Randy and Downey. Just received this hard copy letter from Risch Crapo. I've added them to the list for replies.

Ok. We will do the production. Can you send me the full list of members who submitted?

OK, but on "getting these ready" - I was planning to see if either your office or Exec Sec could do the actual production of the letters, as I don't have any admin support to do that. I understood my role as drafting substance of the replies.

I spoke with Downey about this. Would be best to do this generic letter and then he can personalize the ones that he'd like. We'll sort them and set them aside for him to add personal touches to. Just letting you know so you can start getting these ready for his return. Thank you

Lets wait until Downey is back. I don't want to bother her with this while she is on the road.

I don't think a totally generic response serves the Secretary well. On the other hand, I had continually maintained that OCL should handle these letters, and only found out they were assigned to me over the Memorial Day holiday, with yesterday being the first chance I had to draft responses. Right before you joined us in her office last Thursday(?) Downey and I had talked about this, and I had direction to check with you two on the question of who the Secretary had talked to that should be referenced in the letters, but otherwise to draft the answers. I will be more than happy to make another pitch Monday to turn the whole thing over to you.

I think we might be overthinking this. We'll draft a basic response template that can be used for all of them. There's no need to personalize too much, just an acknowledgement that it has been received and their input will be reviewed by the Secretary. You'll have a draft today.

Here is the Word document with the draft answers, in the same order as the incoming letters in the pile I will bring up.

At the rate letters are coming in, I will have a second round later this week.

We are here, but headed to Secretary's office for a congressional event. If you have these in electronic format that would be helpful for the editing process.
