Thank you! I'll check with the Employee Locator folks (I think that may also be Joe, but may be CIO!). Glad it is all working out....

Everything from your people went extremely well yesterday - Joe and company took care of or are in the process of taking care of everything I asked for, and Christina was very helpful. Thank you!

However, I have one further somewhat urgent request.

The Federal Register requires all notices to have a "For further information contact xxx" section, even if there is no further information available, and I drew the short straw for that. Joe had the telecom folks give a new number for those calls, and I will put a recording on it that we have no additional information at this time and when we do, we will post it on the web site so it is available to all at the same time.

However, some organizations will undoubtedly then go to the Employee Locator to get my regular number, and tell their members to call me on it; and I can't function if that is ringing non-stop with outside calls.

So, could you have whoever manages the employee locator change my number there immediately to: 202 208-1906, and only that number. Since the review might not get done exactly on time, I'll get back to you or them, as appropriate, when this is finished and my regular number can go back on.

I will get with Jennifer on Monday to work out the details of the Regs.gov site monitoring, including making sure she doesn't have an excessive workload from that. I think this is all I will need to bother you about, at least for some time. Thank you again!
