 Date Prepared: 9/22/2008
 Project: lc_map3-2_recreation_proposed_action092208tab

This map was constructed using a USGS topographic map background image. The road layer used for analysis was inventoried by Redwood National and State Parks within the last decade. A few short road segments from the USGS map, which are visible in the background layer of this map, are no longer present according to the inventories used for this planning document.
