Subject: THE BEST REASON TO DENY THE USE OF BLM LAND-----

TO; JOE INCARDINE
TO; DIRECTOR OF THE BLM PHOENIX
TO; DIRECTOR OF BLM LAND –WASHINGTON D.C.

RE; WHY THE USE OF BLM LAND HAS TO BE DENIED.

Dear Joe,

If one was to look at things from a common sense point of view-----a real basic common sense point -----

We know the south side of rte. 74 is commercial property-----especially from 187th Ave north---
--east to a line running north east slightly from the Westwing substation at Happy Valley Road-----
---to just west of the Morgan Substation. I will send you much more specific details and documents
.

On the north side of rte. 74 is all BLM

To the south side of rte. 74, it is all commercial property that we know-know for a fact--- that will
be completely developed eventually going to totally destroy the natural setting of plants and wild
life and will completely change this land for ever-----no even being close to what it is now and has
been for a 1,000 years.

IF WE KNOW THIS LAND ON THE SOUTH SIDE OF RET 74 WILL BE CHANGED FOREVER-----
DRASTICALLY CHANGED destroyed --THEN WHY NOT DRASTICALLY CHANGE ONLY ONE SIDE-THE
SOUTH SIDE OF RTE 74-AS WE KNOW THIS WILL BE DONE AND SAVE THE NORTH SIDE OF RTE.
74 –THE BLM LAND

**RATHER THAN DESTROY BOTH SIDES
OF RTE. 74—WHEN YOU CAN SAVE ONE SIDE FROM
DESTRUCTION-THE NORTH SIDE OF RTE. 74**

**THIS BEING THE BLM LAND
-----SO REFUSING THE USE TO APS THERE
APPEAL YOU WILL SAVE AT LEAST ONE HALF OF
THIS PRISTINE**

**LAND ALONG WITH
THE WILD LIFE, THE DESERT TORTIOUS, SPOTTED
OWLS, AND OTHER WILD LIFE,WILD VEGATATION,
PLUS WILL SAVE
A CONTINOUS SCENIC VIEW GOING NORTH FROM
RTE. 74----AS BLM LAND CONTINUES**

**FROM THE
NORTH SIDE OF RTE 74 NORTH FOR SOME DISTANCE**

[WILL FIND OUT HOW FAR NORTH AND LET YOU KNOW]

Why destroy both sides of a scenic route , disturbing and killing wild vegetation, disturbing and killing wild life, ruining what nature has spent a thousand years making, when we know the south side will be destroyed permanently –for ever---IT WILL BE DEVELOPED

Your focus is what you do and is your mission as being part of the BLM-to protect natures gift , the land, the wild life, the environment, protecting the wild vegetation, all things that is the true mission of the BLM from day one when it was set up by Congress. You can save at least half of what we know will be destroyed -----RATHER THEN HAVING THE Blm BEING A PART OF DESTROYING THE WHOLE AREA-----WHEN IT DOES NOT HAVE TO. DO NOT BE A PART OF THIS DESTRUCTION-----SAVE YOU HALF FROM WHAT WE KNOW YOU AND THE blm CAN SAVE-----

AND LET APS FIND THE OTHER OPTIONS THAT THEY KNOW THEY HAVE-----THE SOUTH SIDE OF RTE 74 IS GOING TO BE DEVELOPED AND DESTROYED LET APS BE A PART OF THAT

DESTRUCTION AND THE BLM BE A PART OF SAVING AS MUCH AS IT CAN-----

THE SOUTH SIDE WILL BE DESTROYED-----SO LET THEM ADD TO THE DESTRUCTION BY REFUSING APS ACCESS TO THE USE OF BLM LAND----- AND DO WHAT YOUR AGENCY WAS SET UP TO DO AND SAVE THIS LAND FOR THE AMERICAN PEOPLE

The BLM can not save it all-----BUT IT CAN SAVE AT LEAST HALF-----AND THAT IS THE MISSION OF THE BLM WHEN EVER POSSIBLE.

Doing more research-----but this is meeting everyone half way so to speak-----You save the BLM land-----which is your mission-----the south side is going to be developed anyway-----so APS and the builders can do that together-----APS has other options so they can work all of that out with the ACC--and the BLM can go about doing the business it was set up to do--by saving land for future generations of Americans --for all Americans as god is not making any more----- and this land has to be protected

THERE ARE ALTERNATIVES --WE KNOW THAT AND WE AT THE SAME TIME PROTECT AT LEAST HALF -- RATHER THEN DESTROY BOTH THE NORTH SIDE AND THE SOUTH SIDE-----SAVE THE NORTH SIDE-----IT IS EASY.....AND THE RIGHT THING TO DO.

We cannot stop the destruction of the south side of rte. 74-----we know that-----but we can save the north side-----we know that also. That is what you are there for-----that is the BLM's purpose and why it is still in existence today----

IT WILL ALSO SAVE MONEY AND THE RATEPAYERS MONEY AND WE THE AMERICAN PEOPLE --ALL AMERICANS--WILL NOT LOSE LAND THAT CAN NOT BE MADE, REPLACED OR EVEN GOTTEN BACK THE WAY WE HAVE IT NOW-----

SIMPLE

My best,
