Thank you - that is a legitimate organization, and I received a snail-mail comment today that referenced this letter, so was going to look for it tomorrow. There is likely one from a New England commission as well. These groups make recommendations on commercial fishing regulations, and have both an executive director and a Chairman that could sign letters.

Claims to represent the views of an entire commission (Atlantic States Marine Fisheries Commission).

I coded it as "(3) Not a mass mailing" as there is no way to know how many people are in the commission. There was **only one** signature.

Task: Identify Mass Mailings - Code document if it represents "**x**" number of attached form letters.

What we are looking for are **mass mailings in the attachments**. When and if you find them, please Highlight the first 4-5 words in the viewer:

Inline image 1

then **create an annotation**:

Inline image 2

where **the code is the # of purported versions** of the form letter in the attachments:

Inline image 1

Reply all with questions about a particular case. Identify the document ID when you have a question about a confusing case. You do NOT need to count hundreds or thousands of postcards. Instead, look for information on the total number.
