I was going to have the video viewed and discovered the link was only valid through the 31st. Would you mind resending it? It will reviewed today.

I have received the link. I don't think I will get to it today, but the comments are received and all will be taken into account.

It looks like the file upload was shut down mid process. I'm trying again, FWIW.

Certainly - will get back to you tonight if it arrives before I leave, or first thing the morning otherwise.

Do you know approximately how many individuals made statements here?

Randal,

I wanted to let you know that this video is en route. It will probably take a little while longer to upload and send, but you should have it sometime this evening. Can you let me know if for any reason you don't see it?

Yes, that should work. Downey was kind enough not to mention that I'm a techno dinosaur, so that didn't occur to me.

The file won't come through your email we have similar restrictions here. The email will have a link, so you can download the file off the internet. I am assuming you can download files of the internet – kind of like dropbox but from a service maintained by the Senate.

I'm not sure one that big will go through our system. Please give me a little time to check on how best to do this.

Ben, I will need to check on what capacity we have for receiving video statements and get back to you. Do you know how many statements you have or the size of the file(s)?

Downey,

I wanted to introduce myself. I am on Senator Lee's communications staff, and I will be preparing the files we have of video statements from the residents of San Juan County. We would like to send these to you in whatever way makes the most sense for you. The Senate has a large file transfer system that we could use, which is probably the best option. Otherwise we can explore disk storage, but that method has its own problems. Let me know what you think, or if you need more information (I am assuming Micah has gotten you on the same page).
