Subject: Re: Coding final set of public comments on Monument review
Date: Friday, August 11, 2017 1:48:03 PM

The final round of comment review has been completed, well in advance of the deadline. Thanks to all of you for your work on this.

Thank you all for completing the previous set of comments so quickly. The final set of comments are now ready to review. Please spend as much time as you can on this for the next 2 weeks.

We have sorted out all of the comments with attachments, so you should not see any of them. If you do, mark them as "uncodable" so they are not counted twice.

As previously, form letters are not included in the comments you will be asked to code, but initially you may well encounter some comments that closely resemble others. Because of the delay in processing, I was not able to search by phrases common to multiple comments that are not quite form letters and group code those in advance, but will be doing that as you do your work. This should reduce considerably the number of comments that you need to code.

Otherwise, please log on, accept the request as usual and begin coding. We have same coding options as previously.

I will be out Friday for a (b) (6), and if you have any questions or problems then, please contact Marsha Cash, who is cc'ed on this message.
