December 14,2012

Dear Mr. Incardine

Due to inadequate notification of the public hearing of the Proposed APS Sun Valley to Morgan 500/230KV Transmission Line Project and Proposed Resource Management Plan Amendment, the residents of the area that will be impacted by this project request another meeting. It was made very apparent at the meeting of December 12, 2012 that very few residents knew about the meeting, and those who found out from neighbors and were able to attend did not have time to inform themselves of the issues. The transmission line will have great, and long ranging effects on the community for health and safety, property value recreational use, and the socioeconomic justice of that part of the community that has been identified as low income who were not represented.

Your reply to any action taken on this matter will be appreciated.

[redacted]

We the undersigned request another public hearing on the above mentioned project.

Dear

Sending additional names and addresses. I still am unable to find anyone that had previous knowledge of the power line or the public hearings. Out of these 150 signatures only about 6 new anything.

You may call me on my cell: [redacted]
if I can be of any additional help.

Thank you
