Hi Randy,

Thanks for the recommendations. Do you have a few minutes to discuss your question?

Regards,
Teri

Have you asked George Fisher when it is OK to contract the contractor on the points for which their input is needed? When it is OK I will work with Marcia Cash at FWS to get contractor input And I believe there should be SOL review of the last sentences

of 2.D and 3.D.

I made one suggestion to part 2.A which tracks statements elsewhere in the document, noting that individuals voluntarily submit any PII which enters the system.

Teri Barnett has invited you to **comment** on the following document:

 [draft DiscoverText PIA](#)

Hi Everyone - Here is the first draft DiscoverText PIA. I think we have a good start, but need some information from the security and the vendor. Content in blue font is privacy office recommended language. Red font is where we need help. We are still working on it so you will see further revisions. All changes should be in suggesting mode. Please try to complete review and comments/recommendations by COB Monday so we have time to finalize.

Thanks,
Teri
