal government as opposed to a treaty. People settled in the Last Frontier for military postings or seeking gold and not for the promise of a new life. After awhile, people wanted to transition from a territory to a state. Alaska became the 49th state in 1959 and as a part of the process, the federal government gave the infant State of Alaska 104 million acres of land to get the State going and start a local economy... CONSERVATION

Utah Girl Scouts Earn a Respect and Protect Patch

This month, thirty Girl Scouts from four troops across Utah earned the "Respect and Protect" patches at the Project Archaeology Girl Scout Council. They explored Utah's scenic Professor Valley. Project Archaeology is BLM's premier program that teaches students and teachers about America's rich cultural heritage. ([Public Lands Tumblr](#))

Record of the Day via BLM Eastern States

The General Land Office provides live access to scanned images of more than eleven million federal land records dating back to 1785. These records are the source title documents for all lands in the US Public Land Survey System. In this role they support all commercial, recreational and conservation uses of both private and public lands in the PLSS states. ([BLM Eastern States website](#))

RAP Camp Students Have Fun Learning about Forestry Natural Resource Careers

For Grant Union High School student Chee Cha, Resources and People Camp did more than teach her about the many career opportunities in natural resource management—it also taught her how to challenge herself. Approximately 30 high-school-aged students from northern and central Oregon, one student from southern Oregon, and one high school graduate from California attended the 26th annual RAP Camp from June 11 to 17, at Lake of the Lost in approximately 40 miles from Medford and Klamath Falls, Oregon. ([BLM Oregon Facebook](#))

Making a Traditional Pit River Summer House

BLM California, with considerable contributions from the Pit River Tribe, Modoc National Wildlife Refuge and Modoc National Forest, successfully built a traditional Pit River summer house. The experience taught school children and adults alike valuable lessons including a traditional technology and that it takes a community to build a tule house. ([BLM California Facebook](#))

Video: Protecting Native American Ruins

Cultural resources are a fragile, limited resource with potential public uses. They are an irreplaceable part of our Nation's heritage. Managing cultural resources on the public lands is primarily determined by the Federal Land Policy and Management Act of 1976 (FLPMA). Consistent with FLPMA, BLM follows the same multiple use principles and the same planning and decision-making processes that are followed in managing other resources on the public lands. ([BLM Oregon Facebook](#))

HEADLINES AND HIGHLIGHTS

8 Things You Didn't Know About the Bureau of Land Management

One of nine bureaus under the Interior Department, the Bureau of Land Management's roots go back to America's founding. BLM was established on September 16, 1946, when the General Land Office and the U.S. Grazing Service merged. More than 70 years later, it remains a small agency with a big mission: managing public lands for multiple-uses like recreation and natural resource development for the benefit of present and future generations. ([DOI BLM](#))

Video: Endangered Pygmy Rabbits Rescued from Central Washington Wildfire

Dozens of pygmy rabbits were saved thanks to the quick teamwork of Department of Fish and Wildlife biologists and BLM firefighters, after the Canyon Fire swept across a state-managed breeding ground late last year. ([Oregon Facebook](#))

Saving an Eagle's Life

In late June, BLM Ranger Mike Thompson and Utah Canyon Outdoors volunteer Caitlin Clery rescued a young male eagle from the depths of a slot canyon in Grand Staircase-Escalante National Monument. The eagle was originally found during a Utah Canyon Outdoors guided hike, and appeared to be ending its life in need of rescuing. ([BLM Utah Facebook](#))

Murphy Complex - Ten Years Later

This week marks 10 years since the start of the Murphy Complex Fire, a 100,000-acre fire that was the biggest in Idaho since 1910. It destroyed animals, plants, and resources in Idaho and Nevada. This is the story of the Murphy family who lived through it and BLM's effort to help the land recover from it. ([Facebook](#))

National Interagency Fire Center Welcomes New Smokejumpers

The Boise BLM smokejumper base at the National Interagency Fire Center welcomed three new female smokejumpers. Jessica Crump, Martha Schoppe and Kaitlyn Smith are all new smokejumpers at Boise who are ready for the next step in firefighting careers. Of the 80 smokejumpers at the Boise base, these three comprise the only females. ([My Public Lands Tumblr](#))

Federal, State Officials Chart Next Steps in Sage-grouse Conservation

The Bureau of Land Management and states with sage-grouse habitat are currently drafting a report responding to Secretarial Order 3353, Greater Sage-grouse Conservation and Cooperation with Western States, signed in June by the Interior Secretary Ryan Zinke to support partnerships in maintaining sage-grouse populations. Federal and state resource managers met for two days in Denver to identify opportunities for incorporating the expertise of federal employees in the field as well as proven state and local approaches to sage-grouse ground management. ([BLM News Release](#))

WILDLIFE QUESTION OF THE WEEK

Fill in the Blank

"_____ " has ravaged bat populations in many parts of the United States.
