1. INTRODUCTION

The Bureau of Land Management (BLM) Hollister Field Office, in cooperation with the Environmental Protection Agency (EPA), prepared a Draft Resource Management Plan/Environmental Impact Statement (RMP/EIS) from 2007 to 2009 to provide direction for managing public lands in the Clear Creek Management Area (CCMA). The Draft RMP/EIS was released for public review and comment on December 4, 2009. This report summarizes the results of three public meetings hosted by the BLM's Hollister Field Office. These meetings were designed to provide general information and gather public comments on the range of management alternatives considered in the Draft RMP/EIS, and the analysis of potential impacts on the human environment from BLM's proposed management actions.

Public involvement is an important part of the National Environmental Policy Act (NEPA) process. The Council on Environmental Quality (CEQ) regulations require that agencies will:

- Make diligent efforts to involve the public in preparing and implementing their NEPA procedures and
- Provide public notice of NEPA-related hearings, public meetings, and the availability of environmental documents so as to inform those persons and agencies who may be interested or affected.

2. BACKGROUND

The CCMA is in central California in the southern portion of San Benito County and the western portion of Fresno County. It encompasses approximately 75,000 acres, 63,000 of which are public land managed by the Hollister Field Office and 12,000 acres are state and private lands.

Within the CCMA boundary is the Serpentine Area of Critical Environmental Concern (ACEC) covering approximately 30,000 acres. It was designated an ACEC with the approval of the 1984 Hollister RMP, which addressed the BLM's land use decisions for CCMA public lands. The designation was based on the human health risk associated with the naturally occurring asbestos and the occurrence of special status plant species endemic to the area. Within the ACEC is the 450-acre Atlas Mine Site, which is listed on the EPA Superfund program's National Priorities List (NPL) of hazardous waste sites potentially posing the greatest long-term threat to health and the environment. The ACEC also includes 4,147 acres of the San Benito Mountains designated as a Research Natural Area (RNA) because of the unique forest assemblage and vegetation communities associated with its serpentine soils. The RNA's primary purpose is to provide research and educational opportunities, while maintaining and protecting a unique assembly of vegetation in as natural condition as possible.

The Hollister RMP Record of Decision, approved in 2007, did not address land use decisions in the CCMA because the EPA was preparing an asbestos exposure and human health risk assessment to provide the BLM and the general public with information on the exposure levels from various types of activities in the CCMA. The study was prepared in

connection with the Atlas Asbestos Mine Superfund, located within the CCMA, and technical deficiencies of a 1992 health risk assessment that the BLM used to evaluate CCMA visitor's exposure to airborne asbestos fibers in the area. The EPA released the CCMA Asbestos Exposure and Human Health Risk Assessment on May 1, 2008. The authors of the study concluded that visiting CCMA more than once per year can put adults and children above the EPA's acceptable risk range for exposure to carcinogens. They found an increased long-term cancer risk from engaging in many of the typical recreational activities at the CCMA. In order to reduce risk to public land users from exposure to airborne asbestos, the BLM Hollister Field Office published a notice in the Federal register announcing the temporary closure of the CCMA to all forms of entry and public use. The notice stated that the order will be in effect while the BLM prepares a RMP/EIS for the CCMA to determine appropriate measures to minimize and reduce excess health risks from, visitor use on public lands in the Serpentine ACEC.

The CCMA Draft RMP/EIS presents a range of management alternatives to address emerging issues in the region and evaluates the environmental consequences of these management alternatives, as well as the BLM's current management of the area. The result of this land use planning process will be a stand-alone RMP that allocates resources in the CCMA area to establish the following:

- Areas of limited, restricted, or exclusive use and special designations;
- Allowable resource uses and related levels of production or use;
- Resource condition goals and objectives;
- Program constraints and general management practices needed to achieve the above items;
- Support actions, including resource protection and public health and safety measures, access development, and realty actions as necessary to achieve the above;
- General implementation sequences, where carrying out a planned action depends on prior accomplishment of another planned action; and
- Intervals and standards for monitoring and evaluating the plan to determine its effectiveness and the need for amendment or revision.¹

3. PUBLIC INVOLVEMENT PROCESS

On September 6, 2007, the BLM published the Notice of Intent (NOI) to prepare an RMP/EIS for the CCMA. The same day, the BLM issued a news release announcing three public scoping workshops. The purpose of the scoping meetings was to raise public awareness about the impending release of the risk assessment prepared by EPA, and to gather comments on appropriate management alternatives and environmental issues to be analyzed in the EIS. The dates and locations of each public meeting were:

¹ BLM. 2010. Frequently Asked Questions Concerning BLM Planning. Internet Web site: http://www.blm.gov/wo/st/en/prog/planning/frequently_asked_questions.html. Site Accessed April 13, 2010.

- September 27, 2007, in Hollister;
- October 4, 2007, in Coalinga; and
- October 11, 2007, in San Jose.

Following the release of the EPA's Asbestos Exposure and Human Health Risk Assessment and the temporary closure of CCMA on May 1, 2008, the BLM announced three more public scoping meetings for the CCMA RMP/EIS, one of which included a presentation by EPA staff to explain the results of its study. The dates and location of each meeting were:

- May 8, 2008, in Santa Clara;
- May 19, 2008, in Hollister;
- May 21, 2008, in San Jose.

During these six scoping meetings, over 1,000 members of the public, mainly off-highway vehicle (OHV) users, discussed the future management of the CCMA. The CCMA scoping report, prepared by the BLM's Hollister Field Office and released in August 2008, details the specific comments and results of the public scoping period, which closed on June 21, 2008.

Based on the discussions and the comments and concerns collected during the scoping period, the following key themes and priorities were analyzed in the CCMA RMP/EIS, in addition to preliminary issues identified by BLM personnel, cooperating agencies, and public user groups:

- Questions about chrysotile asbestos and EPA risk assessment;
- Impacts on human health from asbestos exposure;
- Measures to reduce and minimize risk to public health and safety;
- Suitable areas for motorized and nonmotorized recreation uses;
- Desired outcome for areas with high scenic and cultural values;
- Protection of special status species;
- Potential land tenure adjustments (acquisition and disposal);
- Wildfire management strategy to protect private and public lands and resources;
- Limits established for season of use, number of visitor use days/years, vehicle types, riding areas and trail types, and minimum age requirements;
- Fluid and solid mineral development;
- Impacts on watershed resources and water quality; and
- Impacts on air quality in nonattainment areas.

On December 4, 2009, the BLM published the Notice of Availability (see Appendix A) for the Draft RMP/EIS for the CCMA that announced the beginning of a 90-day public review period (December 4, 2009, to March 5, 2010), during which written comments are accepted. During the public review period the BLM Hollister Field Office hosted three public meetings to gather comments on the Draft RMP/EIS. All public meetings took place from 5:30 to 8:30 PM in the following dates and locations:

- January 13, 2010, in Coalinga;
- January 14, 2010, in Hollister; and,
- January 20, 2010, in Santa Clara.

The public comment period for the CCMA Draft RMP/EIS was extended by 45 days by the BLM. The end of the public review period was April 19, 2010.

The BLM's Hollister Field Office also hosted a Social and Economic Workshop on February 22, 2010 to discuss potential social and economic impacts of alternatives analyzed in the Draft RMP/EIS. The goal of the workshop was to provide business leaders, private landowners and local government representatives information about the draft plan and to gather their comments on social and economic impacts of public land use planning decisions for CCMA. The results of the social and economic workshop will be summarized in a separate report and incorporated into the CCMA Proposed RMP and Final EIS.

3.1 PUBLIC MEETINGS

The purpose of the public meetings described in this report was to gather general public comments on the CCMA Draft RMP/EIS. Each public meeting began with an open house, where the public was offered the opportunity to gather information, talk with BLM specialists, and provide written comments on the Draft RMP/EIS. Following the open house, the BLM provided a brief overview of the RMP alternatives and opened the verbal comment sessions. Public speakers were allowed approximately three minutes each to provide their comments to BLM decision-makers and the general audience regarding CCMA public lands and the information provided in the Draft RMP/EIS. Verbal comments were noted on a flipchart to capture public concerns and help identifying common themes. As part of the NEPA process, the BLM assesses and considers all comments. Public comments could influence the decision makers to:

- Modify alternatives including the proposed plan;
- Develop and evaluate alternatives not previously given serious consideration;
- Supplement, improve, or modify analysis; or

- Make factual corrections.²

This document provides an overview of the three public meetings held for the CCMA Draft RMP/EIS and summarizes the verbal comments stated during the meetings. To ensure that the true intent of the comment is captured, participants were asked to submit their comments in writing.

Following public review and comment on the CCMA Draft RMP/EIS, the Hollister Field Office will prepare a Proposed RMP and Final EIS that incorporates public comments and other agencies' input. A summary of all the public comments received official responses will be included in the CCMA Proposed RMP and Final EIS. As a result, the final alternative identified in the proposed RMP may be different from the Preferred Alternative, or any of the alternatives analyzed in the Draft RMP/EIS, and may include elements incorporated after public review of the Draft RMP/EIS. The proposed RMP and final EIS will identify any major changes to the Preferred Alternative.

4. SUMMARY OF THE PUBLIC MEETINGS ON THE DRAFT CCMA RMP/EIS

4.1 COALINGA PUBLIC MEETING

The public meeting in Coalinga took place at the Harris Ranch on January 13, 2010. Over 125 members of the public attended the meeting. Organizations and affiliations represented during the public meeting are listed in Table 1.

**Table 1
Organizations and Affiliations Represented during the Public Meeting in Coalinga**

AMA District 36	Hopkins and Carley
American Land Access Association	Invisible Team of Zero
America, Land of the Free	Junnila Mines
Avenal Chimes News	Leemore Gems and Mineral Club
Bay Area Riders Forum	Los Altos Dirt Bike Riders
BlueRibbon Coalition	Los Gatos Motorcycle Club
California Association of Four-Wheel Drive Clubs (Cal4)	OHMLRC Commission
California OHV Commission	Racers Under the Sun
California State Parks	Ridge Runners
Central Coast Racing	RMD
CERA	Salinas Valley Rock and Gems Club
California Federation of Mineralogical Society	San Francisco Gems and Mineral Society
Coalinga Rockhound Society	Santa Clara Valley Gems and Mineral Society
CORE Group	Santa Cruz Gems and Mineral Society
Esprit de Four	South Bay Riders
Friends of Clear Creek Area Organization	Salinas Ramblers Motorcycle Club
Four-Wheel Drive South Bay Riders	Timekeepers Motorcycle Club
Foxshox	Three Rocks Research
Fremont Honda Kawasaki	Tule Gems and Mineral Club
Fresno Gems and Mineral Society	US Forest Service
Ghost Riders	Valley Trail Riders
GPSports	Viewfinders
Granite Bandits	Zoom Cycle Accessories

² BLM. 2005. Land Use Planning Handbook. BLM Handbook H-1601-1. March 11, 2005.

The meeting started with a one-hour open house, during which personnel from the BLM Hollister Field Office and EPA were present to answer questions on the Draft RMP/EIS. At the end of the open-house session, Rick Cooper, Manager of the BLM Hollister Field Office, summarized the preparation of the Draft RMP/EIS and the alternatives analyzed. The comments session following the presentation was facilitated by a team from Tetra Tech, Inc., a BLM contractor.

The number of public speakers, as presented in Table 2, was 18 and included individual citizens and representatives from the following organizations: Tule Gem and Mineral Society, Blue Ribbon Coalition, Junnila Mines, Coalinga Rockhound Society, Fresno Gem and Mineral Society, Lemoore Gem and Mineral Club, *Avenal Chimes News*, Three Rocks Research, AMA District 36, and California Association of Four-Wheel Drive Clubs.

Table 2
Speakers during the Public Meeting in Coalinga

Name	Organization
Marshal Hauner	Tule Gem and Mineral Society
Anthony Lane	Tule Gem & Mineral Society
Don Amador	Blue Ribbon Coalition
Leza Junnila	Junnila Mines/Tule Gem & Mineral Society
Gilbert Schreiner	Coalinga Rockhound Society
Bob Coates	Fresno Gem and Mineral Society
Justin Kulikov	-
Judy Burson	-
Jean Schrum	Coalinga Rockhound Society
Christopher L. Wertewberger	Lemoore Gem and Mineral Club
Cheryl Taylor	<i>Avenal Chimes News</i>
Roger Tiffin	Three Rocks Research
Scott Spencer	-
John Pereira	Lemoore Gem and Mineral Club
Dave Pickett	AMA District 36
Nick Haris	AMA
Robert Adams	California Association of Four Wheel Drive Clubs
Don Colby	-

The comments were mostly focused on CCMA temporary closure and inaccessibility to OHVs and gem collectors, validity of the risk assessment study, impacts of the closure on gem collectors, and the limited review period of the Draft RMP/EIS.

CCMA Temporary Closure and Inaccessibility to Public Lands

Most of the speakers asked for the reopening of the CCMA to the public. They described the temporary closure as a premature or incorrect decision. The speakers expressed their attachment to and appreciation of the CCMA and noted that people had more access to the area 20 years ago. Speakers noted that several generations in their families

“Why would the BLM close parks when we suffer so much from over crowded OHV?” Michael Soberanes

have been visiting the CCMA. Jean Schrum, representing the Coalinga Rockhound Society, suggested signing a waiver that notifies users of health risks incurred from visiting the CCMA and indemnifies the BLM. Bob Coates, from the Fresno Gem and Mineral Society, also suggested using a waiver and compared it to the state health advisory for fish caught in San Francisco Bay or to the health warning labels on cigarettes packages.

Scott Spencer noted that the CCMA is unique for off-road sports. It allows for technical riding, which is not available in other off-road areas in the region, such as Hollister Hills State Vehicular Recreation Area (SVRA). Robert Adams, from the California Association of Four Wheel Drive Clubs, mentioned the impacts on other recreational areas in the region resulting from the temporary closure of the CCMA. He noted that most of the riding areas in the region are under pressure and if the CCMA becomes restricted, it should not be restricted to one group of users. John Pereira, from Lemoore Gem and Mineral Club, mentioned that restrictions are increasing on other recreational areas in the deserts, mountains, and coastal areas within the region.

Jean Schrum, from the Coalinga Rockhound Society, also noted the importance of the CCMA as a recreation resource to alleviate stress and secondary effects of the current economic crisis. He noted that those living in surrounding counties, such as Merced, San Benito, and Kern, are undergoing substantive stress due to the unfavorable economic climate.

Validity of the Risk Assessment Study

Speakers presented their concerns with the results and integrity of the asbestos exposure and health risk assessment prepared by the EPA. Robert Adams, from the California Association of Four Wheel Drive Clubs, questioned why the BLM relies on only one study and asked who is reviewing and confirming the results of this study. Gilbert Schreiner, from the Coalinga Rockhound Society, noted that the EPA has made previous wrong decisions, such as evacuating a town in Missouri for health concerns from dangerous levels of dioxin contamination. Minimum age requirements to reduce asbestos exposure to children, as analyzed in the Draft RMP/EIS was also a concern. Judy Burson questioned the validity of this type of limitation, and others concerned with the integrity of the study asked why the CCMA was not closed when other mines were closed, such as the Atlas mine.

Jean Schrum also stated that the chrysotile asbestos at the CCMA is not harmful, and smoking cigarettes could cause more health damage. They noted that there is no proof of disease related to this type of asbestos or associated with the CCMA. Roger Tiffin, from Three Rock Research, indicated that his family has been visiting the CCMA for over 27 years with no respiratory ailments.

“I would like some tangible proof that the asbestos in Clear Creek has harmed anyone ” Cheryl Taylor – Avenal Chimes Newspapers

Cheryl Taylor, from Avenal Chimes News, noted that, despite the health risk factor, most often the BLM has four or five trucks in the area, while in the past only one BLM truck could be seen visiting the CCMA.

Impacts of the Temporary Closure and Restriction Use on Gem Collectors

Jean Schrum, from the Coalinga Rockhound Society, expressed concerns with the economic and social impacts of the CCMA temporary closure. Leza Junnila, from the Junnila Mines and Tule Gem and Mineral Society, indicated that the CCMA is a vast resource of gems and minerals, with such gems as benitoite and fresnoite. Several speakers indicated that rockhounding is their source of income for their families. They pointed to the need for vehicular access in CCMA because most rockhounds are older and cannot hike several miles carrying materials to and from rockhounding locations, so restricting vehicles in CCMA would make it impossible for them to continue rockhounding there.

“I support application of an alternate action that would allow access in a limited manner keeping safety and access as viable solutions. I support the application proposed under Alternative B” Anthony Lane – Tule Gem Club

Roger Tiffin, from Three Rocks Research, noted that miners had a court rule in their favor and they should be allowed into the CCMA.

Public Involvement

Roger Tiffin, from Three Rocks Research, noted his concerns with the size of the CCMA Draft RMP/EIS and the relatively short public review period. He also noted that a portion of the public review period occurred during the holiday season. Don Colby said that interested groups, such as motorcycle dealers, were not notified about the release of the Draft RMP/EIS. Nick Haris, from AMA, stated that the information presented during the scoping meeting in San Jose was more elaborate than presented during the public meeting.

Don Amador, from the Blue Ribbon Coalition, noted that comments and information provided during the scoping process were not considered in the EIS analysis. Dave Pickett, from AMA District 36, noted the importance of providing good and substantive comments.

4.2 HOLLISTER PUBLIC MEETING

The public meeting in Hollister took place at the Veterans Memorial Hall on January 14, 2010. Over 290 members of the public attended. Organizations and affiliations represented during the public meeting are listed in Table 3 below.

**Table 3
Organizations and Affiliations Represented during the Public Meeting in Hollister**

AMA District 36	Hollister Motorsports
Bay Area Mineralogists	Jolly Roger Racing
BC BOYZ	Los Altos Dirt Bike Riders
California Association of Four-Wheel Drive Clubs (Cal4)	Mountaineers Foundation
California Motorcycle Company	Motion Pro
California Native Plant Society	Motorcycle Touring Association
California State Parks - Hollister Hills State Vehicular Recreational Area	Phantom Duck
	Pinit Motorsports
	Salinas Ramblers Motorcycle Club

California Off-Road Vehicle Association	Salinas Valley Rock and Gem Club
Center for Off-Highway Land Recovery and Readiness Engines Only	San Benito County
El Scorcho Motorcycle Club	Santa Clara Riders unlimited
Faultline Powersports	Santa Clara Valley Gems and Mineral Society
Friends of Clear Creek Management Area	Save Clear Creek Group
High Gear	South Bay Riders
Hollister Honda	San Benito Couty Parks and Recreation
Hollister Hills Off-Road Association	Team Beefy
Hollister Hills Volunteers Patrol	Timekeepers Motorcycle Club
	Three Rocks Research

Similar to the Coalinga meeting, the meeting in Hollister started with a one-hour open house during which personnel from the BLM Hollister Field Office and EPA answered questions on the Draft RMP/EIS. At the end of the open-house session, Rick Cooper, Manager of the BLM Hollister Field Office, summarized the Draft RMP/EIS and the alternatives analyzed. The verbal comment session following the presentation was facilitated by a team from Tetra Tech.

The number of public speakers, as presented in Table 4, was 21 and included individual citizens and representatives from the following organizations: Timekeepers Motorcycle Club, Friends of Clear Creek Management Area, Three Rocks Research, Salinas Ramblers Motorcycle Club, California Association of Four-Wheel Drive Clubs, Salinas Valley Rock and Gem Club, and Salinas Ramblers Motorcycle Club.

**Table 4
Speakers during the Public Meeting in Hollister**

Name	Organization
Ross Ross	Timekeepers Motorcycle Club
Ed Tobin	Friends of Clear Creek Management Area
Ray Iddings	Three Rocks Research
Ron Dashazer	Salinas Ramblers Motorcycle Club
Jim Strenfel	Timekeepers Motorcycle Club
Lowell Webb	-
Eric Overeem	-

Sam Bryantino	-
Tyler Pim	-
Jennifer Shreck	-
Randy Beremen	-
Gary Beck	Salinas Valley Rock and Gem Club
Benny King	Salinas Ramblers Motorcycle Club
Miguel Flores	-
Brian LeNeve	-

The comment topics were mostly focused on CCMA temporary closure and inaccessibility to OHVs, OHV use of the CCMA, validity of the risk assessment, public involvement, cultural value of the CCMA, deer hunting, and economic impacts.

CCMA Temporary Closure and Inaccessibility to Public Lands

Ed Tobin, from the Friends of the CCMA, asked for the reopening of the CCMA and noted that it is better to continue using the CCMA than to allow the use of undisturbed areas. Ray Iddings, from Three Rocks Research, noted that Congress guaranteed a right-of-way on all public lands. Ron Deshazer, from the Salinas Ramblers Motorcycle Club, and Sam Bryantino indicated that access to the area should be regulated in a way to the way alcohol and cigarettes are regulated, by notifying users about the health risks on the product labels.

Jim Strenfel, from Timekeepers, and Lowell Webb noted the scarcity of available public lands and parks in the area near the CCMA. Lowell Webb noted that, as a result of lands designated as wilderness and buffer areas, no public land is left. William Borst stated that the BLM has been looking for reasons to close the CCMA for 15 years. Ron Berzeman and Tyler Pim noted that it is the public's right to recreate in this land and asked for a way to protect their rights.

“I still believe that OHV and the environment can coexist and both use the same land, provided that the OHV community lives by the rules set down” Brian LeNeve

Ron Berzeman said that they are doing their part to maintain and preserve the CCMA area. Jay Jacobson, from Adobe Ranch, noted that many illegal activities are happening at the CCMA and the presence of people would help in reducing those activities.

OHV Use of the CCMA

Brian LeNeve, from the California Native Plant Society, noted in a letter read by Ed Tobin, that OHV users and environmental communities can coexist at the CCMA, and asked for the allowance of some sort of riding. Most of the speakers noted the importance and the uniqueness of the CCMA as a world class OHV area. Ron Deshazer, from the Salinas Ramblers Motorcycle Club, stated that 12 motorcycle shops will be closing as a result of the CCMA permanent closure.

Validity of the Risk Assessment Study

Many speakers were concerned about the adequacy of the EPA health risk assessment study. Amy Granat from the California Association of Four Wheel Drive Clubs, asked about the scientific evidence stated in the EPA document and the method used in the analysis. Ray Iddings, from the Three Rocks Research, noted that no illness related to asbestos has been identified yet. Ron Deshazer, from the Salinas Ramblers Motorcycle Club, and Sam Bryantino asked to approach this health-risk issue in the same way as tobacco and alcohol products, where a notification on each product warns about the health risk danger.

Public Involvement

Ross Ross, from the Timekeepers, noted his preference for a public question and answer session during the public meeting, as compared to the open house session, where the discussions with the BLM personnel were on a person-to-person basis.

Jeff Holmbeck said that comments provided during the scoping period were not considered in the Draft RMP/EIS. John Loreur noted that his comments were not considered in the process of alternatives selection. Miguel Flores was concerned that the Draft RMP/EIS does not include input on the EPA health risk assessment report from the public and the BLM. Ron Deshazer, from the Salinas Ramblers Motorcycle Club, noted that the BLM should listen to the taxpayers and questioned the BLM's partnership goals.

Eric Overeem questioned the process and noted that the document is extremely complicated. He noted that the executive summary referred to other documents and requested to review the reference materials. Ron Berzeman stated that none of the alternatives in the Draft RMP/EIS would allow for organized OHV events in the CCMA.

Ron Deshazer, from the Salinas Ramblers Motorcycle Club, expressed his concern with the Draft RMP/EIS size and the time allocated for the review period. Amy Granat, from the California Association of Four Wheel Drive Clubs, said that 30 percent of the review period was during the holidays. She offered help to other community members in writing comments and encouraged participation in the comment process.

Cultural Value of the CCMA

Ray Iddings, from Three Rocks Research, noted that the CCMA is a part of California heritage and is home to many civilizations, such as Indian, German, and Irish. He noted the importance of people's continuing presence at the CCMA in relation to the heritage. He said that the CCMA has historic roads under the county's jurisdiction that were previously public roads.

Deer Hunting

A local landowner with property adjacent to CCMA expressed concerns about the lack of opportunities for deer hunters anymore at the CCMA, and requested that BLM consider this recreational resource be included in the CCMA land use plan.

Economic Impacts

John Loreur noted that the Draft RMP/EIS does not address the economic impacts on small business owners within the region. He said that organizations such as the Salinas Valley Rock and Gem Club include approximately 400,000 people.

4.3 SANTA CLARA PUBLIC MEETING

The public meeting in Santa Clara took place at the Santa Clara Convention Center on January 20, 2010. Over 400 members of the public attended the meeting. Organizations and affiliations represented during the public meeting are listed in Table 5.

Table 5
Organizations and Affiliations Represented during the Public Meeting in Santa Clara

American Land Access Association	GP Sports
AMA District 36	Granite Bandits
America, Land of the Free	Hopkins and Carley

Fox Shox	US Forest Service
Fremont Honda Kawasaki	Valley Trail Riders
Friends of Clear Creek Management Area	Viewfinders Motorcycle Club
Ghostriders, Inc.	Zoom Cycle Accessories

Similar to the previous two meetings in Coalinga and Hollister, the meeting in Santa Clara started with a one-hour open house, during which personnel from the BLM Hollister Field Office and EPA answered questions on the Draft RMP/EIS. At the end of the open house, Rick Cooper, Manager of BLM Hollister Field Office, summarized the Draft RMP/EIS and the alternatives analyzed. The verbal comment session following the presentation was facilitated by a team from Tetra Tech.

There were 26 public speakers, as presented in Table 6, including citizens and representatives from the following organizations: BlueRibbon Coalition, American Land Access Association, California Federation of Mineralogical Societies, Carnegie Off-Road Enthusiasts, Salinas Ramblers Motorcycle Club, Timekeepers Motorcycle Club, Friends of Clear Creek Management Area, Bay Area Riders Forum, Los Altos Dirt Bike Riders, and California Association of Four Wheel Drive Clubs.

Charles Luhrman	-
Elsa Claire Williams	-
Kendra Williams	-
Lowell Webb	-
Ben Ellis	Los Altos Dirt Bike Riders
Steven Alebo	-
Amy Granat	-
Rena Bettran	-

The comments topics were mostly focused on CCMA temporary closure and inaccessibility to OHVs and gem collectors, validity of the risk assessment study, OHV riding at the CCMA, importance of the CCMA as a mineral resource, public involvement, socioeconomic impacts, and consultations.

CCMA Temporary Closure and Inaccessibility to Public Lands

Speakers expressed their strong concern about the temporary closure of the CCMA. They described this closure as a political process that is not related to health risks. Don Amador, from the Blue Ribbon Coalition, read a letter from a Vietnam Veteran who noted that his family is devastated with this closure. His daughter’s wish, upon return from the Desert Storm Mission, was to ride in the CCMA. Those attending unanimously supported the reopening of the CCMA as one of the speakers requested a show of hands. Ron Deshazer, from the Salinas Ramblers Motorcycle Club, and Justin Hensley called for a protest near the CCMA on May 2. Justin Hensley asked the audience to fight for the freedom of using public lands.

Dave Duffin, from the Carnegie Off Road Enthusiasts, described the CCMA as a good solid form of recreation. Allan Diehr noted that other recreation areas in the region, such as national forests, are also going through a route designation process that could substantially reduce the available recreation areas. Kendra Williams emphasized the connection between outdoor recreation and current social issues, such as obesity. Two children, Elsa Williams and Josephine Marriner, asked for the reopening of the CCMA and encouraged others to join the effort for the purpose of restoring access to the CCMA.

Ross Ross, from the Timkeepers, noted that the CCMA temporary closure is enabling illegal activities in the area, such as the cultivation of marijuana.

Validity of the Risk Assessment Study

The speakers noted their concern with the EPA health risk assessment and the conclusions presented in the Draft RMP/EIS. Terry Pederson, from Timekeepers, Amy Granat, from the California Association of Four Wheel Drive Clubs, and Dan Brown, from ALAA, said that the conclusions of the EPA analysis are faulty and do not consider the variation in health risks in relation to the different groups of asbestos fibers. The speakers said that the type of asbestos in the CCMA is chrysotile, and neither the EPA document nor the Draft RMP/EIS account for the different types of asbestos fibers. Ed Tobin, from the Friend of the CCMA, noted that the short-term exposure to the chrysotile asbestos fiber is not harmful. Dan Brown, from ALAA, also indicated that this type of asbestos is not carcinogenic, according to several medical societies. Allan Diehr stated that no history of illness in relation to asbestos exposure at the CCMA has been proved. He noted that hundreds of visitors have been coming to the CCMA for over 40 years, with no reported diseases. He asked for epidemiological reports that document diseases linked to the asbestos in the CCMA. David Doudna said that the risk of a fatal vehicle accident driving along Highways 101 and 25 are far greater than the health risk from asbestos exposure in the CCMA.

Ross Ross said that the risk assessment model used in the EPA document is flawed and illogical. Bruce Brazil, from the Carnegie Off Road Enthusiasts, said that previous discussions showed uncertainty in the toxicity of asbestos, and Kane Silverberg asked for a peer entity to conduct a risk assessment study and assess the analysis provided in the EPA document. Steven Alebo asked for sampling to be conducted during wet periods when less dust is present in the air. He said that the BLM was collecting asbestos samples during a very dusty month, and the resulting analysis concluded that asbestos levels are very high. Amy Granat, from the California Association of Four Wheel Drive Clubs, noted that the risk estimate pertains to heavy industrial exposure to asbestos and not to the type of asbestos found in the CCMA and not the kind of exposure of visitors to this area.

Kane Silverberg expressed his concerns with the interpretation of the EPA report in the Draft RMP/EIS. He asked why the BLM is relying on only one report. He said that the EPA has made other statements about short-term and long-term exposure to asbestos that were not included in the Draft RMP/EIS. Speakers noted their concerns with the selection of the preferred alternative and its lack of OHV opportunities. They asked to consider another way to limit the risk, such as encapsulation or remediation.

OHV Use of the CCMA

Speakers noted the importance of OHV recreation in California. Allan Deihr from Save Clear Creek stated that 14.2 percent of California households are OHV users and 80 percent of the CCMA visitors are OHV riders. He added that there are no OHV recreation opportunities on the other public lands administered by the Hollister Field Office. Jim Strenfel, from Timekeepers, noted that Santa Clara County alone has 26,000 registered OHV riders. Don Amador from the Blue Ribbon Coalition read a letter from a Vietnam veteran colleague, who noted that his daughter's wish, upon returning from Desert Storm, was to ride in the CCMA once again. Most of those attending indicated that they have

been riding for 20, 30, or 40 years and described the uniqueness of the CCMA and their attachment to this land and the OHV sport. Speakers also noted their continuous care and attention in preserving the CCMA and keeping it clean.

Gary Willard said that the OHV program is under a lot of pressure, and the CCMA has a great importance to this program. Jim Strenfel, from Timekeepers, stated that only 4 out of 13,000 acres of BLM land are for OHV use. He asked those in attendance for their opinion on the CCMA temporary closure. The unanimous opinion was to reopen the CCMA. Children were present among the speakers and noted their interest in riding at a very young age (4 years) and the importance of this sport on the parent-child relation and family values. Speakers, including the children, noted that riding is healthier than watching TV. They noted that children cannot play outside their homes freely and need open spaces such as the CCMA to play and learn about nature.

Ron Deshazer, from the Salinas Ramblers Motorcycle Club, expressed his will to work with the BLM toward a resolution. He indicated that OHV riders cooperated with the BLM when they started closing the CCMA for certain days and when they added a fee to ride in the CCMA. He is concerned with the continuous increase in restrictions. He noted that health risks associated with dust could be reduced by enforcing a speed limit in the CCMA.

Ed Tobin, from Friends of the CCMA, stated that a toxicologist suggested an alternative of OHV access to the CCMA during weekends instead of five weekdays. This alternative was not analyzed in the Draft RMP/EIS. Terry Pederson, from Timekeepers, noted that the EPA report is overestimating the ration of time with speed average. He added that the report uses 20 miles per hour during 6 hours per day. He stated that the average speed during a race is 15 miles per hour and that a person would ride at the CCMA an average of 3 to 4 hours a day at a 12 miles per hour.

Bruce Brazil, from the OHV community, noted that the Draft RMP/EIS is biased and against OHV riding. He said the only alternative presented in the Draft RMP/EIS that does not propose access fees does not include OHV use, and that the conclusion of the Draft RMP/EIS should be the result of a thorough analysis of the data and the sources and methods used to get these data. David Doudna asked for the definition of “full-sized” vehicles, as used in the Draft RMP/EIS. He noted that they had to ask about the definition during the open house session of the public meeting. He felt that the BLM definition really means “no motorcycles”, and there is no justification in the document for restricting the use of this type of vehicle.

Speakers noted the impacts of the CCMA temporary closure. Gary Willard stated that it is increasing the impacts on other areas. Ben Ellis, from Los Altos Dirt Bike Riders, called for the support of an alternative that would allow OHV use.

Importance of the CCMA as a mineral resource

Speakers representing rockhounds stressed the importance of the CCMA as a unique mineral resource. Dan Brown, from ALAA, stated the CCMA is the most mineralized

area in the California, containing over 500 minerals, and that the Draft RMP/EIS does not include any alternative that suits the rockhounds needs. He asked for a balanced alternative that addresses all the needs.

Public Involvement

Dave Duffin from Core Carnegie Off Road Enthusiasts noted that the best comment made during the scoping meeting was that BLM and EPA did not answer any of the questions. Gary Willard and Charles Luhrman asked for an extension of the review period. Amy Granat, from the California Association of Four Wheel Drive Clubs, and Ross Ross, from Timekeepers, encouraged the participants to engage in the environmental review process and to provide comments on the Draft RMP/EIS. Ed Tobin, from the Friend of CCMA, and Ross Ross, from Timekeepers, encouraged participants to donate to the CCMA organizations to help protest the temporary closure and file lawsuits if needed. Amy Granat offered help in drafting comments and provided guidance on substantive comments.

Gary Willard, of the California OHV Commission, expressed his personal disappointment with the process and said that there should have been a more detailed overview of the alternatives during the public meeting.

Socioeconomic Impacts

Terry Pederson, from Timekeepers, noted that the Draft RMP/EIS does not include an alternative that is economically viable.

“When Clear Creek closed our gross sales plummeted 40 percent. We catered to hundreds of Clear Creek riders who purchased gear, tires, number for races, clothing, etc”
Danny Danning – Zoom Cycles Accessories.

Kevin Murphy, from America Land of the Free, stated that the Draft RMP/EIS does not consider impacts on families and children. He asked why the BLM would prohibit one of the healthiest ways for a family to spend a weekend.

Consultation Process

Bruce Brazil, from CERA, expressed his concern with the socioeconomic meeting that the BLM had scheduled during February and noted that this meeting with local governments should have been done long ago.

5. CONCLUSION

The public meetings served to gather the public comments and concerns regarding the alternatives analyzed in the Draft RMP/EIS. Most of the comments were related to the temporary closure of the CCMA, validity of the health risk assessment, and public involvement in the NEPA process. In general, the comments reflected local social and economic impacts of the temporary closure.

As noted above, the Hollister Field Office will prepare a Proposed RMP and Final EIS that incorporates public comments and other agencies’ input. A summary of all the written public comments received and official responses will be included in the CCMA

Proposed RMP and Final EIS. As a result, the final land use decision for the CCMA may be different from the Preferred Alternative analyzed in the Draft RMP/EIS. The proposed RMP and final EIS will identify any major changes to the Preferred Alternative.

APPENDIX A
NOTICE OF AVAILABILITY

[Federal Register: December 4, 2009 (Volume 74, Number 232)]
[Notices]
[Page 63764-63765]

DEPARTMENT OF THE INTERIOR
Bureau of Land Management
[LLCAC09000 L16100000.DP0000]

Notice of Availability of Draft Resource Management Plan and Draft Environmental Impact Statement for the Clear Creek Management Area, CA

SUMMARY: In accordance with the National Environmental Policy Act of 1969 and the Federal Land Policy and Management Act of 1976, the Bureau of Land Management (BLM) has prepared a Draft Resource Management Plan and Draft Environmental Impact Statement (RMP/EIS) for the Clear Creek Management Area (CCMA), and by this notice, announces the opening of the public comment period.

DATES: To ensure that comments will be considered, the BLM must receive written comments on the Draft RMP/EIS within 90 days following the date the Environmental Protection Agency publishes its Notice of Availability in the Federal Register. The BLM will announce future meetings or hearings and any other public involvement activities at least 15 days in advance through public notices, media news releases, and/or mailings.

ADDRESSES: You may submit comments at the public meetings or by any of the following methods:

Mail Address: BLM Hollister Field Office, 20 Hamilton Court, Hollister, California 95023.
E-mail: cahornp@ca.blm.gov.
Fax: (831) 630-5055.

The CCMA Draft RMP/EIS is available on-line at: <http://www.ca.blm.gov/hollister>. Compact discs (CDs) of the CCMA Draft RMP/EIS are available at the Hollister Field Office at the above address; CD copies are also available at the BLM California State Office, 2800 Cottage Way, Sacramento, California 95825.

FOR FURTHER INFORMATION CONTACT: Sky Murphy, BLM Hollister Field Office, 20 Hamilton Court, Hollister, California 95023, (831) 630-5039.

SUPPLEMENTARY INFORMATION: The planning area covers approximately 75,000 surface acres and approximately 3,500 acres of subsurface mineral estate in San Benito and Fresno counties, California. The CCMA RMP, when completed, will provide management guidance for use and protection of the resources managed by the Hollister Field Office. The CCMA Draft RMP/EIS has been developed through a collaborative planning process among local, State, and Federal agencies and considers seven alternatives. The primary issues addressed include public health and safety, recreation, protection of sensitive natural and cultural resources, livestock grazing, guidance for energy and mineral development, land tenure adjustments, and other planning issues raised during the scoping process.

The Draft RMP/EIS also designates an Area of Critical Environmental Concern (ACEC). The preferred alternative would carry forward the designation of the existing 30,200-acre Clear Creek Serpentine ACEC to protect public health and safety and other resource values identified in the Draft RMP/EIS. Restrictions on the use of public lands within the Serpentine ACEC to minimize human health risks from exposure to asbestos and reduce airborne emissions of asbestos from BLM management activities vary among the range of alternatives, but are likely to include limitations on motorized vehicle use and many other surface disturbing activities.

Please note that public comments and information submitted including names, street addresses, and e-mail addresses of respondents will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment--including your personal identifying information--may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dianna Brink,
Acting Deputy State Director for Natural Resources.

Decision). The matter has been stayed during settlement negotiations. The Ninth Circuit stayed litigation regarding similar challenges to the Lakeview RMP in *Oregon Natural Desert Association v. Gammon*, No. 07–35728 (9th Cir.), pending resolution of the Southeastern Oregon RMP case, and to allow for settlement negotiations between the parties. The BLM is preparing RMP Amendments/EISs consistent with the 2008 holding of the Ninth Circuit.

The two RMP Amendments/EISs plan to address the following issues:

- Consideration of information from updates of resource information related to wilderness characteristics;
- Development of a range of allocation alternatives with respect to ORV use, travel, and transportation; and
- Development of grazing management alternative(s).

The purpose of the public scoping processes is to determine other relevant issues that will influence the scope of the environmental analyses, including alternatives, and guide the planning processes.

The BLM has also identified some preliminary planning criteria to guide development of the RMP Amendments, to avoid unnecessary data collection and analysis, and to ensure the RMP Amendments are tailored to the issues. These criteria may be modified and/or other criteria may be identified during the public scoping process. Preliminary planning criteria include compliance with all legal mandates of the FLPMA, the NEPA, the Federal Advisory Committee Act, the Administrative Procedures Act, the BLM planning regulations in 43 CFR part 1600, and other relevant laws. The following planning criteria will also guide the planning processes:

- The principles of multiple-use and sustained yield will be observed;
- A systematic interdisciplinary approach to integrate, physical, biological, economic, and other sciences will be used;
- Priority will be given to the designation and protection of Areas of Critical Environmental Concern;
- The best available data regarding natural resources will be used, to the extent possible;
- Present and potential uses of public lands will be considered;
- The relative scarcity of values and availability of alternative means and sites for recognizing those values will be considered;
- Long term benefits to the public against short term benefits will be weighed;
- Tribal, Federal, and state pollution laws, standards and implementation

plans will be complied with, to the extent possible; and

- Consistency and coordination with other programs, plans and policies will be sought.

You may submit comments on issues and planning criteria in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the **ADDRESSES** section above. To be most helpful, you should submit comments either prior to the close of the 90-day scoping period or within 30 days after the last public meeting. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. The BLM will evaluate identified issues to be addressed in the RMP Amendments, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of the plan amendments.

The BLM will provide an explanation in the Draft RMP Amendments/EISs as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the RMP Amendments. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the RMP Amendments in order to consider the variety of resource issues and concerns identified. At a minimum, specialists with expertise in the following disciplines will be involved in the planning processes: Rangeland management, wilderness, travel management, recreation, and wildlife.

Authority: 40 CFR 1501.7; 43 CFR 1610.2.

Larry Frazier,

Acting Vale District Manager.

Carol Benkosky,

Lakeview District Manager.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLCAC09000 L16100000.DP0000]

Notice Re-opening the Comment Period for the Draft Resource Management Plan and Draft Environmental Impact Statement for the Clear Creek Management Area, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) announces a re-opening of the comment period on the Draft Resource Management Plan (RMP) and Draft Environmental Impact Statement (EIS) for the Clear Creek Management Area (CCMA). The original notice was published in the **Federal Register** on December 4, 2009 [74 FR 0232] and provided for a comment period to end on March 5, 2010. The BLM is re-opening the comment period to end April 19, 2010.

FOR FURTHER INFORMATION CONTACT: Sky Murphy, BLM Hollister Field Office, 20 Hamilton Court, Hollister, California 95023, (831) 630–5039.

SUPPLEMENTARY INFORMATION: The original Notice of Availability provided for comments on the Draft RMP/Draft EIS to be received through March 5, 2010. The BLM is re-opening the comment period in response to and in light of the land use restrictions considered in the plan. Comments on the Draft RMP and EIS will now be accepted through April 19, 2010.

Karen Montgomery,

Acting Deputy State Director for Natural Resources.

APPENDIX C
MEETING MATERIALS

BUREAU OF LAND MANAGEMENT

Draft Clear Creek Management Area Resource Management Plan & Environmental Impact Statement

Public Meeting
5:30-8:30 p.m.

AGENDA

Open House: 5:30-6:30 p.m.

- **Please Sign-In**
- **Speaker Registration** located at NEPA Station
- **Citizen's Guide to NEPA** located at NEPA Station
- **Public Comments Forms** available at all Stations
- **Q&A with BLM, and EPA specialists, NEPA Facilitators**

Formal Presentations: 6:30-7:00 p.m.

- **RMP/EIS Overview & Schedule** – Rick Cooper, BLM Hollister Field Office
- **Public Involvement & Ground Rules for Speakers** – Kelly Bayer - Facilitator, Tetra Tech Inc.

Public Comment Session: 7:00 – 8:30 p.m.

- **Allow 3 minutes** for each (*registered*) public speaker to provide comments.

Closing Remarks / Next Steps

Thanks for your participation!

A Citizen's Guide to the NEPA, Having your Voice Heard.

The following information was adapted from the document (identified above), prepared by the Council of Environmental Quality, from the Executive Office of the President.

For a full version of this document please consult the following Web site:
http://ceq.hss.doe.gov/nepa/Citizens_Guide_Dec07.pdf

PURPOSE OF THE GUIDE

This guide has been developed to help citizens and organizations who are concerned about the environmental effects of federal decision-making to effectively participate in Federal agencies' environmental reviews under the National Environmental Policy Act (NEPA).

PURPOSE OF THE NEPA

NEPA requires Federal agencies [i.e. BLM] to prepare Resource Management Plans (RMP) and Environmental Impact Statements (EIS) that describe environmental effects of management alternatives that include, among others, impacts on social, cultural, and economic resources, as well as natural resources and public health and safety.

The environmental review process under NEPA provides an opportunity for you to be involved in the Federal agency decision-making process. It will help you understand what the Federal agency is proposing; and to offer your thoughts on alternative ways to accomplish what the agency is proposing, or comments on the analysis of the environmental effects of the proposed action [i.e. Preferred Alternative] and possible mitigation of potential harmful effects of such actions.

HOW TO COMMENT

Public comments should be clear, concise, and relevant to the analysis of the proposed action.

- ✓ Take the time to organize thoughts and explain your views as clearly as possible.
- ✓ As a general rule, the tone of the comments should be polite and respectful.
- ✓ Solution oriented comments are more effective than those that simply oppose the preferred alternative.
- ✓ Describe any assumptions that you used.
- ✓ Provide technical information and/or data to support your views.
- ✓ Provide specific examples to illustrate your concerns.
- ✓ Offer reasonable alternatives or solutions.
- ✓ Make sure to edit written comments and submit them by the comment period deadline.

In drafting comments, try to focus on the *purpose and need* of the proposed action, the *range of alternatives*, the assessment of the *environmental impacts* of those alternatives, and the *proposed mitigation*. It also helps to be aware of what other types of issues the decision-maker is considering in relationship to the proposed action.

Please note that commenting is not a form of "voting" on an alternative. Numerous comments that repeat the same basic message of support or opposition will typically be responded to collectively.
