

The Hubbard Mesa OHV Open area is designed for multiple use recreation. Hubbard Mesa was designated as an Open Area in June 2007 in the Roan Plateau Management Plan. It is the only designated open area in the Colorado River Valley Field Office and offers 2,460 acres with 50 miles of single track, ATV, and jeep trails. This is a high use area primarily for OHV but also receives use from non-motorized users, target shooters, and livestock grazing.

Rules and Regulations

- Cross country travel is not permitted outside of the open area
- Target shooters must ensure they have a safe backstop and remove all target trash
- Do not approach livestock or protection dogs
- OHV drivers must yield right-of-way to pedestrians and horseback riders
