Ashland Field Manager  
Medford District Office

541-618-2438

3040 Biddle Road  
Medford, OR 97504

**New Information Requested on Executive Order on the Review  
of Designations Under the Antiquities Act**

**BLM Responses to Additional Questions for Cascade-Siskiyou National Monument**

- a) Any legislative language, including legislation in appropriations bills

Legislative language in the Omnibus Public Land Management Act of 2009, Pub. L. No. 111-11, § 1403 and 1404, 123 Stat. 991, 1028 (2009), Subtitle E – Cascade-Siskiyou National Monument, March 30, 2009 gave the Secretary of the Interior authority to convey two BLM parcels for two privately-owned parcels of comparable value. This same law established the Soda Mountain Wilderness. Finally, this same law also provided for the permanent retirement of grazing allotments that were voluntarily relinquished by the lessees. The pertinent portions of PL 111-11 are located within this directory as PUBLIC LAW 111-11 CSNM Excerpts 2009 formatted.

- b) Alternative options available for protection of resources applicable at each monument, such as Native American Graves Protection and Repatriation Act, Paleontological Resources Preservation Act, Archaeological Resources Protection Act, Historic Preservation Act and agency-specific laws and regulations.

The following could provide some options to protect specific resources found in Cascade-Siskiyou National Monument. Protection would likely occur on a site-by-site or resource-by-resource basis and also would take a significant amount of time to accomplish under these various laws. These laws may not provide a mechanism to protect all cultural or tribal resources in Cascade-Siskiyou National Monument.

**National Historic Preservation Act, (NHPA)**

Although a number of sites have been determined to be eligible to the National Register of Historic Places as required in the NHPA, the BLM Medford District manages cultural resources in accordance with the State Protocol agreement, which provides for an alternative approach to Section 106 compliance. Therefore, it is unlikely that protection of cultural resources would vary under the NHPA.

**Native American Graves Protection and Repatriation Act, (NAGPRA)**

**Paleontological Resources Preservation Act, (PRPA)**

There are a couple of fossil locales within the Monument, but neither are considered significant. These resources are however managed and protected through BLM directives and policy which does include the PRPA.

**Archaeological Resources Protection Act, (ARPA)**

**American Indian Religious Freedom Act (AIRFA)**

The Klamath Tribe has cited this act as the foundation for their support of the Maka Oyate Sundance ceremony, which is held within the Monument annually. However, AIRFA does not guide BLM management of the ceremony site.

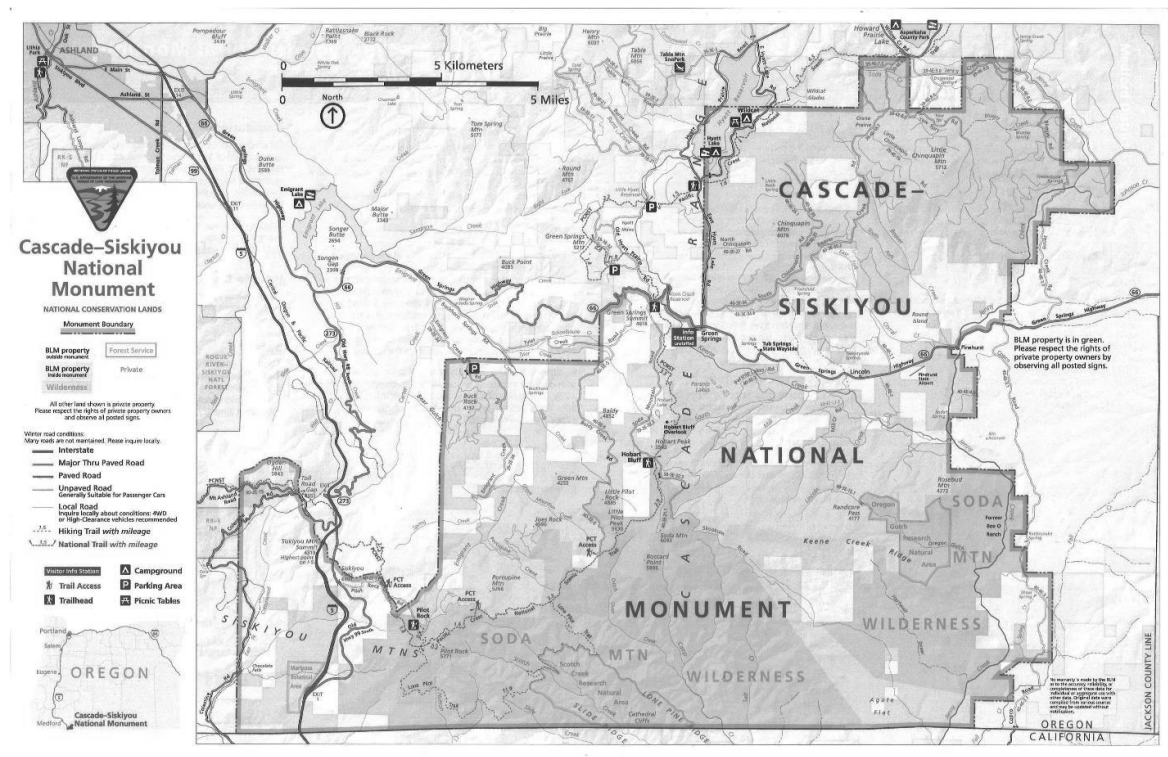

- c) Designated wilderness areas (name, acreage), Wilderness Study Areas (name if there is one, acreage, type), and/or areas managed to preserve wilderness or roadless characteristics that are not WSAs.

The Omnibus Public Lands Management Act of 2009 (Public Law 111-11) designated approximately 24,155 acres in the southern portion of the Monument as the Soda Mountain Wilderness (SMW). The BLM acquired two privately-owned inholdings in the wilderness in 2012 (552 acres). The SMW is now entirely in BLM-administered federal ownership and totals 24,707 acres. The pertinent portions of PL 111-11 are located within this directory as PUBLIC LAW 111-11 CSNM Excerpts 2009 formatted.

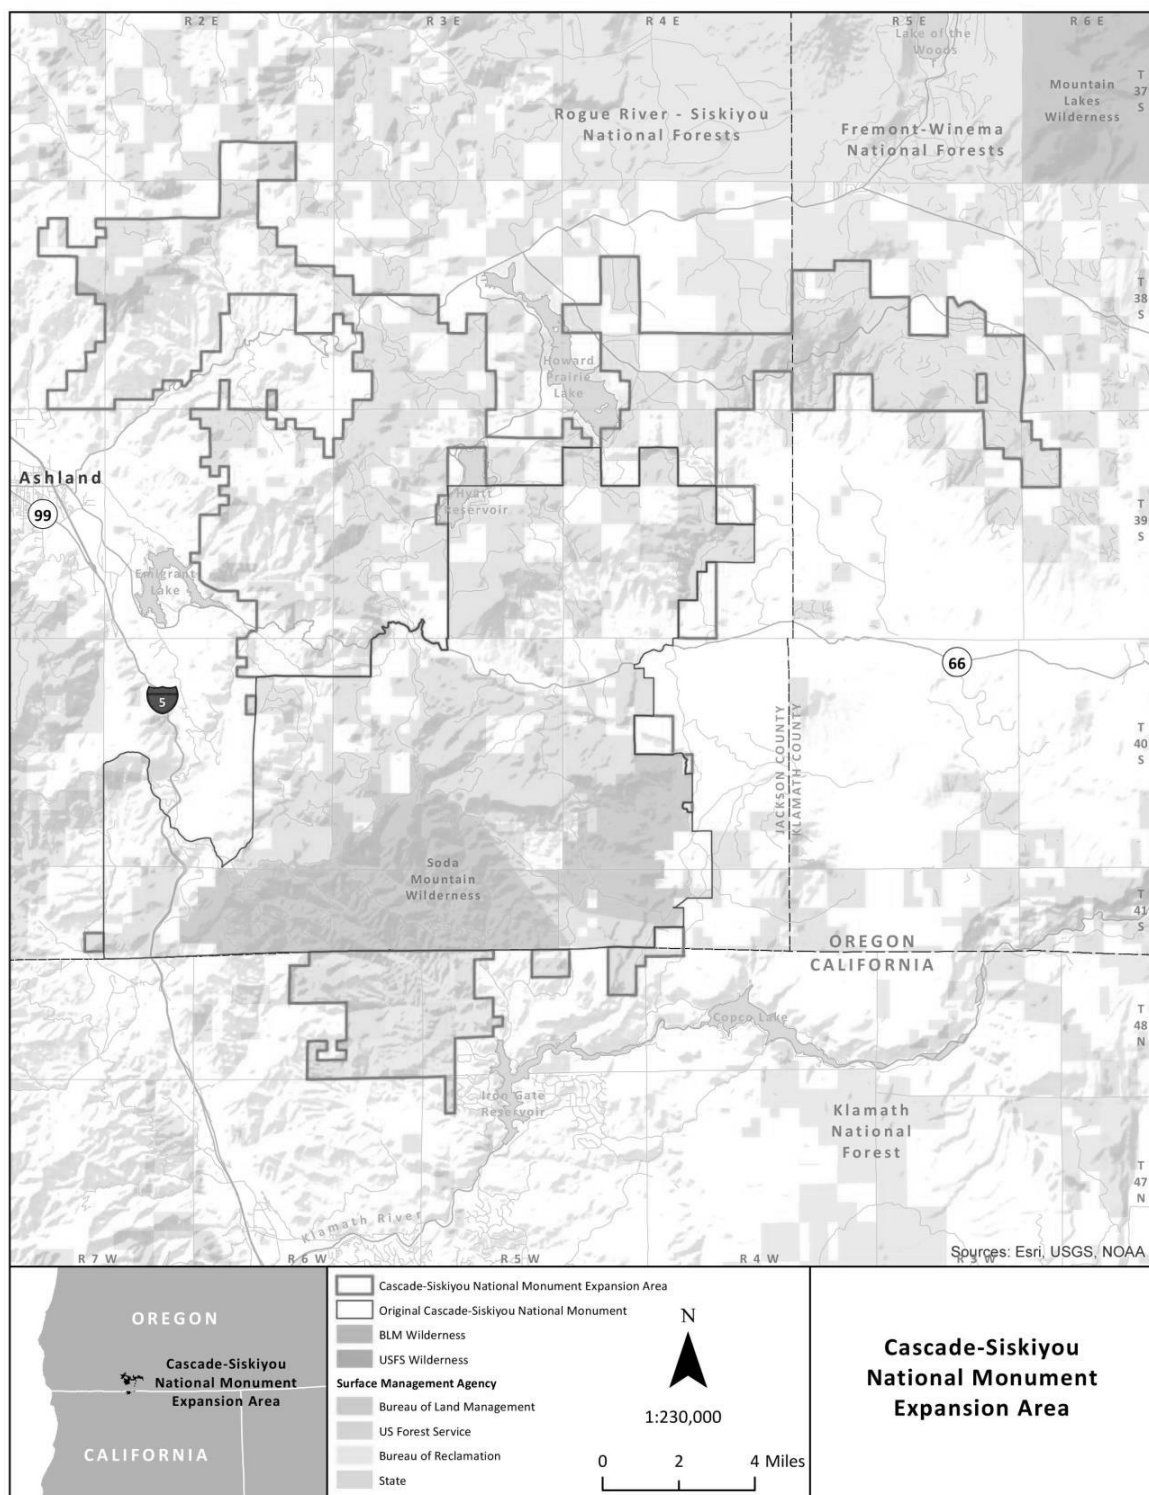

- d) Outstanding R.S. 2477 claims within a monument – type of road claimed and history

There are no outstanding R.S. 2477 claims within CSNM.

- e) Maps

CSNM Original Boundary

CSNM Expansion Area

- f) Cultural or historical resources, particularly Tribal, located near a monument but not within the boundary that might benefit from inclusion in the monument

N/A

- g) Other – general questions or comments

N/A

### Call for Data Related to Review of National Monuments under EO 13792 (April 26, 2017)

Please help us gather information about each of the items listed below, for each of the National Monuments listed **Error! Reference source not found.** in **Error! Reference source not found.**.

#### 1. Documents Requested

##### a. Resource Management Plans/Land Use Plans

The Resource Management Plan and Record of Decision was completed for the CSNM in 2008, and are located in this directory as CSNM ROD and RMP\_8\_15-08.pdf.

##### b. Record of Decision

The Resource Management Plan and Record of Decision was completed for the CSNM in 2008, and are located in this directory as CSNM ROD and RMP\_8\_15-08.pdf.

##### c. Public Scoping Documents

Included in this directory is a subdirectory named "Scoping" containing a number of public scoping documents:

-  1999\_Notice of Intent to prepare a management plan and EIS for Cascade-Siskiyou Ecological Emphasis Area
-  2000\_Federal Register Notice of Intent to Prepare an RMP and Initiation of Scoping
-  2002\_Federal Register Notice of Availability to comment
-  2005\_Federal Register Notice of Availability to comment
-  Appendix MM DRMP Summary of Meetings Held (1)
-  Appendix MM DRMP Summary of Meetings Held
-  April 18 2005 Summary of Governor's Consistency Review
-  CSEEA v1
-  CSEEA v2
-  One page summary of Scoping Process in draft RMP and FEIS 2005
-  Public Meeting Ad
-  Request for comments on DEIS 2002
-  Scoping described in Executive Summary page ix of Draft RMP DEIS released 2002
-  Scoping from 1999 Cascade-Siskiyou Ecological Emphasis Area CSEEA draft mgmt plan
-  Summary of Comments on the CSNM PRMP

##### d. Presidential Proclamation

Presidential Proclamation 7318 establishing the CSNM is located in this directory as Proclamation 7318.pdf and the expansion proclamation is saved as Proclamation\_CSNM\_Expansion.pdf, also in this same directory.

#### 2. Information on activities permitted at the Monument, including annual levels of activity from the **date of designation to the present**

##### a. Recreation - annual visits to site

Activity and Visits from date of designation to present (from Recreation Management Information System [RMIS]) for the original Monument:

<u>Total Visits since Designation</u>	<u>Average Annual Visits</u>
Backpacking 48,262	2,839
Bicycling - Mountain 2,336	137
Bicycling - Road 5,772	340
Boat Launching 4,833	284
Camping 300,184	17,658
Canoe/Kayaking 5,772	340
Climbing - Mountain/Rock 362	21
Driving For Pleasure 2,175,719	127,983
Environmental Education 4,618	272
Fishing - Freshwater 133,554	7856
Gather Non-Commercial Products 2,226	131
Hiking/Walking/Running 4,347,505	255,736
Horseback Riding 1,743,277	120,546
Hunting - Big Game 1,954,681	114,981
Nature Study 1,274,262	74,957
Photography 1,154	68
Picnicking 171,130	10,066
Row/Float/Raft 3,463	204
Skiing - Cross Country 629,445	37,026
Snowmobiling 103,035	6,061
Snowshoeing 384,633	22,625
Staging/Comfort Stop 462	27
Swimming/Water Play 34,088	2,005
Target Practice 89,650	5,274
Viewing - Scenery/Landscapes 4,344,395	255,553
Viewing - Wildflowers 182,896	10,759
Viewing - Wildlife 13,817	813
CSNM dispersed Summer/Winter, Extensive, Dispersed-Monument 2,448,709	144,042
Hyatt Lake Campground 339,600	19,976
Hyatt Lake Day-Use, Picnic Area 4,833	284
Table Mt. Winter Trails 176,886	10,405
Wildcat Campground 102,957	6,056
Pacific Crest Trail 302,818	17,812

2017 Recreation Visits to Site/s (Monument Expansion)

Activities: Data not available since Monument expansion occurred in January 2017

Sites: Data not available since Monument expansion occurred in January 2017

b. **Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)**

There has been no production of coal, oil, gas, and renewables in the Monument since designation. There are 17.78 miles of electrical transmission lines in the original Monument. There are 17.82 miles of electrical transmission lines and 7.67 miles of gas line in the expanded Monument.

c. **Minerals - annual mineral production on site**

Since designation, no rock has been commercially sold from within the CSNM. Rock from CSNM quarries has been utilized to maintain Monument roads since designation, as described in the RMP/ROD for the Monument. There are no mining claims in the Monument.

d. **Timber - annual timber production on site (in board-feet, CCF, or similar measure)**

**Original CSNM Designation:** Under Proclamation 7318 "Removal of trees from within the monument area may take place only if clearly needed for ecological restoration and maintenance or public safety." Approximately 9MBF was removed as part of Hyatt Lake Hazard for public safety in the fall of 2000. Following a severe wind event in the winter of 2015, approximately 25 MBF of blowdown trees were removed from the Hyatt Lake Campground in the CSNM for the purpose of public safety and maintenance of campground facilities.

**Expanded CSNM Designation (expansion area only):** Howard, South Fork Little Butte and Pine Plantation Thin Timber Sales were under contract at the time of CSNM Expansion on January 12, 2017. As determined to be valid existing rights, these sales will continue consistent with the respective timber sale contracts.

About 238 acres and 1,212 MBF of the Howard Timber Sale is located within the expansion boundary; about 191 acres and 1,600 MBF of the South Fork Little Butte Timber Sale is located within the expansion boundary. Pine Plantation Thin is 82 acres and 121 MBF and located entirely within the CSNM Expansion Area. Since January 12, 2017, approximately 300 MBF has been harvested within the CSNM Expansion Area under the Howard Timber Sale Contract.

Following the completion of the Howard, South Fork Little Butte and Pine Plantation Thin Timber Sales, the commercial harvest of timber or other vegetative material is prohibited except when authorized as part of a science based ecological restoration project or for public safety and maintenance.

e. **Grazing - annual grazing on site (AUMs permitted and sold)**

Language included in the Omnibus Public Land Management Act of 2009 enabled grazing leases within the CSNM to be voluntarily retired. The Soda Mountain, Keene Creek, and Jenny Creek leases administered by the Medford District in the Monument were voluntarily relinquished by the lessees, and after a third party bought out the leases they were permanently retired. A small lease (5 AUM) on the Box R Ranch was voluntarily relinquished and retired as part of a congressionally-authorized land exchange within the CSNM. Two allotments were vacant at the time of designation (Agate and Siskiyou), and Proclamation language directed that these voluntarily relinquished allotments not be reallocated for forage.

Data on annual AUMs permitted and sold by allotment is included in the file AUMs\_data\_call\_5\_25\_17.xlsx within this same directory. Note on this file: the four columns reflect by year the total allotment acres, the number of acres of the allotment within the CSNM, the permitted use for the entire allotment, and the sold AUMs for the entire allotment. The BLM does not currently have data on what amount of utilization occurred within vs. outside of the CSNM, so the AUM numbers reported are for the entire allotment.

- f. **Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available**

Subsistence activities are those that provide the bare essentials for living: food, water, and shelter. The Federal Subsistence Management Program provides opportunities for subsistence way of life in Alaska on federal public lands and waters. There are no formal subsistence programs outside of Alaska. CSNM does provide for the collection of certain natural materials by Native American Indians under BLM permit. Dead and down wood is allowed to be collected for campfires within the CSNM, and the noncommercial gathering of fruits, nuts, berries, and mushrooms is also allowed. No data is available on the quantities harvested. Hunting and fishing is allowed within the entire CSNM and is regulated by the Oregon Department of Fish and Wildlife, who has data available on the numbers of licenses issued.

- g. **Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available**

1. The Cascade-Siskiyou NM is culturally significant to the Grand Ronde, Siletz, Shasta and Klamath Tribes. All of the Tribes have stated that the Monument has special significance to them and has a number of places that are considered sacred. Tribes also conduct hunting, fishing, wood cutting and gathering of subsistence plants in addition to collecting medicinal and ceremonial plants and basket materials within the Monument boundaries.

2. According to BLM Medford cultural resource databases, there are 214 cultural resource sites recorded within the Monument in the area that is managed by the Medford District. There are prehistoric and historic sites within the Monument. Prehistoric sites are those that were made by early Native Americans for a variety of resource gathering activities as well as habitation. Historic sites are those that were made by Euro-American emigrants to the area. Many historic sites are related to early 18<sup>th</sup> century homesteading and livestock rearing activities.
3. Klamath Tribal members participate in a Pan-Indian Sundance Ceremony that is held annually within the Monument. Although numbers vary from year to year, the Ceremony attracts up to 500 people of both native and non-native ancestry who witness or participate in the Sundance.
4. Less than 5% of the Monument has been surveyed for Cultural Resources.

3. Information on activities occurring during the **5 years prior to designation**

a. Recreation - annual visits to site

*1998-2000 (Original Monument) data only available in RMIS starting in 1998*

<b>Total visits 1998-2000</b>	<b>Average Annual Visits</b>
Bicycling - Mountain 9,200	4,600
Camping 115,250	57,625
Driving For Pleasure 115,000	57,500
Environmental Education 2,300	1,150
Fishing - Freshwater 4,175	2,088
Gather Non-Commercial Products 46,000	23,000
Hang-Gliding/Parasailing 2,600	1,300
Hiking/Walking/Running 58,180	29,090
Horseback Riding 6,900	3,450
Hunting - Big Game 46,002	23,001
Hunting - Upland Bird 11,504	5,752
OHV - ATV 4,600	2,300
OHV - Cars/Trucks/SUVs 23,000	11,500
OHV - Motorcycle 640	320
Photography 11,500	5,750
Picnicking 24,000	12,000
Racing - Auto Track 2,450	1,225
Snow Play - General 39,500	19,750
Specialized Sport/Event (Non-Motor) 100	50
Target Practice 34,500	17,250
Viewing - Wildlife 34,500	17,250

Dispersed Use 230,896	115,448
Picnic Area 680	340
Specialized Sport Sites 5300	2,650
Water Access 2500	1,250
Grizzly Peak Trailhead	5,526
Little Hyatt Reservoir Rec water access. 2,500	1,250
Table Mountain Tubing 5,000	2,500
Hyatt Lake Campground 339,600	19,976
Hyatt Lake Day-Use, Picnic Area 4,833	284
Table Mt. Winter Trails 176,886	10,405
Wildcat Campground 102,957	6,056
Pacific Crest Trail 302,818	17,812

***2012-2017 Monument Expansion (5 years prior to designation)***

<b>Total visits from 2012-2017</b>	<b>Average Annual Visits</b>
Bicycling - Mountain 64,815	12,963
Camping 405,092	81,018
Driving For Pleasure 405,092	81,018
Environmental Education 16,204	3,240
Fishing - Freshwater 16,204	3,240
Gather Non-Commercial Products 243,055	48,611
Hang-Gliding/Parasailing 16,204	3,241
Hiking/Walking/Running 405,107	81,021
Horseback Riding 48,611	9,722
Hunting - Big Game 243,055	48,611
Hunting - Upland Bird 243,055	48,611
OHV - ATV 32,407	6,481
OHV - Cars/Trucks/SUVs 82,018	16,204
Photography 48,721	9,724
Picnicking 162,037	32,407
Racing - Auto Track 296	59
Racing - Foot 128	26
Racing - OHV Cars/Trucks/Buggies 193	39
Snow play general 16,204	3,241
Dispersed Use	115,448
Grizzly Peak Trail Head 27,632	5,526
Little Hyatt Reservoir 1,489	298
Table Mountain Tubing 12,481	2,496
Hyatt Lake Campground 339,600	19,976
Hyatt Lake Day-Use, Picnic Area 4,833	284
Table Mt. Winter Trails 176,886	10,405
Wildcat Campground 102,957	6,056

Pacific Crest Trail 302,818

17,812

- b. **Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)**

There was no production of coal, oil, gas, and renewables in the Monument in the five years prior to designation. There were 17.78 miles of electrical transmission lines in the original Monument in the five years prior to designation. There were 17.82 miles of electrical transmission lines and 7.67 miles of gas line in the expanded Monument five years prior to designation.

- c. **Minerals - annual mineral production on site**

During the 5 years prior to designation, there were no mining claims or rock sold from quarries in the original Monument. During that time, there was an average of 342 cubic yards per year of rock sold from quarries in the expansion area. There were no mining claims in the expansion area during the five years prior to the Monument expansion.

- d. **Timber - annual timber production on site (in board-feet, CCF, or similar measure)**

**Original CSNM Designation:** Based on records from GIS (Harvpolys layer), approximately 272 MBF were harvested in association with the Hyatt Hazard Timber sale.

**Expanded CSNM Designation:** Approximately 4484 MBF were harvested within the CSNM Expansion Boundary during the 5 years prior to the expansion.

- e. **Grazing - annual grazing on site (AUMs permitted and sold)**

Data on annual AUMs permitted and sold by allotment is included in the file AUMs\_data\_call\_5\_25\_17.xlsx within this same directory. Note on this file: the four columns reflect by year the total allotment acres, the number of acres of the allotment within the CSNM, the permitted use for the entire allotment, and the sold AUMs for the entire allotment. The BLM does not currently have data on what amount of utilization occurred within vs. outside of the CSNM, so the AUM numbers reported are for the entire allotment.

- f. **Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available**

Hunting and fishing was allowed on BLM lands and was regulated by the Oregon Department of Fish and Wildlife, who has data available on the numbers of licenses issued. Fruits, nuts, berries, and mushrooms were collected on BLM lands prior to monument designation. No data is available on the quantities harvested.

- g. **Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available**

1. See response to 2 g.
2. 149 sites were identified prior to designation.

4. Information on activities that likely would have occurred annually from the date of designation to the present **if the Monument had not been designated**

a. Recreation - annual visits to site

Many of the same recreation activities would have occurred had the Monument not been designated. Exact visitation numbers are impossible to guess under this speculative scenario.

b. Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)

Had the Monument not been designated, it is likely there would be no production of coal, oil, gas, and renewables. There would likely still be 17.78 miles of electrical transmission lines in the original Monument area, and 17.82 miles of electrical transmission and 7.67 miles of gas lines in the expanded Monument area.

c. Minerals - annual mineral production on site

It is likely that gravel production would have continued from the quarries had the monument not been designated. Annual production under this scenario would be speculative; it is possible that the pre-Monument expansion average of 342 cubic yards of rock would have continued to have been sold from quarries annually.

d. Timber - annual timber production on site (in board-feet, CCF, or similar measure)

**Original CSNM Designation:** Under the 1995 Medford District Resource Management Plan, approximately 19,400 acres of BLM-administered lands (of the roughly 52,000 acres originally designated in 2000) were allocated to Southern General Forest Management Area with a primary objective of providing a sustainable supply of timber and other forest products. However, no current information is readily available regarding the amount of volume that may have been produced from these acres since monument designation in 2000. It is well known that this part of the Ashland Resource Area is characterized by low site capabilities, and relative to other areas on the Field Office and Medford District, is considered a low timber production area. Some timber harvest would have occurred for improving forest stand survival and growth, fuels reduction, pine site restoration, and regeneration harvest; however, it would be very speculative to estimate actual timber volumes that may have been produced.

**Expanded CSNM Designation:** Harvest Land Base designated under the 2016 Southwest Oregon RMP was estimated to produce approximately 1-2 MMBF ASQ and 400 MBF Non-ASQ per year in CSNM expansion area on the Medford District BLM. This would range from 54 to 104 MMBF over a 50-year period. As a result of CSNM expansion, planning for the Griffin Moon Timber Sale was halted. The Griffin Moon Timber Sale

units within the monument were estimated to have produced 2-3 MMBF over a three-year period (2018-2021).

**e. Grazing - annual grazing on site (AUMs permitted and sold)**

If the Monument had not been designated, it is likely that grazing would have continued within the original CSNM. Grazing would likely have continued at a similar level to the pre-designation utilization (see file AUMs\_data\_call\_5\_25\_17.xlsx within this same directory). The two allotments that were vacant for the five years preceeding Monument designation (the Agate and Siskiyou allotments) likely would not have been utilized had the Monument not been designated, as outside factors appear to have led to their vacant status.

**f. Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available**

Hunting and fishing would have occurred on BLM lands and been regulated by the Oregon Department of Fish and Wildlife. Fruits, nuts, berries, and mushrooms would be have been collected on BLM lands.

**g. Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available**

The BLM does not have sufficient information to predict how designation of the monument has impacted cultural uses of the monument. However, the monument proclamation requires that the BLM provide access by members of Indian tribes for traditional cultural and customary uses, consistent with the American Indian Religious Freedom Act (42 U.S.C. 1996) and Executive Order 13007 of May 24, 1996 (Indian Sacred Sites).

**5. Changes to boundaries - dates and changes in size**

The CSNM was expanded by presidential proclamation on January 12, 2017, adding 47,660 acres to the Monument.

**6. Public Outreach prior to Designation - outreach activities conducted and opportunities for public comment**

**I. Engagement March 1999 through May 2000:**

There was substantial public engagement both prior to and after the area's designation as the Cascade Siskiyou Ecological Emphasis Area (CSEEA) in the 1995 Medford District Resource Management Plan and during the early development stages in 1999 of a management plan for the EEA. Flyers went out to interested publics and ads were placed in five local newspapers

announcing the start of the management plan process for the CSEEA and additional public engagement included:

- o Four public field trips took and one public meeting took place;
  - o One meeting took place between BLM and Siskiyou county officials;
  - o A briefing was given to the Jackson County Commissioners; and
  - o A panel discussion organized by Congressman Greg Walden took place with the Secretary of the Interior, local government, and representative from local interest groups.
- 580 comments were submitted by the public. Substantive comments related to the following issues or resources: grazing, roads, timber harvest, mining, habitat fragmentation, protection of the unique natural and biological values of the area, fire suppression, BLM work capacity, hiking and other non-motorized recreation opportunities, the Pacific Crest National Scenic Trail, and concerns about increased government control.

A draft management plan for the CSEEA was published in March 2000. Engagement from April to June 2000 prior to June 9, 2000 designation:

- o Multiple meetings with Jackson and Siskiyou County Commissioners;
- o One teleconference between the Secretary of the Interior, local government official, interested local groups, and the media;
- o Additional field trips; and
- o A public forum was held at Southern Oregon University to present the draft plan and environmental impact statement.

#### II. Engagement April to December 2016:

Five studies or reports from the scientific community were provided to the Department of Interior from 2011 to 2015. Following this, 85 scientists sent a letter to the former Secretary of Interior, Sally Jewell, requesting consideration of monument expansion in order to adequately protect the resources, objects, and values for which it was designated;

A large public hearing was held in Ashland with Senator Merkley and the former Deputy Secretary of the Interior, Mike Connor, in October 2016. The purpose of the hearing was to solicit public input on the proposed expansion of the monument. Approximately 500 citizens attended. The three counties of Jackson (OR), Klamath (OR), and Siskiyou (CA) also hosted additional public meetings to allow for public input into the monument expansion. Collectively, approximately 600 people attended these county meetings. A written comment period was also sponsored by Senator Wyden and Senator Merkley. A total of 5,488 comments were received with approximately three-fourths in favor of the expansion.

#### 7. Terms of Designation

The terms of designation are spelled out in Presidential Proclamation 7318 dated June 9, 2000, as well as the expansion Proclamation, dated January 12, 2017 (both available in this directory as Proclamation 7318.pdf and Proclamation\_CSNM\_Expansion.pdf).
