We have paid for access to the system for the rest of the month to review comments and so forth. Please check back on the 29th or 30th on the status then.

Hi Randal,

Is this initiative over or do we need to keep the reference of the use of the application in our current records?

Thank you,

Thank you very much. I realize that this has been a tremendous effort by many people. Being able to use this system now will be a major element of providing the Secretary with the information he needs to report to the President on time.

The subject ATOs are signed and attached.

You are now authorized to transfer the data, and operate the system per the scope and controls defined.

I understand that some of the users are still working through the mandatory training; Every user must complete the training before being granted access.

Congratulations, and Thank you all for pulling together to carefully complete this expedited and important assessment and accreditation.

For our partners/customers,...I know the real work begins today... good luck !

Respectfully,
Bruce
