Re: Public Meeting on Purposed 2001 Red Devil Mine Clean-Up

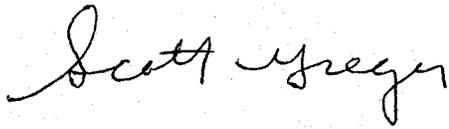

Dear Mr. Alcorn:

I'm sorry for this late request for a village public meeting, but do to all the missing documents that your office has sent to Red Devil, the village is in the dark about what is happening at the Red Devil Mine Site for the past three years the residents have not seen a single public posting at the Post Office, or at the School, in fact at your last public meeting held on June 14, 2000 the Notification made reference to the Administrative Record (Red Devil, Anchorage) these documents could not be located by you or your staff at this meeting and have just recently shown up, however the documents were not complete some missing public notices were missing.

Thank you for extending our public response time from June 25, 2001 to July 7, 2001 to allow us this additional time to inform all residents of this very important issue. Do to our School being closed for the summer vacation we have been holding public meetings in the Iditarod Room (old Herman Hardware) this facility can hold up to forty people and has running water as well as bathroom.

If you have any questions about this important matter please call me Scott Greger , President of Red Devil People & Community Inc. at 447-3203 office number or my home number is 447-3256.

Sincerely,

A handwritten signature in cursive script that reads "Scott Greger".

Scott Greger
President
Red Devil People & Community Inc.
