No uranium mining at the Grand Canyon!

Dear Secretary Salazar,

I support protecting the Grand Canyon's entire 1 million-acre watershed from uranium mining as outlined in Alternative B in the Draft Northern Arizona Proposed Withdrawal Environmental Impact Statement and Revisions to the Withdrawal Application, Arizona.

The Grand Canyon National Park is an international treasure. The diversity of habitats resulting from its great depth, its diverse topography, and its isolated seeps, springs and caves make it one of the most biologically diverse national parks in the United States.

The Grand Canyon is also the home of the Havasupai Nation. Indigenous Nations have been suffering from uranium mining for years. We can't sacrifice their lives. President Obama has signed the UN Declaration on the Rights of Indigenous Peoples in December 2011. Now, it is time to implement it.

Yours
