OK.

Hi Randy,

The attachments on the Patagonia Form Letters were uploaded correctly to FDMS and Regulations.gov from my end.

Now that I know that DiscoverText software is unable to read anything handwritten or with graphics, I'll start counting or weighing those comments manually.

I apologize, I wasn't aware of this information until Stu shared it with me last Thursday.

Thanks,
Jennifer

That's very strange. The attachment is in FDMS. I'll look at DiscoverText.

Are you available then? I want to over the uploading and see if there are changes we can make to simplify things, particularly with respect to attachments.

Example:

document id: DOI-2017-0002-117834

See attached Attachments Patagonia Form Letters 15

but there is no attachment.

Also, some of them do not have any Metadata (i.e., no document id or anything else).
