Bond Accepted

The above- identified bond, Bond No. 09057368 was filed in this office on August 24, 2011.

On January 5, 2011, Genesis Solar, LLC (the “Holder”) submitted a surety bond (Bond No. 09026719, executed on December 10, 2010) to the BLM in the amount of \$275,000.00. The bond amount was determined by the National Bond Review Team and was intended to cover Phase I of development of the Genesis Solar Energy Project. On August 12, 2011, the Holder submitted an increase rider to this field office, requesting approval to increase the penalty of the bond to \$22,978,824.14, to cover the project in its entirety. This amount reflected the total cost for project reclamation and decommissioning as outlined in the Final Decommissioning Plan and Reclamation Cost Estimate (RCE) provided to BLM on August 1, 2011.

After review of the original bond, BLM requested that Genesis Solar, LLC include additional clarification language to the bond, which has been included in the new bond, Bond No. 09057368. The original bond, Bond No. 09026719, will be released and the current bond will cover the project in its entirety. The

current bond reflects the total cost outlined in the Final RCE provided to BLM on August 1, 2011. This document was reviewed and approved by the California State Office and Palm Springs-South Coast Field Office on August 1, 2011.

The bond has been examined and found satisfactory. It is hereby accepted effective the date it was filed, August 24, 2011.

The purpose of this bond is to cover any potential noncompliance, reclamation, or decommissioning associated with the right-of-way grant, CACA 048880. This bond will continue to be held by this office. Termination of liability under the bond will be permitted only after this office is satisfied that there is no outstanding liability on the bond or satisfactory replacement bond coverage is furnished.

If you have any questions, please contact Allison Shaffer, Realty Specialist at (760) 833-7104.

Sincerely,

for John R. Kalish
Field Manager
