Attached are 2 documents for the monument reviews - a draft economic report on Bears Ears, and a draft interim report on the overall review process. The latter is bland and boring by design, as it may need to be released.

Comment welcome by late this afternoon. The interim report may also be useful in briefing U/S Jiron and/or others. I also sent these to the career review team members, including Jamie Schmidt at FS.

A series of horizontal black bars of varying lengths, representing redacted text. The bars are stacked vertically, with some being longer than others, creating a jagged, irregular shape. The bars are solid black and have no text or other markings on them.
