As promised, here is the address for the Federal Register:

Thanks. Your folks are trying to set up the docket now.

We felt we should also provide for written comments, knowing there will be massive amount, and have made arrangements with the mailroom and with Facilities Management to sort and store those comments. We will also get an empty room where we can review them periodically.

If you are going to include information in the press release on submitting comments, regulations.gov should be the primary method of submission and that should be clear in your message. If you provide a U.S. mail address or physical address as the primary address, you will be inundated with hard copy mail and response to comments will be much more difficult. I have asked Megan Apgar of my staff to set up a docket in FDMS (the back office side of regulations.gov). That docket should be included in the FR notice and, if you also wish to provide that information by press release, it should be in the press release as well. I am copying in Megan so she can provide the docket number and language on submitting comments.
