NEEDLES FIELD OFFICE
NEEDLES, CA

Dear Mr. Lee:

The Chemehuevi Tribe is requesting a round up of Burro's from their Reservation Lands, because they are a causing a public nuisance and public safety hazard.

In the past six months, two burros have been hit by vehicles and the Tribe is asking that the United States Bureau of Land Management to perform a round up as soon as possible.

If you have any Questions, please send them to my attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Edward D. Smith".
