The Secretary will be travelling to several states in early- to mid-July, one of them California.

Downey would like to have a briefing by BLM no later than June 30 on the extent to which the agency could address the issues raised by Rep. Cook in the attached letter through revisions to the management plan for the applicable Monument, if the issue can be addressed under the existing management plan, or if a change to the Proclamation would be needed.

Staff should work with Aaron Moody in determining this. I'll pass this to Chris and Nikki shortly, but wanted to give you a heads-up, and I presume you will want to be part of the briefing. If you or they let me know when you are ready, I'll set the appointment.
