ERRATA SHEET

Corrections to Grand Junction Field Office Draft Resource Management Plan and Environmental Impact Statement (BLM/CO/PL-12/004)

After printing of the Grand Junction Field Office Draft Resource Management Plan and Environmental Impact Statement, but prior to public release, the BLM identified the following corrections to the appendices to the Draft. These corrections have been made to the electronic PDF files on the website:

- Volume II Appendix A, Figure 2-83 should include the Gunnison River Bluffs Polygon as shown on Figure 2-84 as a proposed No Shooting Area (corrected on CD-ROMs and with a sticker on printed maps in Volume II)
- Volume III, Appendix C, Page C-ES-2 last paragraph should state “Of the 14 stream segments determined to be eligible and studied for suitability in this report, the BLM determined that two portions of the Dolores River are suitable for WSR designation.”
- Volume III, Appendix C, Page C-ES-3 Table ES-1 should state a Preliminary Suitability Determination for the Dolores River as follows:

| River or Creek | Segment | Total Segment Length (miles) | Length on BLM Land (miles) | Preliminary Suitability Determination | Proposed Classification |
|-----------------------|----------------|-------------------------------------|-----------------------------------|--|--------------------------------|
| <i>Dolores River</i> | One segment | 32.01 | 18.62 | | Recreational |
| | | | <i>11.53</i> | <i>Suitable</i> | |
| | | | <i>7.07</i> | <i>Not Suitable</i> | |
