

# Lands with Wilderness Characteristics

## Polygon 052

July 2013

**FORM 1**

**Documentation of BLM Wilderness Characteristics Inventory Findings from Previous Inventory on Record**

**1. Is there existing BLM wilderness characteristics inventory information on all or part of this area?**

**No**  (Go to Form 2) **Yes** (If yes, and if more than one area is within the area, list the unique identifiers for those areas.):

**a) Inventory Source:**

**b) Inventory Area Unique Identifier(s): LWC Polygon 52**

**c) Map Name(s)/Number(s):**

**d) BLM District(s)/Field Office(s):**

**2. BLM Inventory Findings on Record:**

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):

Inventory Source:

<b>Area Unique Identifier</b>	<b>Sufficient Size? Yes/No (acres)</b>	<b>Naturalness? Yes/No</b>	<b>Outstanding Solitude? Yes/No</b>	<b>Outstanding Primitive &amp; Unconfined Recreation? Yes/No</b>	<b>Supplemental Values? Yes/No</b>
<b>LWC Polygon 52</b>	<b>Yes</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>

**FORM 2**

**Current Conditions: Presence or Absence of Wilderness Characteristics**

Area Unique Identifier: **LWC Polygon 52**

Acreage

(If the inventory area consists of subunits, list the acreage of each and evaluate each separately).

In completing steps (1)-(5), use additional space as necessary.

(1) Is the area of sufficient size? (If the area meets one of the exceptions to the size criterion, check "Yes" and describe the exception in the space provided below),

Yes    **X**                      No

Note: If "No" is checked the area does not have wilderness characteristics; check "NA" for the remaining questions below.

Description (describe the boundaries of the area--wilderness inventory roads, property lines, etc.): **Beginning on County Road 9 at the border of BLM and State land, the border travels south west until County Road 118 is reached. From there, continue south east until private land is reached. Private land serves as the southern border until BLM 2196 is reached. At that point BLM 2196 serves as the eastern border, traveling north east. At the border of state and BLM land the northern border continues west until it returns to County Road 9.**

(2) Does the area appear to be natural?

Yes                      No    **N**                      N/A

Note: If "No" is checked the area does not have wilderness characteristics; check "NA" for the remaining questions below.

Description (include land ownership, location, topography, vegetation, and summary of major human uses/activities): **Primitive routes cross the entire unit leading to a heavily impacted polygon. On the state land surrounded by the area, there is an abandoned fuel tanker trailer. This affects the view shed of a large part of the unit and detracts from naturalness. Overall the unit has heavy impacts from motorized use and is not affected primarily by the forces of nature.**

(3) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for solitude?

Yes

No

N/A **X**
