Samantha,
This looks great! As always.

One thought for consideration, not required, but do we want to bump up the eclipse story or wait until we're a bit closer to the event?

Thanks for your great work on this.
-Matthew

Made In America: 12 things brought to you by the Interior Department

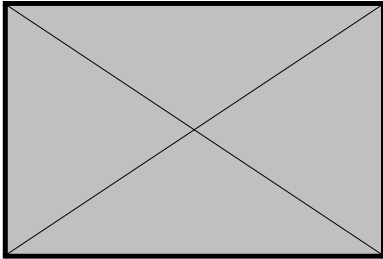

On March 3, 1849, the Department of the Interior was created to take on the nation's internal affairs. Interior's diverse mission -- which includes managing America's vast natural and cultural resources, honoring our tribal relationships, and supplying the nation with energy -- has earned it the nickname "The Department of Everything Else." Nearly 170 years since it was established, Interior continues to provide invaluable services to the country. From mapping data used by scientists to new technologies, Interior is developing innovations, programs and policies that are Made in America and serve the public. ([DOI blog](#))

Video: Newberry Geothermal Project

Did you know, the Newberry Geothermal project has the potential to create 1,000 full-time jobs in south Deschutes County? When completed this project will have a large economic footprint and benefit to the local area. ([BLM Oregon Facebook](#))

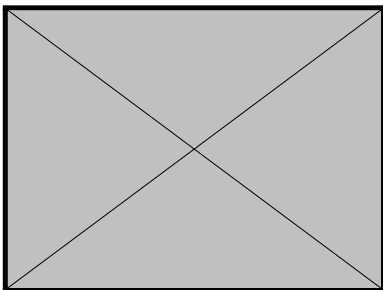

Ever wonder why Alaska is just so different?

Well it's not just the latitude, or size, or wildlife, or that 800-mile oil pipeline that was different from the start. The land that later became our state was acquired through a land purchase by the federal government as opposed to a territory that was settled in the Last Frontier for military postings or seeking gold and new adventures, or the promise of a new life. After awhile, people wanted to move from a territory to a state. Alaska became the 49th state in 1959 and under the Statehood Act, the federal government gave the infant State of Alaska 100 million acres of federal land to get the State going and start a local economy. RECREATION

2017 Total Solar Eclipse Viewing Tips

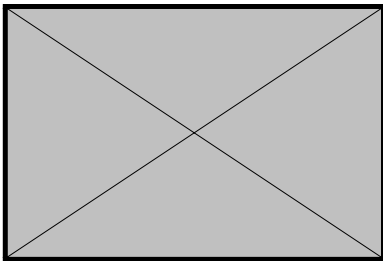

On Monday, August 21, 2017, millions of people across the United States will see one of nature's most awe-inspiring sights -- a total solar eclipse. In open spaces and low light pollution, public lands managed by Bureau of Land Management in Wyoming, Idaho and Oregon are the perfect place for this rare event. ([DOI blog](#))

Video: Colorado's Alpine Loop

Located northeast of Silverton, Colorado in San Juan and Hinsdale Counties, the Alpine Loop Back Country Byway is a premiere visitor destination. The byway draws off-highway-vehicle enthusiasts from across the country who use a network of roads that climb above timberline, accessing unparalleled alpine environment. There are also fantastic hiking, biking and camping opportunities. Scattered along the Alpine Loop are remnants of our nation's history, where visitors can learn about the bustling mining towns that thrived here. ([BLM Colorado Facebook](#))

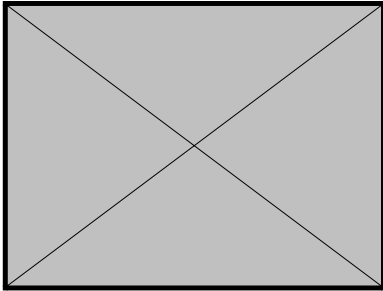

Out of this World: New Mexico's Bisti Badlands

Like the set scenery for a science-fiction movie that takes place on another planet, the Bisti/De-Na-Zin Wilderness, most commonly referred to as the Bisti Badlands, is home to phantasmagoric formations that have been weathered by wind and water over time. ([My Public Lands Tumblr](#))

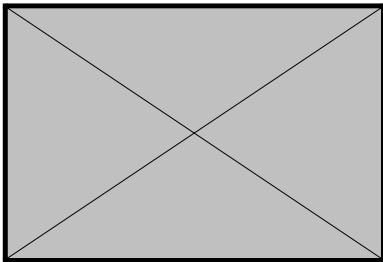

Volunteers help BLM Celebrate National Trails Day

For Mel Langdon, volunteering at the BLM Campbell Tract on National Trails Day is about paying it forward. "I raised some kids and they came out here for the first time," said Langdon. "I appreciate all the facilities that are here. So this is paying it forward."

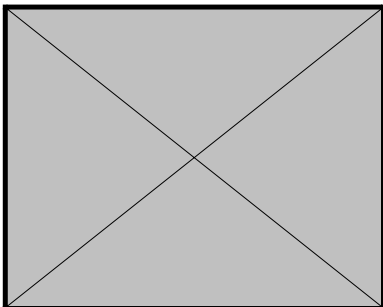

and for the next kids coming up.” Langdon was one of about 30 people to help build and repair fences, plant trees, improve access to Camp, weed and replant the gardens at the BLM Campbell Tract on National Antiquities Act land. ([BLM Alaska Facebook](#))

CONSERVATION

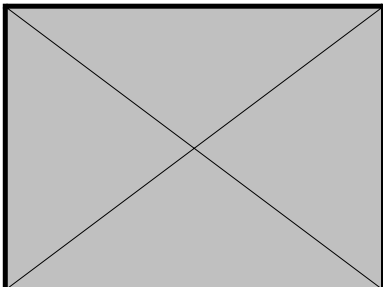

Utah Girl Scouts Earn a Respect and Protect Patch

This month, thirty Girl Scouts from four troops across Utah earned the archaeology “Respect and Protect” patches at the Project Archaeology Camp in Utah’s scenic Professor Valley. Project Archaeology is BLM’s program that teaches students and teachers about America’s rich cultural heritage. ([My Public Lands Tumblr](#))

Record of the Day via BLM Eastern States

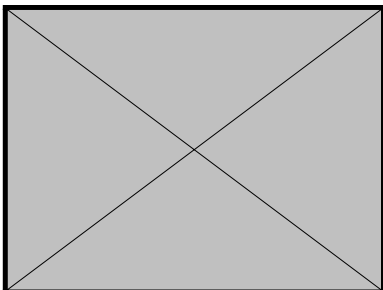

The General Land Office provides live access to scanned images of more than eleven million federal land records dating back to 1785. These records are a valuable source title documents for all lands in the US Public Land Survey System. In this role they support all commercial, recreational and conservation uses of private and public lands in the PLSS states. ([BLM Eastern States website](#))

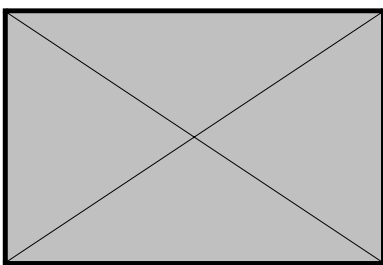

RAP Camp Students Have Fun Learning about Forestry and Natural Resource Careers

For Grant Union High School student Chee Cha, Resources and People Camp did more than teach her about the many career opportunities in natural resource management – it also taught her how to challenge herself. Approximately 30 high-school-aged students from northern and central Oregon, one student from southern Oregon, and one high school graduate from California attended the 26th annual RAP Camp from June 11 to 17, at Lake of the Lost in approximately 40 miles from Medford and Klamath Falls, Oregon. ([BLM California Facebook](#))

Making a Traditional Pit River Summer House

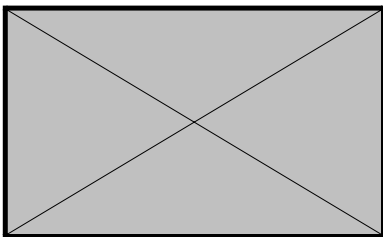

BLM California, with considerable contributions from the Pit River Trib National Wildlife Refuge and Modoc National Forest, successfully bui Pit River summer house. The experience taught school children and alike valuable lessons including a traditional technology and that it tru community to build a tule house. ([BLM California Facebook](#))

Video: Protecting Native American Ruins

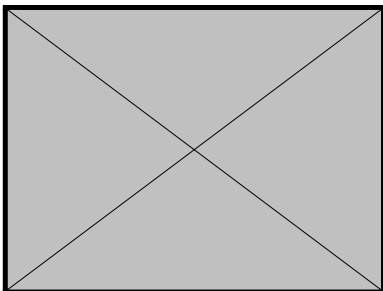

Cultural resources are a fragile, limited resource with potential public uses. They are an irreplaceable part of our Nation's heritage. Manage cultural resources on the public lands is primarily determined by the F Policy and Management Act of 1976 (FLPMA). Consistent with FLPM follows the same multiple use principles and the same planning and c making processes that are followed in managing other resources on t lands. ([BLM Oregon Facebook](#))

HEADLINES AND HIGHLIGHTS

8 Things You Didn't Know About the Bureau of Land Management

One of nine bureaus under the Interior Department, the Bureau of Land Management's roots go back to America's founding. BLM was established 16, 1946, when the General Land Office and the U.S. Grazing Service merged. More than 70 years later, it remains a small agency with a big mission: managing public lands for multiple-uses like recreation and natural resource development for the benefit of present and future generations. Department of the Interior Awards \$6.9 Million to 17 Proactive Drought Preparation

Secretary of the Interior Ryan Zinke announced that the Bureau of Reclamation is awarding 17 projects in California, Colorado, Nevada, Oklahoma and Utah a total of \$6.9 million to proactively prepare for and address drought in 17 communities. The federal funding will be leveraged to support more than \$10 million for the development of drought contingency plans and implementation of drought resiliency projects. ([DOI News Release](#))

Secretary Zinke, Senators, and Local Officials Announce Record \$465 Million in PILT for Western Communities to Receive Record

While meeting with local, state and federal officials in Nevada, U.S. Secretary of the Interior Ryan Zinke announced that more than 1,900 local governments across the country will receive \$464.6 million in Payments in Lieu of Taxes (PILT) for 2017. Nevada has more federally-owned land than any other state (18.5 percent) and will receive \$26,184,790. This year's \$464.6 million is the largest amount ever allocated in the program's 40-year history. This funding continues to underscore the Trump Administration's commitment to rural communities. ([DOI News Release](#))

Secretary Zinke Announces Initiatives to Protect Western Ecosystems and Hydroelectric Facilities from Invasive Mussels

U.S. Secretary of the Interior Ryan Zinke praised a package of action initiatives developed through collaboration with western governors and state and Tribal agencies to protect areas in the West from the economic and ecological threats posed by invasive mussels. ([DOI News Release](#))

Secretary Zinke Announces Recovery and Delisting of Yellowstone Grizzly Bear

Due to the success of conservation efforts and collaboration among a wide range of stakeholders, U.S. Secretary of the Interior Ryan Zinke announced that the Yellowstone population of the grizzly bear has been recovered to the point where federal protections can be removed and overall management can be turned over to the states and tribes. The population has rebounded from as few as 14 in 1975 to an estimated 700 today and meets all the criteria for delisting. ([DOI News Release](#))

Interior Announces Regulatory Reform Initiative to Make Government Work for America

The Department of the Interior announced an initiative to alleviate unnecessary regulatory burdens placed on the American people. This initiative implements the vision set out by President Trump in Executive Order 13777, "Enforcing and Simplifying the Regulatory Reform Agenda." This initiative is part of a government-wide effort to alleviate unnecessary regulatory burdens on the American public. (DOI [Release](#))

WILDLIFE QUESTION OF THE WEEK ANSWER

White-nose syndrome has ravaged bat populations in many parts of this nation. U.S. Fish and Wildlife announced over \$1 million in grants to 37 states and the District of Columbia to help combat white-nose syndrome, a fungal disease that has killed millions of North American bats in recent years. Funds will help find ways to prevent the spread of WNS while increasing survival rates of afflicted species. (USFWS [Release](#))
