Hi Randy. Will you please delete Ann Navarro from your list and add Peg Romanik in her place? Thank you.

We encountered unexpected delays in having these available for review. As I believe I reported earlier, the number of comments on the last day of the comment period and the number of attachments they contained overloaded the regs.gov system, causing errors, and it took 2 weeks for the staff there to resolve that and have the comments ready for transfer to us. Due to massive amount of data, it also took over a week for our contractor to get these uploaded into the DiscoverText system, sort out the form letters and otherwise have them ready.

I have just a few minutes ago notified the coding team that they comments are ready for review.

Would you please urge your agency members of that team to spend as much time on these as possible in the next 2 weeks so we have the comment review completed prior to the deadline. It is clearly doable, given the rate as which comments were reviewed previously, but will need a concerted effort.
