

# TAKE RESPONSIBILITY

Create defensible space - in a pinyon pine landscape.

**THE PINYON LANDSCAPE** in the photo above is typical of a landscape dominated by pinyon pine.

**DEFENSIBLE SPACE** has been created in a similar area, shown in the photo below. The pinyons have been spaced and limbed and ground fuels have been significantly reduced.

**WHEN ASSESSING** your property, focus on being able to see lots of ground and daylight between your home and the vegetation that surrounds it, as well as between the vegetation itself.

*This is a cooperative safety program by the Inyo National Forest and the Bishop Field Office of the Bureau of Land Management. For additional information call: 760-873-2400.*

USDA Forest Service and USDI Bureau of Land Management are equal opportunity service providers and employers.
