OK, thanks. Lets wait until we are closer to the end and see where things stand. Meanwhile I will check with George Fisher to see if there is any problem with reallocating funds.

I gave Stu the go ahead to begin the process. He will keep me advised along the way.

They have stopped OCRing so the upload can continue. No real downside to that as they are preserving the image of the attachment that we can pull up.

He doesn't think the grad student budget will be used up, even after this attachment drill. He's OK with shifting \$\$\$ to licenses and project management if there is an excess. He said it's up to our contracting office if that's allowed, but its OK with him.

If we had to pay for an extension, another month's license is \$2000 less 6%. Maybe another \$30 or so for additional storage.
