Proposed Action Title/Type

Well Plugging & Abandonment Reclamation / NPR-A Permit (2984.01)

Description of Proposed Action

The applicant will conduct reclamation activities at sites and along routes from the 2010-2011 winter season project (DOI-BLM-LLAK010-2011-001-EA); see attached map. The project will occur from 10-20 August 2011. Crews will fly daily from Barrow to the project area via a helicopter (Bell L4 or similar). A crew will fly the winter route via a helicopter and land as needed along the route to pick-up trash and debris. The winter route was over land and freshwater or sea ice. The route was on sea ice once it left the NPR-A boundary near the Kogru and Kalikpik rivers eastward to Oliktok Point on state waters.

There will be an estimated total of 56 landings during the project. The crew will consist of approximately 5 people. Activities will include stick-picking, debris removal and site inspections at plugged and abandoned well sites (all within the Northwest NPR-A), stream crossings, water sources and winter routes described in the next section. Notice of Staking (NOS) will be removed from sites described in the next section.

Legal Descriptions
