JBR, I'm sending a few emails to you from [REDACTED], to see if you can help me answer some of [REDACTED] questions.

Thanks, Joe

Are these in the DEIS? Can you please help me find them? If not, can you tell me what the acreage is-X,2? Miles around Alternatives, put must be some overlap. Impacts are written as a % of carpus types of land within Study Area. Thanks, I hope you both are well.
