

Mohave County Wind Farm Project

Overview of the Construction Process

Pumping Base Concrete

Based on Preliminary Data; Subject to Change

Backfilling Foundation

Based on Preliminary Data; Subject to Change

Collection Trench and Access Road

Based on Preliminary Data; Subject to Change

Turbine Delivery

Based on Preliminary Data; Subject to Change

Off-Loading Turbine Parts

Setting Tower Sections

Lifting Nacelle

Typical Rotor Size

Based on Preliminary Data; Subject to Change

Size Comparison - Rotor

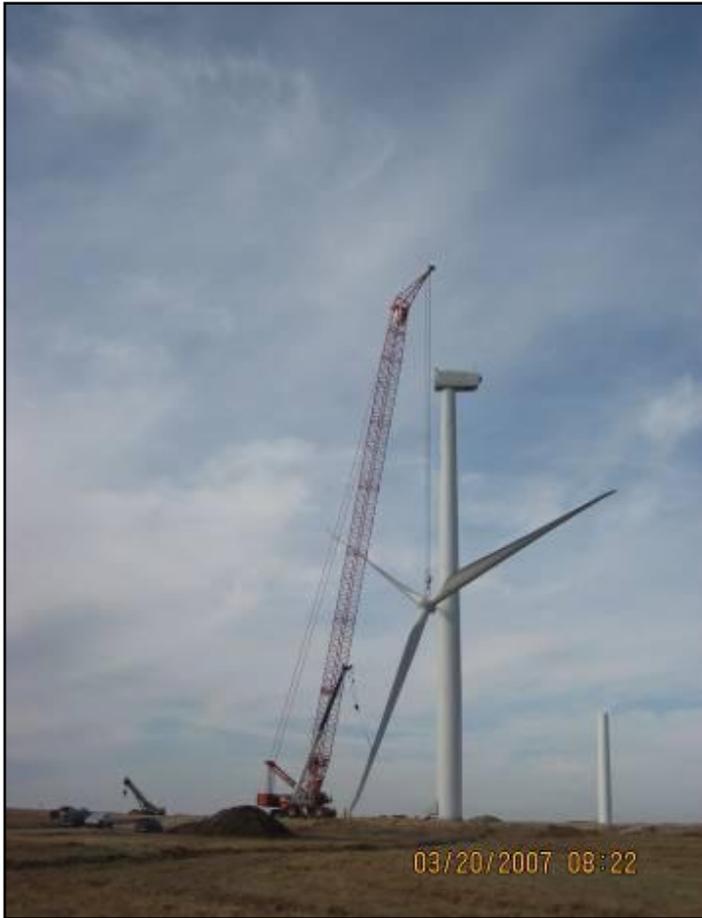

Based on Preliminary Data; Subject to Change

Assembling Rotor

Based on Preliminary Data; Subject to Change

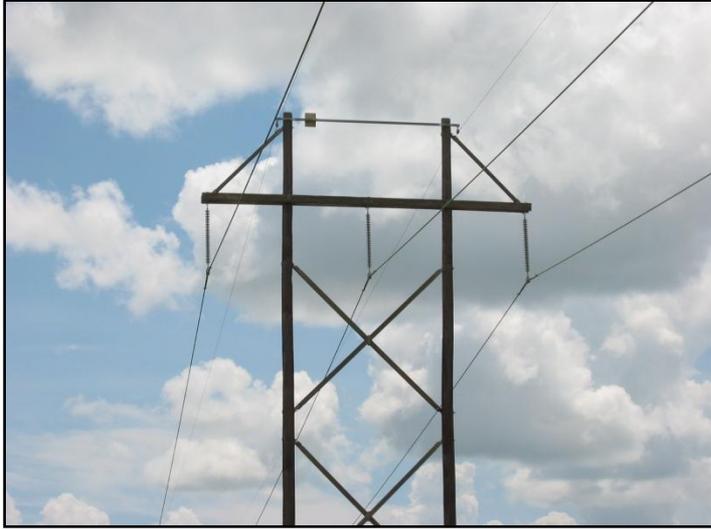

Hanging the Rotor

Completed Towers

Associated Project Features

- Pad mounted transformers
- Underground electrical collection system
- Electrical substation and switchyard
- Overhead transmission line to interconnect to existing transmission lines
- Access roads
