Hello, [REDACTED], hope you're enjoying your holidays. You are bringing up a lot of economic questions that the BLM team will need to work on in the analysis...

Hello,

Merry Christmas Have a few other questions that have not been forth coming that the BLM must know

- 1.] What is the cost for the original routing by the ACC –going on the south side of 74 to the Morgan sub station ?????? total estimated cost
- 2.] What is the cost for the routing using the Cave Creek line from Sun Valley following the canal up to Morgan ??????? total estimated cost
- 3.] What is the total cost using those 9 miles of BLM land by going over and back again to Morgan----one estimate for the 9 miles over and back is between 3 and 6 million in today's dollars. APS costs ? ????
- 4.] What is the cost of the nine miles in terms of land costs—actual today's dollars it would cost for this land---Plus the commercial property value along this 10 lane highway that is in work for that area.???? Land values ??????
