I have already drafted the email, so sending it now. I am also letting her higher-ups know I provided it to you.

Emily had been the point so circle back with her and once you let me know you connected I will have Bill Douros reach out to her directly as needed.

Thanks

Sorry - hit send too soon and then distracted. If you let me know who your initial/regular contact is - I presume Walter or Emily - I'll let them know I sent you the material and to expect some follow-up questions.

Who was your initial contact?

Hi Randy.

If we have follow up questions on the BOEM materials, who best to reach out to?

Thanks

<randal_bowman@ios.doi.gov> wrote:

The BOEM material is final in terms of substantive information. It is possible the Ast. Sec office may add some talking-point type material in the transmittal letter, but they would not have substantive information that BOEM does not. The draft report on NE Seamounts sent to Earl was labeled "Discussion draft", but most of it could be final text; I'm sure the fishery part needs work at your end.

<michael.weiss@noaa.gov> wrote:

Hi Randy.

Clarification question. These are the finals, correct. When we get it again we should not expect any changes?

Thanks much,

<randal_bowman@ios.doi.gov> wrote:

Here is the BOEM material. You likely will get it again in a couple of weeks, as Downey does not have time right now to straighten out the process. This has been approved by the Acting Assistant Secretary for Land and Minerals Management (who does not know it is being sent) and by Downey, so its official.

I now need to edit the NE memo, to avoid further confusion among the solicitors, and it will come to Earl in an hour or so. Hopefully this keeps everything on track timewise.

Subject: Sanctuary/Monument Anaysis

To: "Macgregor, Katharine" <katharine_macgregor@ios.doi.gov>, "Cardinale, Richard" <Richard_Cardinale@ios.doi.gov>, Vincent Devito <vincent_devito@ios.doi.gov>

Cc: Walter Cruickshank <Walter.Cruickshank@boem.gov>, James Schindler <james_schindler@ios.doi.gov>, "Bowman, Randal" <randal_bowman@ios.doi.gov>, Troy Ezell <troy.ezell@boem.gov>

Attached is BOEM's response to NOAA's data call on possible offshore energy and mineral impacts of sanctuary and monument creation/expansions from the last 10 years. At Kate's request, we will also be including a copy of the comments we sent to NOAA on the DEIS for the Flower Garden Banks NMS proposed expansion (attached - note that NOAA does not consider this within the scope of the EO tasking since no decision has been taken on the expansion). Please let me know if you have any comments by Friday, August 11.

Please let us know if you would like to discuss the document in more detail - we can get a meeting set up with our technical experts that developed the estimates.

Thanks,
Emily
