Subject: State route74&power lines

I would like to see State Route 74(north side) used to house power lines. This route is used for transportation and it makes plain sense to place lines there. This would not infringe on any communities that object to the area that APS wishes to use. Route 74 is one that ADOT supports also. Just end this fight and and join the citizens that have been committed to this project for several years!!! [REDACTED]
