Great. I will notify George

Jennifer will call you, but what I didn't understand about the 2 people from her office scanning is that they would just scan and she would do the uploading. She will explain further, but it seems that would avoid the complications you mentioned.

I think this needs to go in the contract, so if you could get back to me today or tomorrow with an OK or not, that would be helpful.

Here is what I just received - I believe you should be the Government Representative

Fisher, George

3:01 PM (1 minute ago)

to me

You can go ahead with this briefing of capability.

Give him a heads up that Andrew from OCIO will be contacting him concerning their software and OCIO's review.

Also, Bruce (I think he was the one leading) and I had a discussion after everyone hung up about the COR and duties. Managing this is way over the head of Rosslyn Murphy. Bruce said he would talk to you about this. I can designate Rosslyn as the COR but only as the person approving invoices. What we need is a Government Representative (GR), which is a separate appointment and does not require training. This is the technical person who will interface with the contractor on a daily basis. That should either be you or maybe the FWS person. I'll let you mull over who the technical person should be to manage the contractor on a daily basis. Please let me know what you decide.
