

Science Saturdays! at the Campbell Creek Science Center!

Anchorage 4-H and the BLM Campbell Creek Science Center are teaming up to offer Science Saturday sessions focused on science and the natural world. Each program will be designed to target youth ages 8-13. However, all adults and students will be actively engaged as participants in the program and will be given resources for continued learning. An attempt will be made to include younger accompanying participants and siblings on a case-by-case basis.

Each Saturday session will be held at the Campbell Creek Science Center from 1-4 PM. Participants will have an opportunity to learn more about Anchorage 4-H and experience a 2-hour educational program (1:30 – 3:30 PM). Refreshments will be provided.

November 14th Animal Evidence	February 13th Tracking & Snowshoeing	May 8th Creeks & H ₂ O
December 5th GPS/Geocaching	March 13th Weather & Climate Change	June 12th Bird Academy
January 9th Energy	April 10th Forest Studies	July 10th Salmon Stories

4-H Members: \$5.00 person/event

Non 4-H Members: \$6.00 one time 4-H membership fee + \$5.00 person/event

Adults and parent chaperones are free of charge

Space is limited to 30 participants for each event. Registration is required and program fees apply. Some scholarships are available. Parents or adult chaperones must accompany student age participants. Please be sure to dress appropriately for the weather as all programs will have both indoor and outdoor components. For additional information or to register for an event, please contact Marianne Kerr at 786-6300 or anchorage.4h@alaska.edu.
