#### COMMENTS:

I attended the meeting on Dec 12/12 and am very concerned about the possibility of having transmission lines running down Cloud Road. Our property is located between Caravaggio Lane and Cloud Road which would put the lines right in my back yard!! For my neighbors and I, this would be totally unacceptable! The potential hazard to our health and that of our pets and livestock is tremendous. The noise from the lines would negatively impact the enjoyment of our neighborhood. Our property values would continue to plummet, going from bad to worse!

Attention: Mr. Ruben Ojeda

Re: APS Valley to Morgan 500/230kV Transmission Line Project

Dear Mr. Ojeda:

Please accept this letter as our written objection to any transmission lines being constructed along Cloud Road.

Cloud Road borders our property as well as the property of our neighbors on Caravaggio Lane. We are very concerned about the potential health hazards that the transmission lines would cause to ourselves, our neighbors and our pets and livestock. Our other concerns are with regard to the noise that will be created by these large transmission lines and our property values. We have only recently purchased our property and would not have done so, had we known about the possibility of having transmission lines in our backyard! If anything, our preference is that the lines be constructed further out on the School Trust Land and closer to Highway 74.

Thank you for your consideration and again, we respectfully request that no transmission lines be constructed on Cloud Road.

Sincerely,
