I have seen others, including some mailed to us in boxes. We are accepting their claims that these are comments on the monument review, and in the numbers claimed, as we don't have any ability to investigate to determine the validity of the claim, and we don't need additional controversy at this point. However, these have raised questions here.

Claims to be the sentiment of 6,377 people, but it is a list of names and zip codes. Coded as (1) Mass mailing but bringing to your attention. This is the only one I recall seeing so far with just a list.

Task: Identify Mass Mailings - Code document if it represents "**x**" number of attached form letters.

What we are looking for are **mass mailings in the attachments**. When and if you find them, please Highlight the first 4-5 words in the viewer:

Inline image 1

then **create an annotation**:

Inline image 2

where **the code is the # of purported versions** of the form letter in the attachments:

Inline image 1

Reply all with questions about a particular case. Identify the document ID when you have a question about a confusing case. You do NOT need to count hundreds or thousands of postcards. Instead, look for information on the total number.
