Riley Bushue from Congressman Walden's office is asking for acreage information, timber sale information, and land status. We have the following information pulled together for him but wanted to check in with you before we send it. Let me know if it is ok to go.

Timber Sales

- Within the Monument expansion, approximately 310,000 (0.310 million) board feet have been harvested from within the OR portion of the expansion area under timber sale contracts that were entered into prior to January 12, 2017. The contracts are considered valid existing rights and will be completed, including the approximately 2.9 million board feet of timber that remain to be harvested. (The Howard, South Fork Little Butte and Pine Plantation thinning Sales, and the Surveyor Salvage, Jigsaw, and Mid-Spencer timber sales were under contract at the time of the CSNM Expansion on January 12, 2017).

- About 238 acres and 1,212 thousand board feet of the Howard Timber Sale, and 191 acres and 1,600 thousand board feet of the South Fork Little Butte Timber Sale is located within the expansion boundary. The Pine Plantation sale (82 acres and 121 thousand board feet) is located entirely within the CSNM expansion area.

Still need to track down current grazing AUMs in the expansion area.
