

Joe Incardine
National Project Manager
BLM Phoenix District Office
21605 North 7th Avenue
Phoenix, AZ 85027-2929

Dear Joe:

I am writing to thank you for your and the BLM's support for the proposed APS Sun Valley to Morgan transmission line project which carries the power lines along the North Corridor.

I am a 4 year resident of Vistancia Village, and appreciate your efforts to hear those of us who are potentially impacted by this proposal and finding a solution that has the least amount of impact to current residents.

Vistancia is a beautiful place to live. As you have heard before, this master planned community has won many awards. In fact, one award was recognized Nationally, and that was that Vistancia earned the number 1 spot as the best master planned community in the United States. That says something. By proposing that APS erect the power lines along the preferred Northern route along Route 74, you save Vistancia from blemishing the quality of life here and the value of our homes and this community.

Thank you for putting the "quality of life values" and "property values" of those of us who live in communities like Vistancia above "recreational values" for transient visitors.

Thank you again for your support.

Sincerely,
